- Without Center Mullion option now on Microwave Cabinets
- Reduced Depth on Tall cabinets down to 6″

New Cabinets and Accessories

Simplified Door Style Reveals:
- There are no longer two reveals. The Select reveal is 11/16″ for all full overlay door styles.

END PANEL CONSTRUCTION NOTE

Standard Select Series is constructed of furniture board end panels with a mixture of complementary and non-matching wood grain laminate. Plywood Cabinet Ends and All Plywood Construction receive unfinished plywood end panels.
Please remember to specify finished ends for all exposed ends*. See end panel options on page Select–1–9.
*Some cabinets are standard with matching finished or flush cabinet ends; refer to the individual cabinet specifications in the specification catalog.

RUSH PROGRAM GUIDELINES

As stated in the Wellborn Cabinet, Inc., Customer Guide, the Rush Program enables Wellborn customers to expedite a limited number of cabinets and accessories on a weekly basis. However, there are some exceptions to this program.

The following categories of items are excluded from our Rush Program in the Select Series:

All hood and hood liners, decorative glass doors, matching tall and linen end panels, manufactured marketing and display materials (except SFK's), stains, increased depth and reduced depth for matching end panels, metal doors, decorative door hardware and other miscellaneous hardware.

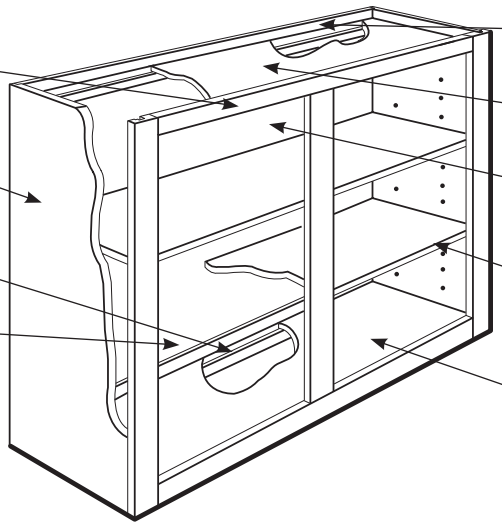
This is not a complete and comprehensive list, but a summary of the categories. (Please refer to your Customer Guide for detailed program information). Items available on the Rush Program are subject to change at Wellborn Cabinet, Inc.'s discretion.

INSTALLATION NOTE

Any wall cabinets greater than 36" wide are not recommended as stand alone cabinets without additional reinforcements above and beyond Wellborn's installation manual guidelines. We also recommend that any stand alone cabinet, regardless of width, be reinforced with angle brackets to help support the weight that is added to cabinet interior from accessories. Wellborn Cabinet, Inc. will not warranty any cabinets that fall as a result of standing alone. It is the dealer's responsibility to design cabinetry that is not single displayed on a wall. Dealer will be obligated to pay the cost of damages if dealer designs kitchen with single cabinets. Wellborn Cabinet, Inc. meets or exceeds KCMA weight requirements.

The Select Series has a machine sanded finishing process and does not include the detailed hand sanding technique featured in the Premier Series. Therefore, Wellborn Cabinet, Inc. does not recommend designs combining these series.

Wall



¾″ x 1¾″ Kiln-dried solid wood face frames; mortised and tenoned, glued and stapled

½″ Complementary wood grain/white/linen laminated furniture board end panels finished on top and bottom edges ★

Hanging rail dadoed to receive cabinet floor

Interior is wood grain/white laminate ★★

Doors have 6-way adjustable WellLine® concealed hinges.

WDSC — Wood Drawer with Full Extension Undermount Drawer Slides featuring Soft Close

All base, vanity/office and tall cabinets with drawers are available with 5/8" solid hardwood dovetail drawer and Full Extension Undermount Drawer Slides featuring soft close. The soft closing function creates a perfectly silent and effortless operation. The last phase of the closing procedure leads to perfect movement without rebounding or springing back. See the Semi-Custom Chart for availability.
Note: Must be ordered for all drawers in cabinet (not available on individual drawers).

To order, use one of the following codes with cabinet item code:
WDSC1 — Cabinets with one drawer
WDSC2 — Cabinets with two drawers
WDSC3 — Cabinets with three drawers
WDSC4 — Cabinets with four drawers
WDSC6 — Cabinets with six drawers
WDSC8 — Cabinets with eight drawers
For Example: B18 WDSC1
4DB24 WDSC4

Pricing
Add $120 List per Drawer

Important Notice: 5-piece drawer fronts attached to plywood dovetail or wood dovetail drawer boxes will have additional bumpers placed on the 'figure 8' drawer front attachment brackets for added protection during shipping. These bumpers should be removed after cabinet installation.

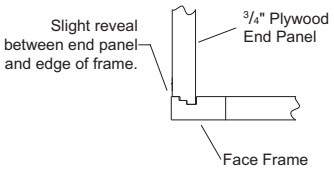
SCH — Smooth Close Hinge Option

The Smooth Close Hinge provides a slow, smooth and controlled closure of doors. It also offers an on/off switch that can be adjusted for the weight of different door styles. This option must be ordered for all doors on a cabinet. It is not available on individual doors. This option will be available to order both at the header level and on individual line items.

To order at the header level, use the following key combination:
SCH—Smooth Close Hinge
For Example: SEL PRA MPL LGT SCH

To order at the line item level, use the following code with the cabinet code:
SCH—Smooth Close Hinge
For Example: B30 SCH

Pricing
Add $6 List per hinge



FCE — Flush Cabinet End

Many wall, base, vanity/office and tall cabinets are available with Flush Cabinet End option. A ¾" plywood end panel is used to create a flush appearance with a slight reveal between the end panel and the edge of the frame. When FCE option is selected end comes finished to match the door finish. See the Semi-Custom Chart for option availability.

To order, use the following codes with cabinet item code:

Code	Wall	Base	Tall
FCEL — Flush Cabinet End Left	$85	$100	$200
FCER — Flush Cabinet End Right	$85	$100	$200
FCEB — Flush Cabinet End Both	$170	$200	$400

For Example: B33 FCEL (Left)
B33 FCER (Right)
B33 FCEB (Both)

- Yields a ¾" flush, finished plywood cabinet end
- See Select–1–9 for details and ordering codes

Field Installed Options:

Applied Door
- Skin the End Panel
- Add appropriate size door

Matching End Panel

Finished Skin

Bead Board Panels

Finish

Cabinet components are machine sanded to prepare the surface for staining. Wellborn hand rubs the stain to enhance the natural wood grain. Three coats of finish, including two coats of high moisture resistant sealers and one top coat of high molecular weight synthetic catalyzed varnish, result in a durable finish. Natural finishes receive two coats of sealer and one top coat. **The Select Series has a machine sanded finishing process and does not include the detailed hand sanding technique featured in the Premier Series. Wellborn Cabinet, Inc. does not recommend designs combining these series.**

Face Frames

1¾" x ¾" Thick kiln-dried solid wood stile and rail members. The center stiles are ¾" x 3½" solid wood. On all blind corner base and blind corner wall cabinets, the center stiles are ¾" x 6½" solid wood. 48" Blind corner base has 9½" center stile. All face frame joints are precisely aligned with blind mortise and tenon, glued and stapled at all joints.

End Panels

½" Thick industrial grade furniture board with complementing wood grain, White or Linen laminate exterior resistant to household chemicals. Interior is wood grain or white laminate. For White and Linen laminate interior will be white. The top and bottom edges of wall cabinet end panels are banded with wood grain or white edge banding. End panels are machined to accept tops, bottoms and back panels.

Wall Cabinet Tops and Bottoms & Base Cabinet Bottoms

½" Thick industrial grade furniture board. These components are laminated with wood grain or white laminate. A dado joint, glue and staples are used to attach the top and bottom into face frames, end panels and hanging rails.

Backs

All backs are ⅛" thick wood grain or white MDF printed on the interior side. Wall cabinet backs are reinforced with 11⁄16" x 3½" laminated fiberboard hanging rails at the top and bottom. Wall cabinet backs are recessed and stapled into end panels, hanging rails and shelves. Base cabinet backs are attached in the same manner; the top and bottom of the base cabinet have 11⁄16" x 3½" laminated fiberboard hanging rails securing the back to the top of the end panel.

Shelves

Wall Cabinets — Adjustable Shelves

All wall cabinet shelves are adjustable and made of ¾" thick industrial grade furniture board. The shelves are laminated with a wood grain or white laminate which is resistant to water and household chemicals. The front edge of the shelf is banded with wood grain or white edge banding. The cabinet sides are drilled for shelf supports which are adjustable at 2½" increments.

Base Cabinets — Adjustable Shelves

All base cabinets have fully adjustable ¾" thick industrial grade furniture board shelves. The shelves are 10 9⁄16" deep and laminated with a wood grain or white laminate. The front edge is banded with a wood grain or white edge banding.

Base Toe Board

The toe kick for base, vanity, utility and oven cabinets is ½" x 4½"— industrial grade furniture board. Toe kicks are unfinished and have rodent proof captive construction.

Drawer — Inner Box Construction

Sides, Sub-Front and Back

The inner box construction includes ¾" wood grain or white furniture board drawer sides, and ½" sub-front and back. All backs and sub-fronts are tenoned into the sides, glued and stapled. The drawer box is screwed to the drawer front with four screws and is a full depth drawer. The drawer has a 75 lb. weight capacity.

Bottoms

⅛" Wood grain or white printed hardboard drawer bottoms dadoed to accept both sides, glued and stapled.

Drawer Slides

Drawers have epoxy coated side mount captive slides that provide smooth, easy operation. The slide has positive stop opening and self-closing features. Drawer slides fit into a bracket mounted to the hanging rail. The bracket allows horizontal drawer adjustability.

6–Way Adjustable Concealed Hinges

Hinges are 6-way adjustable, chrome finished and self-closing with a concealed hinge design.

Traditional Overlay Concealed Hinge Door Styles: Door styles with a concealed hinge and a ½″ side, top and bottom door overlay.

Full Overlay Concealed Hinge Door Styles: The top drawer fronts for bases, vanity bases, base height vanities and vanity linen cabinets are 5⅝″. Base full height doors are 29⅛″ and vanity sink cabinets are 26⅛″. The reveal dimension between the top of the drawer front to the top of the face frame is 11/16″.

Square Door Styles: Represents all Wellborn door styles with square wall and base door designs.

Arch Door Styles: Represents all Wellborn door styles with arch wall and square base door designs.

Miter Door Styles: Represents all Wellborn door styles with mitered door designs.

Arlington Arch

Traditional overlay 3/16″ veneer arch recessed center panel surrounded by 2¼″ solid wood stiles and rails. The cope and tenon joints are bonded with glue and pinned from the back with a ⅝″ steel pin which is concealed with wood filler. The outside perimeter of the door and solid wood drawer front have an attractive profiled edge with a back bevel creating an integral finger pull. Base cabinet doors have a square recessed panel.

Arlington Square

Traditional overlay 3/16″ veneer square recessed center panel surrounded by 2¼″ solid wood stiles and rails. The cope and tenon joints are bonded with glue and pinned from the back with a ⅝″ steel pin which is concealed with wood filler. The outside perimeter of the door and solid wood drawer front have an attractive profiled edge with a back bevel creating an integral finger pull.

Bedford Arch

Full overlay solid wood arched raised center panel door and drawer front with a decorative edge profile. The cope and tenon joints are bonded with glue and pinned from the back with a ⅝″ steel pin which is concealed with a wood filler. Base cabinet doors have a square raised panel.

Bedford Square

Full overlay solid wood raised center panel door and drawer front with a decorative edge profile. The cope and tenon joints are bonded with glue and pinned from the back with a ⅝″ steel pin which is concealed with a wood filler.

Concord

Full overlay mitered construction door and drawer front with ⅜″ veneer raised center panel surrounded by 2¼″ solid wood stiles and rails. The door and drawer front feature a beaded outside perimeter and an attractive multi-step profile.

Franklin

Traditional overlay veneer square recessed center panel surrounded by 2¼″ solid wood stiles and rails. The cope and tenon joints are bonded with glue and pinned from the back with a ⅝″ steel pin which is concealed with wood filler. The outside perimeter of the door and solid wood drawer have a square edge.

Harmony

Full overlay mitered construction door and drawer front with 3/16″ veneer recessed center panel surrounded by 2¼″ solid wood stiles and rails. The door and drawer front feature a beaded outside perimeter and an attractive multi-step profile.

Harvest Arch

Traditional overlay veneer arched raised panel surrounded by 2¼″ solid wood stiles, bottom rail and a 3½″ arched crown. The cope and tenon joints are bonded with glue and pinned from the back with a ⅝″ steel pin which is concealed with wood filler. The outside perimeter of the door and solid wood drawer front have an attractive profiled edge with a back bevel creating an integral finger pull. Base cabinet doors have a square raised panel.

Harvest Square

Traditional overlay veneer square raised panel surrounded by 2¼″ solid wood stiles and rails. The cope and tenon joints are bonded with glue and pinned from the back with a ⅝″ steel pin which is concealed with wood filler. The outside perimeter of the door and solid wood drawer front have an attractive profiled edge with a back bevel creating an integral finger pull.

Millbrook Arch

Full overlay cope and tenon construction door with 3/16″ veneer arched recessed center panel surrounded by 2 9/16″ stiles and rails. Drawer fronts are a one piece design. The outside perimeter of the door and drawer front has a step edge profile. Base cabinet doors have a square recessed panel.

Millbrook Square

Full overlay cope and tenon construction door with 3/16″ veneer square recessed center panel surrounded by 2 9/16″ stiles and rails. Drawer fronts are a one piece design. The outside perimeter of the door and drawer front has a step edge profile.

Prairie

Full overlay veneer square recessed center panel surrounded by 2 9/16″ solid wood stiles and rails. The cope and tenon joints are bonded with glue and pinned from the back with a ⅝″ steel pin which is concealed with wood filler. The outside perimeter of the door and solid wood drawer front have a square edge.

Urban

Full overlay veneer eased edge slab door and drawers with edge banding.

Imperial Thermofoil

Traditional overlay ¾″ fiberboard door with White or Linen thermofoil. The doors have a square raised panel appearance with a decoratively profiled perimeter creating a built-in finger pull.

Nantucket Thermofoil

Full overlay ¾″ fiberboard door and drawer front with White or Linen thermofoil. The doors and drawer fronts have a beaded center panel appearance with a soft eased outside profile.

Newport Thermofoil

Full overlay ¾″ fiberboard door and drawer front with White or Linen thermofoil. The doors and drawer fronts have a recessed flat center panel appearance with a soft eased outside profile.

Sea Spray Arch Thermofoil

Full overlay ¾″ fiberboard door and drawer front with White or Linen thermofoil. The doors have an arch raised center panel appearance. Base cabinet doors have a square raised panel.

Sea Spray Square Thermofoil

Full overlay ¾″ fiberboard door and drawer front with White or Linen thermofoil. The doors have an square raised center panel appearance.

Loft Laminate

Full overlay melamine laminated door and slab drawer fronts are edge banded on all four edges with PVC banding. Both doors and drawer fronts have square edges.

Manchester Laminate

Full overlay melamine laminated door and slab drawer fronts are edge banded on all four edges with PVC banding. Both doors and drawer fronts have square edges.

Alto MDF

Full overlay ¾″ slab MDF door and drawer front.

Belmont MDF

Full overlay ¾″ MDF door and drawer front. The doors have a square raised panel appearance with applied decorative moulding.

Bishop MDF

Full overlay ¾″ five piece MDF wide stile and rail door with slab drawer front. The doors have a square flat panel.

Camden Arch MDF

Full overlay ¾″ MDF door and drawer front. The doors have a arch raised center panel appearance. Base cabinet doors have a square raised panel.

Camden Square MDF

Full overlay ¾″ MDF door and drawer front. The doors have a square raised center panel appearance.

Hancock MDF

Full overlay ¾″ five piece MDF door with slab drawer front. The doors have a square flat panel.

Hartford MDF

Full overlay ¾″ MDF door and drawer front. The doors have a square raised panel appearance with applied decorative moulding.

Trestle MDF

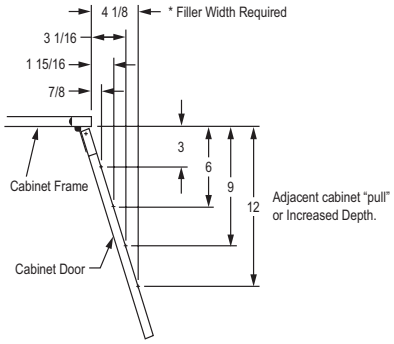
- Only Available in Stains and Stains with Glazes

Installation Recommendations for Applied Moulding Doors Only

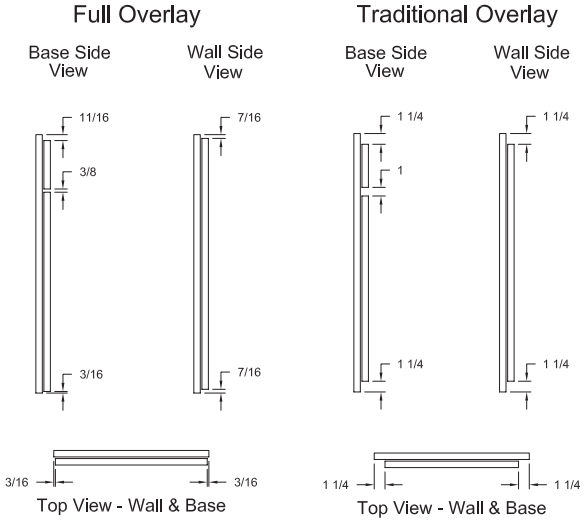
Filler Requirements for Full Overlay Cabinets installed adjacent to "Pulled" or Increased Depth cabinets.

* Add 1/4" to the Filler width if the "Adjacent Cabinet" has standard end panels with the 1/4" scribe on the frame. Cabinets with flush ends would not require the additional 1/4".

A minimum 1/4" Filler is also required on Drawer Base Cabinets Installed in this situation to allow the Drawer Front to clear the 1/4" Frame Scribe when the drawer is pulled out.

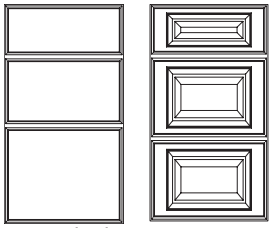


All Base, Vanity and Desk cabinets have a 11⁄16″ reveal for FOL door styles and 1¼″ for TOL door styles at top.



Reveal Notice for The Select Series

Full Overlay Reveal Information	
Visible area from top drawer front to top of face frame	11⁄16″
Top drawer front heights	5 5⁄8″
Full height base door heights	29 1⁄8″
Vanity sink cabinet door heights	26 1⁄8″



Standard Drawer Configuration ***CDF***

CDF — Classic Drawer Front Option

A 5-piece Classic Drawer Front option is available on specified door styles. See Door Style Chart for availability indicated with ■. CDF option can be ordered at the header level to apply to your entire order or at the line item level for specific cabinets.

To order at header level, use the following key combination:
CDF — Classic Drawer Front
For Example: SEL SSS CDF TMF WHT

To order at line item level, use the following code with cabinet item code:
CDF — Classic Drawer Front
For Example: B21 CDF1

Note: For all door styles, drawer fronts less than 4 5⁄8″ will remain one piece.

Important Installation Notice: 5-piece drawer fronts attached to plywood dovetail or wood dovetail drawer boxes will have additional bumpers placed on the 'figure 8' drawer front attachment brackets for added protection during shipping. These bumpers should be removed after cabinet installation.

Pricing
Cabinet List Price +
CDF option List Price $80 (per each drawer) +

For Example: 3DB18 CDF3

Cabinet List Price	$800
CDF option list price:	$240
Total List Price	$1040

Non-matching grain pattern

HGDF — Horizontal Grain Drawer Front Option

This option is only available on Urban door style. HGDF option can be ordered at the header level to apply to your entire order or at the line item level for specific cabinets.

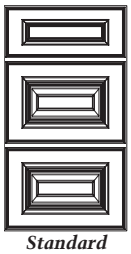
To order at header level, use the following key combination:
HGDF — Horizontal Grain Drawer Front
For Example: SEL UBN HGDF OAK LGT

To order at line item level, use the following code with cabinet item code:
HGDF — Horizontal Grain Drawer Front
For Example: B21 HGDF1

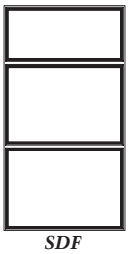
Pricing
Cabinet list price +
HGDF option list price $80 (per each drawer)

For Example: 3DB18 HGDF3

Cabinet list price:	$800
HGDF option list price:	$240
Total list price	$1040



Standard Drawer Configuration



SDF

SDF — Slab Drawer Front Option

A one piece or slab drawer front is available on specified door styles. See Door Style Chart for availability indicated with ❑. SDF option can be ordered at the header level to apply to your entire order or at the line item level for specific cabinets.

To order at header level, use the following key combination:
SDF — Slab Drawer Front
For Example: SEL BEL SDF MDF GLR

To order at line item level, use the following code with cabinet item code:
SDF — Slab Drawer Front

All finishes for a species are available on all door styles in that species unless noted. For example, all cherry finishes are available on all cherry door styles.
❋ Urban is only available in Stains and Stains with Glazes for its available wood species.
■ Classic Drawer Front Option — CDF available as an option on these door styles. Add a charge of $80 List for each drawer and blank front.
❑ Slab Drawer Front Option — SDF available as an option on these door styles at no charge.
▲ Standard drawer front configuration
HGDF■ Horizontal Grain Drawer Front — HDGF available as an option on this door style. Add a charge of $80 List for each drawer and blank front.

Determining Series Ordering Codes:
To determine series ordering code, add the desired series code, door style code and species code to the preferred finish code.
For example:

Series Code		Door Style Code		Drawer Front		Species Code		Finish Code		Glaze Option		Series Ordering Code
SEL	+	SSS	+	CDF	+	TMF	+	WHT	+		=	SEL SSS CDF TMF WHT (Select Series)
SEL	+	MBA	+		+	MPL	+	HON	+	JAV	=	SEL MBA MPL HON JAV (Select Series)

Painted Medium Density Fiberboard (MDF) doors will display a color variance from the painted maple face frames, corbels, mouldings and other accessory items made with solid maple wood or maple plywood used in the same finish due to the MDF substrate material. This is not considered a defect and is not covered under warranty.

Laminate doors will display a variance from the finished face frames, corbels, mouldings and other accessory items made with solid wood or plywood in the same finish. This is not considered a defect and is not covered under warranty.

Important Installation Notice: 5-piece drawer fronts attached to plywood dovetail or wood dovetail drawer boxes will have additional bumpers placed on the "figure 8" drawer front attachment brackets for added protection during shipping. These bumpers should be removed after cabinet installation.

Available to Order May 2, 2016

Wellborn Cabinet, Inc. makes all MDF door styles from a Premier Superior Refined Medium Density Fiberboard to provide better quality from the start for a beautiful finish.

NE Natural Ends

Available to Order May 2, 2016

All finishes notated "NE Natural Ends" will have as indicated natural maple wood grain laminate end panels (does not match cabinet front). Please refer to Smart Checks for available options on exposed ends. For example, order a finished skin to field install or Matching Finished End.

For finishes not notated NE, the standard end panels is ½" complementary wood grain/white/linen laminated furniture board end panels with edge banding. See our Smart Check Option sheet for all available end panel options.

The Select Series has a machine sanded finishing process and does not include the detailed hand sanding technique featured in The Premier Series. Therefore, Wellborn Cabinet, Inc. does not recommend designs combining these series. Any claims arising from or related to cabinet finish matching in such blended or mixed designs is specifically and expressly not covered under any warranty provision.

Cherry Stains

Natural Cherry: Natural wood with a light sap stain
Saffron Cherry: A light stain
Light Cherry: A light cherry stain
Dark Cherry: A dark cherry pre-stain with a medium stain

Maple Stains

Medium Maple: A medium maple pre-stain with a light stain

Maple, Oak and Hickory Stains

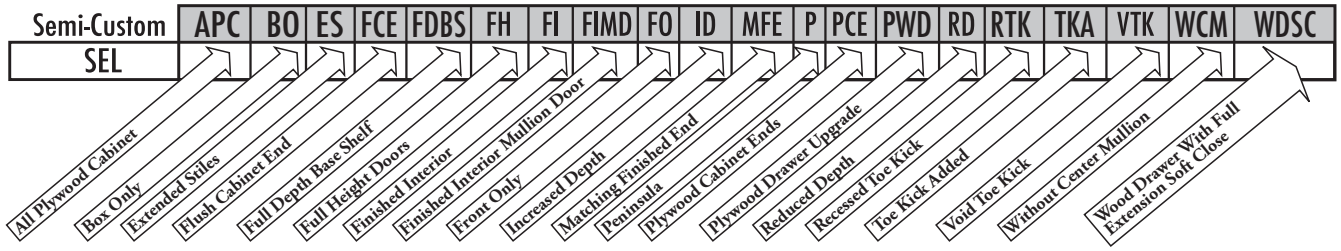
Dove Slate: A light gray painted finish with a gray Slate glaze
Glacier Java: A white paint with a dark brown Java glaze
Pebble Java: A taupe painted finish with a dark brown Java glaze
Sandstone Slate: A cream paint with a gray Slate glaze
Willow Slate: A mid-tone paint with a gray Slate glaze

All Stains, Stains with Glazes, Paints and Paints with Glazes will have a low sheen top coat.

Symbols Used in Semi-Custom Chart

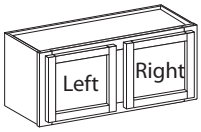
● = Semi-Custom Option Available
▲ = Semi-Custom Option Standard with Cabinet



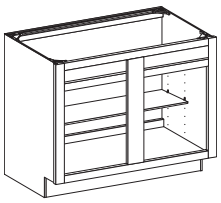
When ordering semi-custom options, please note that all paperwork from our factory will show an asterisk (*****) at the end of the nomenclature. This will help identify the cabinets with modifications. Please note this change when reviewing confirmations, invoices, shipping labels, etc.

For Example:
W3030* FIMD P RD9 **W1230* L ID15** **B12* R FH**

Always face cabinet when determining left or right specifications



Sequence of Mods: All modifications to cabinet construction, size, valances or configuration will take precedence over changes to doors or installed options. **For example:** IF will occur before DDFIN.



B30 BO

BO — Box Only

Many cabinets can be ordered as Box Only. Box Only option eliminates all the doors, drawer fronts, drawers and cabinet hardware from the cabinet. **Not available with Finished Interior option**. See the Semi-Custom Chart for option availability.

To order, use the following code with cabinet item code:
BO — Box Only
For Example: B30 BO

W3030 FIDDF CG

FIDDF — Finished Interior Decorative Door Frames

Many wall, base, vanity/office and tall cabinets can be ordered with Finished Interior Decorative Door Frames on the cabinet. When choosing this option, **ALL** standard doors will be replaced with decorative door frames and the entire cabinet interior will be finished. Cabinet construction is ½" wood veneered plywood end panels with matching finished exterior and interior. Top, bottom and back are ½" plywood with finished interior and laminated exterior. Cabinet includes matching ¾" shelves, is predrilled for shelves and has chrome shelf supports which mount underneath the shelf. For Laminate, MDF and Thermofoil door styles, shelves are painted plywood. For Belmont and Hartford door styles, the glass inserts directly against the applied moulding. Not available with Box Only option. Not available with Alto, Loft, Manchester or Urban door styles. **Glass options are non-tempered and therefore not recommended for base applications or near interior and exterior doors. Glass patterns run vertically with the height of the door. Not available on entertainment cabinets and all cabinets with a kit installed or any open cabinets that do not come standard with doors.** All cope and tenon tall doors greater than 48" high will have a center rail and two panels.

To order, use the following codes with cabinet item code:

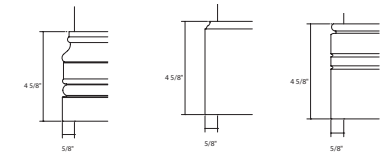
VSDB36L VTK FCE DBP4IN-CBM



DBP4IN-CBM DBP4IN-FBM DBP4IN-BM

DBP4IN — Decorative Base Platform Installed

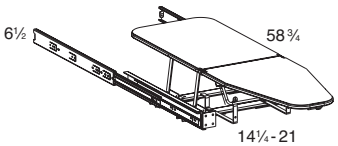
Available on vanity cabinets. This option applies base moulding around the bottom of the vanity. This option requires that VTK and FCE options be applied to the cabinet.

To order, use the following item codes with the cabinet item code:

Codes	Description	Pricing per sq. ft.
DBP4IN-FBM	— Decorative Base Platform with Furniture Base Moulding Installed	$35 List
DBP4IN-CBM	— Decorative Base Platform with Classic Base Moulding Installed	$50 List
DBP4IN-BM	— Decorative Base Platform with Base Moulding Installed	$35 List
For Example:	VSDB36L VTK FCE DBP4IN-CBM	

To calculate the price:
The Decorative Base Platform is price by square feet. There is a minimum charge of eight (8) square feet. For measurements greater that 8 sq. ft., use the individual moulding list price times the number of square feet.

Example:
Cabinet size
60″ x 21″= 1260 ÷ 144 = 8.75 x $50 List = $437.50 List



DIBIN

DIBIN — Drawer Ironing Board Installed

The Drawer Ironing Board will fit in a B18 or B21. It is available for the top drawer only. This kit replaces the drawer. Not available with Reduced Depth or Box Only options.

To order, use the following code:

VB18WB WBTTOIN

TTOIN — Touch to Open Installed

Touch To Open is available on many cabinets with drawers and wastebasket cabinets. This option installs an electrical kit (requiring electrical access) that assist in opening drawers/doors with just a touch to the drawer/door front. Touch To Open is available for the top drawer only or all drawers in the cabinet; meaning there are multiple codes available for cabinets with more than one drawer.

This option is not available on cabinets with Full Height Doors or Box Only options. Options that apply to specific drawers such as Cutting Board Drawer Installed, Cutting Board and Knife Drawer Installed, Wood Tiered Cutlery Tray Installed options will not have the TTOIN option for the affected drawer(s). This option will also not be available for file drawers, U-drawers, drawers that are less than 8″ wide or drawers that are less than 3 7/16″ tall.

Installation Charge	$ 100
Total List Price	$ 646

PRICING GUIDELINES

Wellborn offers a simplified price structure to upgrade from The Select Series. Simply price your cabinet in The Select Series. Please refer to the detailed pricing procedure below to determine your new list price.

See the Wellborn Price Catalog for pricing details on those options.

Steps	*Procedures*	*Examples*	*Amount*
1. List Price	Start with cabinet list price for any series – Select/Premier.	Find Cabinet List Price.	$336.00
2. Subtotal	This Subtotal should be rounded to the whole dollar.	Next round to whole dollar.	$336.00
3. Specialty Finish Charge	Calculate finish upcharge based on total from Step 2. Do not round.	Calculate finish upcharge. Multiply Step 2 by specialty finish upcharge. ($336 x 15% = $50.40)	$50.40
4. SC-1	Calculate Semi-Custom options with percentage upcharges (For Example, RD/P). If you have multiple options, add the percentages together and calculate based on total in Step 2. Do not round.	Calculate SC-1 upcharges. For example, if Reduced Depth (30%) and Peninsula (65%) options are selected, add percentages together and then multiply total percentage by Step 2 subtotal. ($336 x 95% = $319.20)	$319.20
5. SC-2	Add Semi-Custom options with list price upcharges (For example, ES/CCL). If you have multiple options, add totals together. Do not round.	Add SC-2 upcharges. For example, if ESR3 ($130) and CCL ($250) are selected, add list prices together. ($130 + $250 = $380)	$380.00
6. Total	Total amounts from Steps 2-5. This is your total list price including specialty finish upcharges and Semi-Custom options. Do not round.	Add Steps 2-5 for Total List price. ($336.00 + $50.40 + $319.20 + $380 = 1,085.60)	$1,085.60

Finish up-charges only apply to the cabinet list price. Finish up-charges are not applied to any Semi-Custom options.

SC-1

Semi-Custom Options (Percentage)

APC – All Plywood Construction

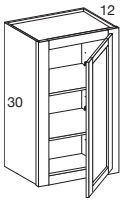
WTD9IN – Wire Tray Divider Installed
WTD12IN – Wire Tray Divider Installed

Note: Due to construction options and various packaging requirements, weights shown in this catalog may vary from actual weight.

STANDARD DOOR HINGE INFORMATION

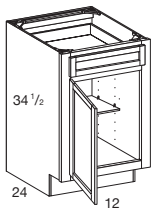


W1230 R
Right Hinge

All single door cabinets must be specified left or right hinge. These cabinets will have "L/R" immediately following their nomenclature throughout the catalog. Face cabinet when specifying left or right.

For example: W1230 L/R
When ordering, specify either W1230 L for left hinge or W1230 R for right hinge.

Direct Connect automatically defaults hinging to Left. You must remember to change it if you need the door hinged Right.



B12 L
Left Hinge

WELLBORN SYMBOLS

Launch Dates are notated by the following shading.

Available to order May 2, 2016

L/R All single door cabinets must be specified left (L) or right (R) hinge.

The "FR" symbol denotes items that are available in the Function Ready Program. In the Function Ready Program, many cabinets are available with accessory kits and decorative/mullion doors installed at the factory.

Design Idea The "Design Ideas" symbol references a design idea that can be found in the Wellborn Specification Catalog.

\+ The '+' symbol in APC price column refers to option availability and the upcharge for the option.

SUBSTITUTIONS

To allow our customers more design flexibility, substitutions are made for species and finishes and are noted in the specification catalog where applicable. Please note that these substitutions will complement your designs but will not be an exact match. Common substitutions in our catalogs are listed below:

Oak is substituted for Hickory.

For MDF and Thermofoil door styles, item is painted maple. For Laminate door styles in Natural Maple, Sienna, Spiceberry, Linen or White finishes, item is finished maple. For Laminate doors styles in Natural Cherry finish, item is finished Cherry.

ABBREVIATIONS

TOL	Traditional overlay door styles
FOL	Full overlay door styles

DETERMINING ORDERING CODES

To determine ordering codes, add the desired series code, door style code and species code to the preferred finish code.

For example: Prairie Classic Drawer Front Maple Caramel Java

Series		Door Style		Drawer Front		Species		Finish		Glaze Option		Header Code

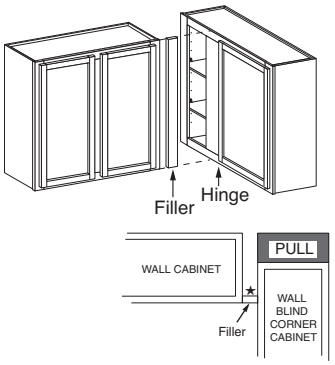
WALL BLIND CORNER CABINETS



WALL BLIND CORNER CABINET ORDERING/INSTALLATION INSTRUCTIONS
Must order Left or Right blind for all blind corner cabinets. Blind corner cabinets with swing out kits should not be installed next to appliance cabinets due to clearance needed for kits. For all single door cabinets, hinge is on blind side of cabinet. Left wall blind corner cabinets shown.

NOTE: All **Traditional Overlay** door styles must pull at least 1″ and use a 1″ filler when using Wellborn stock hardware to allow for a 90° clearance. A filler or pull is not required when hardware is not used for these styles. All **Full Overlay** door styles must pull at least 2″ and use a 2″ filler when using Wellborn stock hardware to allow for a 90° clearance. A pull of 1″ and use of a 1″ filler is required when hardware is not used. All Wall Blind Corner Cabinets will pull up to 4¾″. Opening is 5½″ wide on all Wall Blind Corner Cabinets. Center stile is 6½″ wide.

★ Open blind area will be filled with ⅛″ back panel material.

MICROWAVE CABINETS

Microwave cabinets have finished interior as standard in microwave areas. Removable shelf is ¾" plywood. Measurements indicated reflect the distance between stiles and the distance between the top of the removable shelf and the bottom of the rail in the microwave area. For White and Laminate door styles, the removable shelf is thermofoiled fiberboard. For Linen Thermofoil and Laminate door styles, the removable shelf is finished maple. For Laminate door styles in Natural Maple, Sienna or Spiceberry, the removable shelf is finished maple. For Laminate door styles in Natural Cherry the removable shelf is finished cherry. For MDF door styles, the removable shelf is finished maple. Microwave cabinets are not able to house a built in style microwave installation and will not accommodate a trim kit.

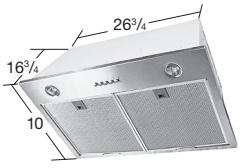
HOOD ACCESSORIES

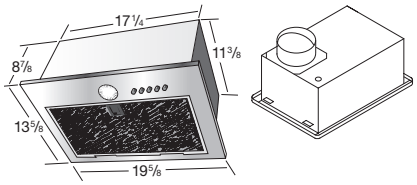


Power Fan Unit (660 CFM)

PFU06

- 660 CFM with 8″ round discharge
- Back draft damper included
- Lighted fan unit with easy clean stainless finish
- Pre-wired for electrical connection
- UL, CUL, HVI certified
- Use in IWH4224P, IWH4224B and IWH4224
- Liner must be ordered separately
- Requires Transition Elbow Duct

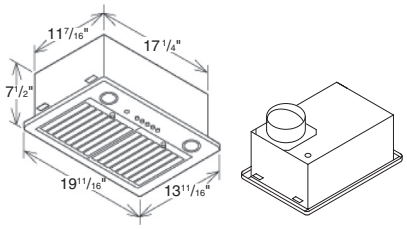
HOOD ACCESSORIES (continued)



Power Fan Unit (290 CFM)

PFU04

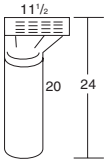
- 290 CFM with 7″ round discharge
- Requires DCK04 ductless conversion kit for in-home venting
- Back draft damper included
- Lighted fan unit with easy clean silver metallic finish
- Pre-wired for electrical connection
- UL, CUL, HVI certified
- Used in all wood hoods on Select–2–31 and Select–2–32 and IWH3624P, IWH3624B, IWH3624, IWH3024P, IWH3024B and IWH3024
- Liner must be ordered separately
- Top access to hood interior is required to complete installation



Power Fan Unit (390 CFM)

PFU02

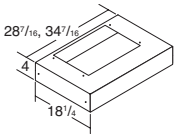
- 390 CFM with 7″ round discharge
- Requires DCK02 ductless conversion kit for in-home venting
- Back draft damper included
- Lighted fan unit with easy clean stainless finish
- Pre-wired for electrical connection
- UL, CUL, HVI certified
- Used in all wood hoods on Select–2–31 and Select–2–32 and IWH3624P, IWH3624B, IWH3624, IWH3024P, IWH3024B and IWH3024
- Liner must be ordered separately
- Top access to hood interior is required to complete installation



Ductless Conversion Kit

DCK02 (for PFU02)
DCK04 (for PFU04)

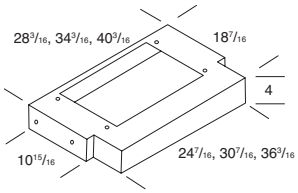
- Includes charcoal filter



Wood Hood Liner

WHL30
WHL36

- Silver metallic in color
- Use with standard wood hoods on Select–2–31 and Select–2–32



Integral Wood Hood Liner

IWHL30
IWHL36
IWHL42

- Silver metallic in color
- Use with standard Integral Wood Hoods on Select–2–28 and Select–2–29
- IWHL42 for use with PFU06 only

Transition Elbow Duct

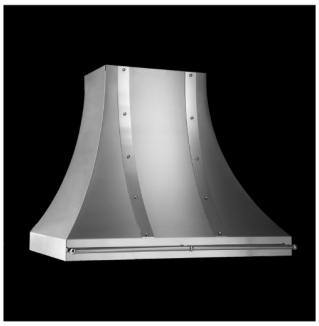
TED812

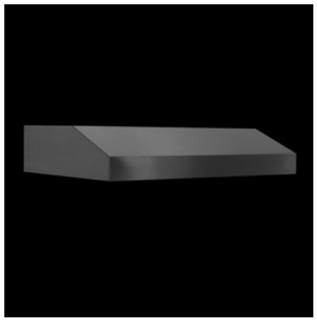
- Silver Metallic in color
- Use with PFU06
- 8″ Diameter and 12″ in height
- Adjustable

When ordering any wood hood, it is the dealer's responsibility to verify all fire codes in your area (fire codes vary from state to state and even from city to city). Hoods should be installed at a proper level over the range and installer should account for any special needs for cook tops and grills. Be sure to match hood liner width to ensure proper ventilation. Please note that these are only recommendations and you should always reference local building codes, fire codes and manufacturer specifications for final design/applications. Recommended distance from top of cooking surface to bottom of fan unit is 24″-30″ depending on manufacturer range specifications and depth of cabinets. If installed beyond recommended distance, the fan unit will not perform effectively.

VENTAHOOD

Wellborn Cabinet, Inc. and Ventahood have partnered to bring you a stylish and contemporary selection of both hoods and accessories. Our partnership allows us to provide you with a larger selection ensuring that you will find the perfect hood for your perfect kitchen. Log onto Direct Connect and place your order today.





THE VENT-A-HOOD DIFFERENCE

GREASE EXTRACTION

Laboratory testing of competitive units shows that only about 30% of the grease is collected in the filter during typical residential cooking.

MAGIC LUNG® VS OTHER BRANDS

The Magic Lung® centrifugal grease extractor collects 99% of the grease 100% of the time

EASY TO CLEAN

In other brands, cleaning the grease from behind the filter is nearly impossible. Access is limited by components and sharp protrusions. Even the motor gets greasy.

MAGIC LUNG® VS OTHER BRANDS

The new in-the-shield grease tray makes routine cleaning easier than ever. If desired, the Magic Lung® Blower comes apart for easy cleaning in soapy water or a dishwasher

QUIET & POWERFUL

Variable speed blowers in competitive units become louder and louder as CFM increases.

MAGIC LUNG® VS OTHER BRANDS

Each Magic Lung® blower supplies 300 CFM of air flow – combining multiple blowers will meet any air flow requirement without increasing the noise level.

FIRE SAFETY

Cooking fires are the leading cause of home fires (150,000 per year – NFPA). Filters are flammable and can sustain a secondary fire near the inlet to the blower leading to a duct fire. Fire insurance claims against filtered hoods are common.

MAGIC LUNG® VS OTHER BRANDS

The Magic Lung® Constant-Speed Blower is designed to keep grease and flame from entering the duct. In over 80 years, Vent-A-Hood has never received a report of an attic or wall fire when the Magic Lung® has been in use.

EFFICIENT

Filters in competitive units obstruct air flow and spoil the collector properties of the canopy.

MAGIC LUNG® VS OTHER BRANDS

A range hood equipped with the Magic Lung® blower system is a wide open, active collector that invites contaminants in. A proper collector is the most critical element for good cooking ventilation and requires 1/3 less air flow than a filter-style range hood.

WARRANTY

5 YEAR WARRANTY — MAGIC LUNG® VS OTHER BRANDS — 1 YEAR WARRANTY

We've got you covered with the best warranty in the industry. Vent-A-Hood has long been the most respected name in ventilation. Our products are guaranteed to work and we stand on over 80 years of manufacturing the highest quality ventilation products. Our family is devoted to your satisfaction.

- MWEP12, MWEP15, MWEP18, MWEP24, MWEP48, MWEP54 and MWEP60 will have solid wood center panels
- TOL door styles are square on top and bottom with a decorative profile on the sides
- FOL door styles are ⅞″ shorter, have matching door edge profiles on all 4 sides and are designed to flush with the face frame of the cabinet
- Harmony and Concord have a mitered profile
- When reducing panels, RD9 will be square in TOL arch and all cathedral door styles
- **For Thermofoil door styles, Matching End Panels are thermofoiled fiberboard**
- **For MDF door styles, Matching End Panels are painted MDF**
- **For Laminate door styles, Matching End Panels are painted melamine laminated furniture board**
- 54″, 57″ and 60″ will be double panel except on miter door styles

Note: Due to dimensions, an MFE or skin must be ordered to cover exposed ends on all FOL finishes with Natural Ends and PCE or APC construction wall cabinets. Another option is to use matching toe kick to cover.

DECORATIVE GLASS DOORS

Decorative Glass Doors are sold separately. Hinges not included. Utilize hinges of existing cabinet door for all door styles. Must specify L or R hinge. When ordering an arch door style, the glass remains square and the arch door profile will cover part of the glass design according to the curve of the top door rail. Decorative Glass Doors feature dark patina finished zinc grills with clear textured glass. Not available for WCM cabinets. Not available in Thermofoil, Laminate and MDF door styles. Decorative glass will not be installed when ordered as unfinished. Wellborn offers Decorative Glass Doors in specific sizes in an effort to accommodate most customer needs. If you need something outside our offering, visit the Middlefield glass website at www.middlefieldglass.com. To order, choose the size then select the Glass Type.

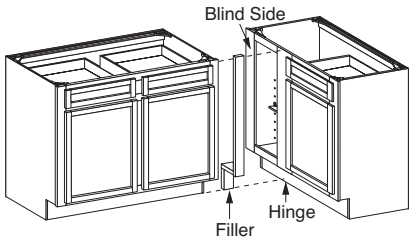
BASE BLIND CORNER CABINETS

BASE BLIND CORNER CABINET ORDERING/INSTALLATION INSTRUCTIONS
Must order left or right blind. For single door cabinets, hinge is on blind side of cabinet. Left base blind corner cabinet is shown. Blind corner cabinets with swing out kits should not be installed next to appliance cabinets due to clearance needed for kits. On FOL door styles, the adjoining cabinet requires a minimum 1″ filler without hardware. Requires 2½″ filler with hardware.



Maximum/Minimum Pull Measurements

		TOL	FOL

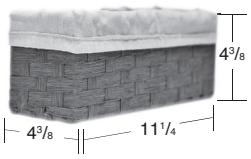
Wicker Basket (kit only)

WBK15
WBK18

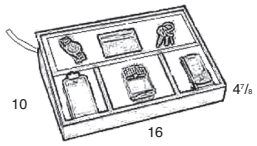
- One basket included in kit (2 shown)
- Basket has hand pull on both sides
- WBK15 installs in ODB15
- WBK18 installs in ODB18 and ODDB18
- When installing in ODDB18, use one basket only
- **The wooden runners included in kit must be cut down in width for installation to 1⅜″**

SMALL WOVEN BASKET KITS



SWBK5 (5 Baskets)
SWBK6 (6 Baskets)
SWBK7 (7 Baskets)

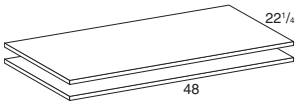
- SWBK5 Installs in BOSC6 and WOSC630
- SWBK6 Installs in BOSC640 and WOSC636
- SWBK7 Installs in WOSC642



Charging Station

CHGST

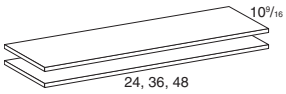
- Power strip not included
- Black velvet liner



Peninsula Plywood Shelf Kit

PPS48KIT

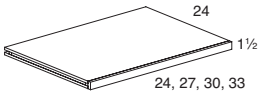
- Includes 2 shelves and shelf clips
- Shelves are ¾″ veneered plywood with a natural finish
- Edge banded on 2 long sides
- Fits standard peninsula base cabinets
- **Not available in Thermofoil, Laminate and MDF**
- More sizes available in the Replacement Shelves section



Plywood Shelf Kit

PS24KIT
PS36KIT
PS48KIT

- Includes 2 shelves and shelf clips
- Shelves are ¾″ veneered plywood with a natural finish
- Edge banded on one long side
- Fits standard base and wall cabinets
- **Not available in Thermofoil, Laminate and MDF**
- More sizes available in the Replacement Shelves section



Stack Spacer Kit 1½″

SSK1.524
SSK1.527
SSK1.530
SSK1.533

- For use when stacking to fill the 1½″ countertop gap allowing for easier alignment of upper cabinets

ACTIVE LIVING STANDARD VANITY CABINETS

All vanity cabinets are pre-drilled for 10 5/16" deep shelves and have 4½" high toe kicks. Specify Left or Right hinge on all single door vanities. If an order is placed in arch door styles, all 31½" high vanities will have arch doors. To order square doors on 31½" high vanities, you MUST specify square on your order.

Some active living designs can be accomplished with just a lower countertop height. The vanity cabinets have an overall height of 31½" and can be used to achieve this type of design. They are also available in a shallower depth of 21" instead of 24" which may give the consumer easier access to items in the wall cabinets. The Increased Depth option is available in order to get a 24" depth cabinet. See the Semi-Custom chart for availability. Refer to the vanity section for 18" depth cabinets and base height vanity cabinets.

ACTIVE LIVING - UNIVERSAL DESIGN PRODUCTS

Universal Design Products

GRANBERG®

Universal Design Products, Inc. is the North American distributor of accessible kitchen and bathroom lifts designed and manufactured by Granberg of Sweden.

Some of the biggest obstacles to designing an accessible kitchen are access to sinks, cabinets, countertops (worktops) and appliances which are usually not usable for people who are seated, sitting or in a wheelchair. By installing automatic accessibility lifts, the height of sinks, cabinets, worktops and appliances can be adjusted to accommodate the needs of all users. Most importantly you can design beautiful efficient kitchens and bathrooms that maximize the independence, convenience and changing abilities of all household members.

Please contact Universal Design Products, Inc. with any inquires at the number listed below or visit their web site for further information.

- ¾" Solid wood construction with spacers on back to compensate for the face frame scribe
- TOL door styles have a decorative profile on the sides
- FOL door styles have matching door edge profile on the sides and are designed to flush with the face frame of the cabinet
- Harmony and Concord have a mitered profile
- Loft and Manchester are slab with separate toe kick
- **For Thermofoil door styles, matching end panels are thermofoiled fiberboard**
- **For Laminate door styles, matching end panels are melamine laminated furniture board**
- **For MDF door styles, matching end panels are painted MDF**
- **End panels less than 24" wide have three vertical panels instead of six**

APPLIANCE DIMENSION SYSTEM

Standard Wellborn doors are available to mount on appliance doors. A service called "Dimension Express" provides instant trim sizes for appliance dimensions.

DIMENSION EXPRESS

The Instant Appliance Dimension System

• Easy to use • 24 hours a day • Updated daily •

A FREE service to obtain specification sheets instantly using any fax machine. It's EASY, just call (925) 284-3558 from a fax machine. Enter "2" when asked for a code number and you will receive further information, instructions and a listing of all manufacturers online. Manufacturers support the system making it FREE to you.

For questions and comments, call Dimension Express at
PHONE (800) 940-2059
FAX (925) 403-0707
EMAIL support@dexpress.com
Also see the website at: www.dexpress.com

WELLBORN CABINET, INC.,
IS NOT RESPONSIBLE FOR SIZES
SPECIFIED BY DIMENSION EXPRESS

STANDARD VANITY CABINETS

All vanity cabinets are pre-drilled for 10⁹⁄₁₆" deep shelves and have 4½" high toe kicks. FR See the Function Ready section for sliding shelf availability. Detailed Ordering Instructions for Vanities: Specify left or right on all single door vanities. If order is placed in arch door styles, all 31½" high vanities will have arch doors. To order square doors on 31½" high vanities, you MUST specify square on your order. When ordering 34½" High Just Right Base Height vanities, all doors are square (arch doors are not available). See examples below.

How to build your L&S lighting system

1 Choose your LED Power Driver

Are you using 12V Products?
Yes!

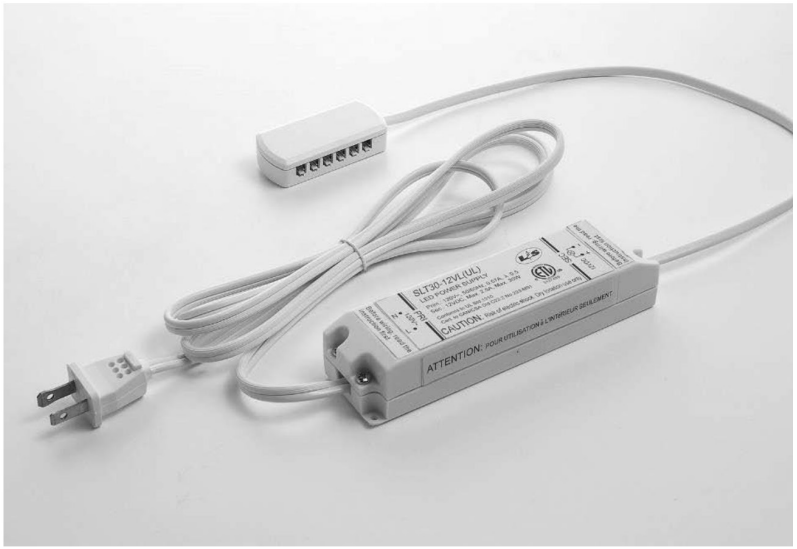
What is the total wattage of your Lights?

0-6W	6W LED Driver
0-30W	30W LED Driver
30-60W	60W LED Driver

Do you want to Dim on the Primary Voltage?
Yes!

Please use one of these drivers

10-20W	20W Dimming Driver
20-40W	40W Dimming Driver
30-60W	60W Dimming Driver



2 Choose your Switch (optional)

Are you using 12V or 24V Products?
Yes!

Do you want a Surface or Recessed Mounted Switch?

Surface	Bali Switch
Recessed	Malindi Switch

Would you rather have a sensor?
Yes!

Please use one of these Switches…

Behind a door or Cabinet	IR DC/DC Switch
On/Off by waving your hand	IR On/Off Switch
Occupancy Sensor	Motion Sensor

3 Choose your light fixtures

Our system is entirely Plug and Play, so mixing and matching Lights and switches is easy as 1, 2, 3.

Do you prefer Pucks, Linear fixtures, or both?
Puck Lights work great to create an aesthetically pleasing lighting design that showcases the fixtures "cone of light" to create mood. We like Puck Lights to be spaced 12-16" apart for even illumination and further apart to create a dramatic lighting space.

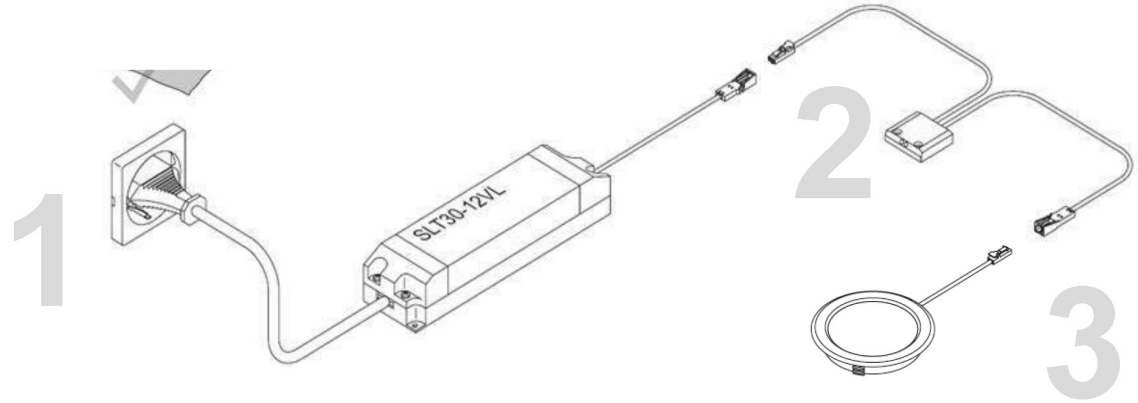
Linear profiles are the easiest way to maintain smooth, even light over surfaces and displays. By offering many different profiles we can recess fixtures to minimize glare (Malindi) and use Round fixtures like Ledo to aim the light where we please.

The nicest lighting layouts include layering of both Puck and Linear Fixtures to create a vibrant and engaging lighting design.

4 How does it all work together?

Our system works seamlessly in a linear fashion. A standard layout would look like this:

LED Driver ---> Switching ---> Lights



Kitchen Lighting Scenario No. 1

Using Pucks

This Kitchen is entirely illuminated by Puck Lights. While the Pucks are placed close enough together (10-16") to create even illumination across the work surface their individual "cone of light" can be used to highlight the backsplash. This also creates a blend of light and shadows which build ambience and mood.

What products do I need to build this Lighting Plan?

8x	Sunny IN.TT
2x	6W Drivers
2x	Bali Switch

Kitchen Lighting Scenario No. 2

Using Pucks and Linear Products

This Kitchen features a beautiful layered look. Puck Lighting in the upper glass cabinets creates accent lighting which draws your eye inside while the Linear Under-Cabinet lights builds proper task lighting. Further, recessed downlights and pendants round out a complete lighting package.

What products do I need to build this Lighting Plan?

13x	Sunny IN.TT
6x	Lugano
1x	60W Dimming Driver
6x	Extension Cables
	Cable Channel (white)

Kitchen Lighting Scenario No. 3

Using LED Reel

LED Reel allows the most cost-effective solution for illumination while also being the easiest to install, simply clean the surface, Peel and Stick the LEDs the where they are needed.

Here, our LED Reel was used as up-lighting above the cabinets, as under-shelf lighting and toe kick lighting.

What products do I need to build this Lighting Plan?

2x	72LED Reel
1x	60W LED Driver
4x	Reel Starter Cords

MISCELLANEOUS ITEMS

Wood Veneer Edge Banding

EB3/4W

- ¾″ Width finished
- Pressure sensitive adhesive backing
- Oak is substituted for Hickory
- Thermofoil, Laminate, and MDF will be finished maple
- Sold in 8′ length. Must be ordered as 1 each

PVC Edge Banding

EB3/4PVC

- ¾″ Width
- Pressure sensitive adhesive backing
- Sold in 25′ length. Must be ordered as 1 each
- **Available in White, Linen, Sienna and Autumn Spice only**

Delamination Shield

DSW (White)
DSA (Almond)

- 1/32″ Thick enamel coated metal shield
- For use with a free standing range to prevent delamination of Thermofoil and Laminate doors caused by heat from ovens
- Pre-drilled for screw placement
- Install on side of face frame between cabinets
- **For Linen, use Almond**

SCDS24KIT

- Each kit contains full extension slides to field install in one wood drawer only
- Order additional kits for each drawer
- Instructions included in kit
- Codes indicate cabinet depth

Replacement Parts Kit
B9937

- Each kit contains an assortment of parts to complete each job
  - Grommets
  - Shelf clips
  - Hinge spacers
  - Screws
  - Door bumpers
  - And more
- Eligible for 100% Co-op reimbursement

Touch Up Kit
TUKIT

- Includes putty sticks and touch up pen
- This item is ordered by species and color
- Eligible for 100% Co-op reimbursement

Putty Sticks
PUTTYSTICK

- Includes two 4 oz. putty sticks
- This item is ordered by species and color
- Eligible for 100% Co-op reimbursement

Touch Up Pen
TUPEN

- Includes one touch up pen for base color
- This item is ordered by species and color
- Eligible for 100% Co-op reimbursement

Glaze Touch Up Pen
GTUPEN

- Includes one touch up pen for glaze color
- This item is ordered by species and color
- Eligible for 100% Co-op reimbursement

Color Rite Caulk
CAULK

- Colored caulk that works well on door repairs
- The caulk has flexibility; therefore, no visual difference can be noticed
- This item is ordered by species and color
- Eligible for 100% Co-op reimbursement

König Sanding & Polishing Pad
B8025

- Use to repair shiny spots in finishes

Aerosol Clean & Polish
B8020

- Protects while producing a deep, brilliant shine with a fresh lemon scent
- Does not leave a dull wax build-up
- Features a wax free and silicone free, premium blend of natural and organic oils, plus cleaning agents
- Eligible for 100% Co-op reimbursement

Wood Deep Clean Aerosol
B8024

- Safely removes wax build-up, old polish, and many types of stains and discolorations on wood furnishings
- Excellent for use on fine wood furniture, antiques, wood paneling and cabinetry
- Eligible for 100% Co-op reimbursement

Water Mark Remover
B8023

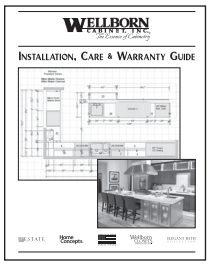
- 5¾″ x 11″ Specially formulated cloth that removes stains and rings from wood furniture caused by water, alcohol, and other moisture
- Effective and reusable
- Not for use on dull wood finishes
- Eligible for 100% Co-op reimbursement

Dusting Cloth
B8021

- Specially treated 100% cotton cloth that absorbs and locks in dust
- Attracts and bonds dust, giving you healthier and cleaner air
- Hand washable and reusable
- 14″x18″
- Eligible for 100% Co-op reimbursement

Applicator Cloths
B8022PK3

- Three durable 100% cotton, lint-free cloths with a soft nap that helps achieve optimum polishing results
- Gives wood a natural sheen
- Washable and reusable
- 14″x18″
- Eligible for 100% Co-op reimbursement



- Installation, Care and Warranty Guide and Putty Sticks included with all sink and vanity sink base cabinets and sink fronts

ACCENT COLOR PROGRAM

Wellborn Cabinet, Inc., in collaboration with Sherwin-Williams, has established a program providing easy access to stains, stains with glazes, paints and paints with glazes that coordinate with our full palette of finishes. With over 3,300 locations across North America, you can easily find a Sherwin-Williams location near you. Visit their site at www.sherwin-williams.com.

Things to remember:

1) Take your Wellborn finished door with you.
2) Know the Wellborn finish/color name.
3) Bring a sample of the wood or material that you plan to finish for in-store color check.
   • For the best results, Wellborn recommends using the same wood species or material as the door you bring with you.
4) Be sure it meets your color, sheen and appearance expectations before you leave the store.

MIDDLEFIELD GLASS

Middlefield Glass can do special sizes, different designs and colors for your project. Visit their site at middlefieldglass.com, call them at 1-800-772-1477 or email them at info@middlefieldglass.com. You can easily get the measurements you need by measuring the interior of the decorative door frame.

BELWITH KEELER HARDWARE PROGRAM

Over 1,200 decorative hardware selections to choose from with Belwith Keeler! Just click on the WAY site and place your orders today in Direct Connect…just one kitchen at a time. The selections meet design styles in an array of finishes.

To order, go to WAY, and access Direct Connect. Follow the instructions listed below.

1) Create an order in Direct Connect by clicking on the Belwith Keeler box and follow all normal procedures on the Admin tab.
2) Browse the Belwith Keeler catalog and enter the item of your choice.
3) Preview item and pricing and click on Next Step for UPS Shipping.
4) Submit your order following the usual procedures.

Hardware will ship direct from Belwith Keeler.

Hardware Boards available! Customize your boards to fit your design. See details later in this section.

Note: ***Belwith Keeler Hardware not available on Rush Program.***

The roots of *Belwith Products, LLC* run deep, beginning with the birth of a small foundry in Michigan in 1893. From the humble beginnings of the *Keeler Brass Company*, international corporate ownership and multiple mergers, we now emerge as *Belwith Products*, a privately owned and operated firm.

Hundreds of years of staff experience, a living library of designs (dating back to 1900), and a passion to develop unique, creative hardware solutions, positions *Belwith Products* as the industry leader in kitchen cabinet, architectural, and furniture hardware.

Despite being a "new" company, *Belwith Products* is comprised of unparalleled experience and talent. Our vision is to offer the very best in products and service to customers today, while striving for continuous improvement in our product offerings and service for tomorrow.

Below is a small sampling of the products you will find in the Belwith Keeler Hardware Program.

ROTATING FLOOR TOWER

Item No. DRFT2575BK

Belwith Keeler® Merchandising Solution for the Showroom

The Rotating Floor Tower, developed for showrooms, presents an attractive sales tool for your inside sales team or your walk-in traffic. Your four sided rotating floor tower display is a distincitive, appealing and user friendly showcase for your customers to compare a variety of styles, finishes and textures.

The display tower accommodates a custom arrangement of decorative hardware mounted to Pearwood finished display boards, which are easily set into the wood display tower, and removed as needed.

Decorative branded nameplates for Belwith-Keeler® are included.

FEATURES AND BENEFITS

- Removable display boards can be organized by any finish or style. (A)
- Branded nameplate is applied at installation into pre-drilled holes. (B)
- Standard and custom display board layouts available with easy installation
- Displays an average of 200 to 240 products on an average of 40 display boards.

APPLICATIONS

The Rotating Floor Tower Display is a free-standing display that sits on any level surface.

WALL DISPLAY

Item No. DWD1873BK

Belwith Keeler®

Merchandising Solution for the Showroom

The Wall Display, developed for showrooms, presents an attractive sales tool for your inside sales team or your walk-in traffic. Your Wall Display is a distinctive, appealing and user friendly showcase for your customers to compare a variety of styles, finishes and textures.

A custom arrangement of decorative hardware is mounted to Pearwood finished display boards, which are set into the wood framed Wall Display, and can be easily removed for updating.

A decorative branded metal nameplate for Belwith-Keeler® is included.

FEATURES AND BENEFITS

- Mounts directly to the wall with easy-to-install mounting bracket. (A)
- Belwith-Keeler® branding for each display. (B)
- Standard and custom display board layouts available. (C)
- Exclusive bracket can be positioned for use in slatwall applications.
- Hundreds of interchangeable display boards that can be organized by any finish or style.
- Flush side cornice molding allows for side-by-side mounting and more hardware per foot.
- Nameplate is applied into pre-drilled holes during installation.
- A single Wall Display will show up to 60 items depending on boards selected.
- Wall Display is a one piece construction that holds all display boards.

APPLICATIONS

A higher-end display that is attractive and extremely versatile, multiples of this display can be grouped together due to flush sides of the top molding, maximizing wall space and creating a gallery atmosphere.

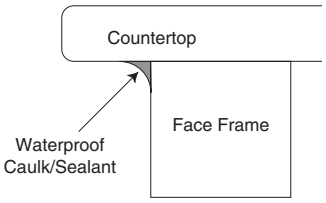
HELPFUL HINT



Caulk Countertop

Wellborn recommends that all countertops be caulked underneath the sink. This is to help prevent water seepage into the endgrain of the cabinet frame members and door members. Bullnose countertops, no matter the composition of the top, must be caulked at the time of installation.

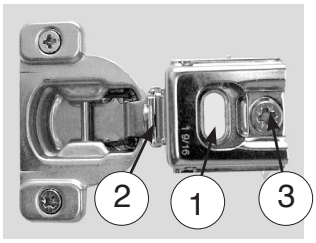
*TOL

Hinge adjustment for all traditional overlay door styles used on all (2) door cabinets without center mullion:

1. **Height Adjustment:** Loosen fixing screw (screw #1) on all hinges of one door. Move door to desired position. Retighten fixing screws on all hinges.
2. **Side Adjustment:** Loosen side adjustment screw (screw #2) on all hinges of one door. Move door to desired position. Retighten fixing screws on all hinges. You have up to 1.5mm (1/16") in each direction.
3. **Depth Adjustment:** The cam (screw #3) moves the door in and out for depth of each hinge, just turn to adjust.



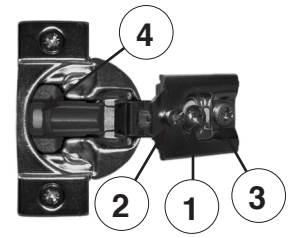
*FOL

Hinge adjustment for all full overlay door styles:

1. **Height Adjustment:** Loosen fixing screw (screw #1) on all hinges of one door. Move door to desired position. Retighten fixing screws on all hinges.
2. **Side Adjustment:** Loosen fixing screws (screw #1). Turn side adjustment screw (screw #2) until door is in proper position. You have up to 1.5mm (1/16") in each direction. Retighten fixing screw.
3. **Depth Adjustment:** The cam (screw #3) moves the door in and out for depth of each hinge, just turn to adjust.

Caution: Doors should not bind on adjacent doors or front of cabinet.

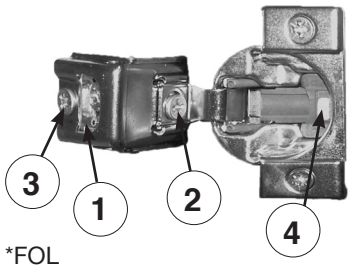
*** Use #2 Phillips head screwdriver for all adjustments**



*TOL

Smooth Close Hinge adjustment for all traditional overlay door styles used on all (2) door cabinets without center mullion:

1. **Height Adjustment:** Loosen fixing screw (screw #1) on all hinges of one door. Move door to desired position. Retighten fixing screws on all hinges.
2. **Side Adjustment:** Loosen side adjustment screw (screw #2) on all hinges of one door. Move door to desired position. Retighten fixing screws on all hinges. You have up to 1.5mm (1/16") in each direction.
3. **Depth Adjustment:** The cam (screw #3) moves the door in and out for depth of each hinge, just turn to adjust.
4. **Smooth Close Adjustment:** On/Off switch on each hinge allows adjustment of door closure speeds.



*FOL

Smooth Close Hinge adjustment for all full overlay door styles:

1. **Height Adjustment:** Loosen fixing screw (screw #1) on all hinges of one door. Move door to desired position. Retighten fixing screws on all hinges.
2. **Side Adjustment:** Loosen fixing screws (screw #1). Turn side adjustment screw (screw #2) until door is in proper position. You have up to 1.5mm (1/16") in each direction. Retighten fixing screw.
3. **Depth Adjustment:** The cam (screw #3) moves the door in and out for depth of each hinge, just turn to adjust.
4. **Smooth Close Adjustment:** On/Off switch on each hinge allows adjustment of door closure speeds.

Caution: Doors should not bind on adjacent doors or front of cabinet.

*** Use #2 Phillips head screwdriver for all adjustments**

Note: For full overlay doors without center mullion, add ⅛" to the glass width listed above.

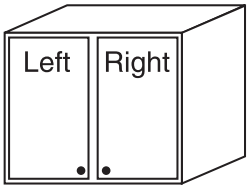
ORDERING REPLACEMENT DOORS AND DRAWERS

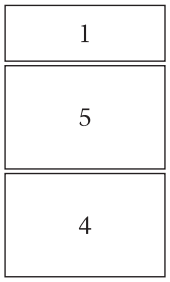
To eliminate errors occurring when ordering replacements, please use the following guidelines. Note that some item codes are very similar and must have the description code to determine the correct item.



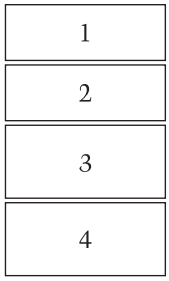
1. Always order using the item codes found in the Easy Parts Search Program found on the Wellborn and You (WAY) site under Order Management.
2. Search for your code in the Easy Parts Search Program using the following criteria:
   a. Cabinet
   b. Door Styles
   c. Classic Drawer Front Option (if applicable)
   d. Slab Drawer Front Option (if applicable)

3. In the Easy Parts Search Program, highlight the finished door or decorative door frame, copy the entire row and paste it into the material blank of your Direct Connect order. Remember to select any additional options. Always specify what hinge or hand type (right or left) you need. To determine which hand you need, always picture the cabinet as it would be installed and then specify which side of the door is hinged as you face the front of the cabinet.

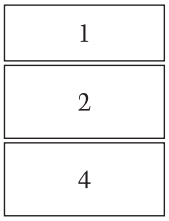
4. In the Easy Parts Search Program, highlight the drawer front or complete drawer, copy the entire row and paste it into the material blank of your Direct Connect order. Remember to select any additional options. For drawers, you must specify the cabinet depth. When ordering replacements for Full Overlay door styles, you will need to specify the drawer position for drawer stacks. See the diagrams.



3DB, VDB, VSDB, VLC and Ovens



4DB, VDBBH and VSDBBH



DDB (Desk Height)

Pricing

For finished doors, take the actual square footage of the door and multiply by the price for the increment under the door style you are ordering. For decorative door frames, pricing is $80 per SF based on a minimum/SF charge. For Mullion Doors, pricing is $160 per SF based on a minimum/SF charge.

Select Doors $/SF	Loft Manchester	Camden Imperial SeaSpray	Trestle	Alto Arlington Franklin Hancock	Bedford Bishop Harmony Harvest Millbrook Prairie Urban	Belmont Concord Hartford Nantucket Newport
0 - 2.0	$39	$49	$53	$60	$80	$84
2.1 - 4.0	$33	$39	$42	$49	$67	$72
4.1 - 6.0	$29	$35	$37	$45	$62	$68
> 6.1	$25	$31	$33	$39	$56	$62

For Example:
W2130 replacement door in Arlington Square
27.5 x. 18.5 = 508.75 / 144 = 3.533 sq. ft.
3.533 x $49 = $173.12 which rounds to $173 List

Pricing

For drawer fronts, take the actual square footage of the drawer front and multiply by the price for the increment under the door style you are ordering. For complete drawers, all overlay door styles are $325 per sq. ft.

- Blank fronts are a minimum of .5 SF charge based on door styles and tiered pricing.
- Complete Drawers are a minimum of 1 SF charge based.

Select Blank Fronts $/SF	Loft Manchester	Camden Imperial SeaSpray	Trestle	Alto Arlington Franklin Hancock	Bedford Bishop Harmony Harvest Millbrook Prairie Urban	Belmont Concord Hartford Nantucket Newport
< 1.0	$52	$62	$66	$67	$91	$95
> 1.1	$45	$52	$56	$57	$77	$82

For Example:
B21 replacement drawer front in Arlington Square
5 x 18.5 = 92.5 / 144 = 0.6424 sq. ft.
0.6424 x $67 = $43.04 which rounds to $43 List

- Forge: A dark gray stain with dark gray & brown glazing
- Tensile: A light gray stain with white & gray glazing
- Tungsten: A medium gray stain with gray & brown glazing

EXTENDED LEAD TIME

Some door profiles and wood species will vary in lead time from the standard Wellborn lead time. See the Door Style Chart for details.

END PANEL CONSTRUCTION NOTE

Standard Premier Series is constructed of furniture board end panels with non-matching wood grain laminate. Plywood Cabinet Ends and All Plywood Construction receive unfinished plywood end panels.

Please remember to specify finished ends for all exposed ends*. See end panel options on page Premier–1–6.

*Some cabinets are standard with matching finished or flush cabinet ends; refer to the individual cabinet specifications in the specification catalog.

RUSH PROGRAM GUIDELINES

As stated in the Wellborn Cabinet, Inc. Customer Guide, the Rush Program enables Wellborn customers to expedite a limited number of cabinets and accessories on a weekly basis. However, there are some exceptions to this program.

The following categories of items are excluded from our Rush Program:

Curved door cabinetry, curved mouldings, wainscot, custom appliance panels, custom door and drawer panels, all hoods and hood liners, entertainment cabinets, fluted wall pullouts, half-arch mullion doors, decorative glass doors, narrow arch valances, mantle hood program, islands and island components, matching tall utility and linen end panels with and without posts attached, manufactured marketing and display materials (except SFK's), stains, appliance panels, integrated matching end, toe kick added, wide top rail, increased depth & reduced depth for matching end panels, metal doors, decorative door hardware and other miscellaneous hardware.

This is not a complete and comprehensive list, but a summary of the categories. (Please refer to your Customer Guide for detailed program information.) Items available on the Rush Program are subject to change at Wellborn Cabinet, Inc.'s discretion.

INSTALLATION NOTE

Any wall cabinets greater than 36″ wide are not recommended as stand alone cabinets without additional reinforcements above and beyond Wellborn's installation manual guidelines. We also recommend that any stand alone cabinet, regardless of width, be reinforced with angle brackets to help support the weight that is added to cabinet interior from accessories. Wellborn Cabinet, Inc. will not warranty any cabinets that fall as a result of standing alone. It is the dealer's responsibility to design cabinetry that is not single displayed on a wall. Dealer will be obligated to pay the cost of damages if dealer designs kitchen with single cabinets. Wellborn Cabinet Inc. meets or exceeds KCMA weight requirements.

Wall

¾″ x 1¾″ dried solid wood face frames; mortised and tenoned, glued and stapled

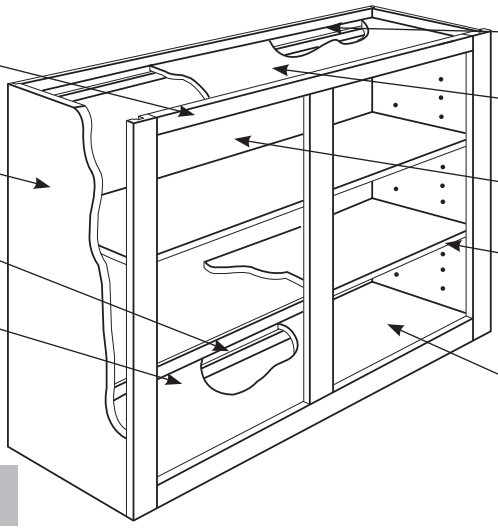
½″ Natural maple wood grain laminated furniture board edge banded end panels

Hanging rail dadoed to receive cabinet floor

Interior is natural maple wood grain or white laminate*

Doors have 6 way adjustable, smooth close, WellLine® concealed hinges.

Inset will be standard WCM for 30″-36″ wide cabinets.



11/16″ x 3½″ Wood grain** laminated fiberboard hanging rails

½″ Wood grain** laminated furniture board top

⅛″ Wood grain** printed MDF back

¾″ Wood grain** laminated furniture board adjustable shelves with edge banding; WellLock Shelf Clips®

½″ Wood grain** laminated furniture board bottom

* For Paints and Paints with Glazes, the interior and exterior will be natural maple wood grain laminate.
** For Brighton door styles, drawer front is ¾″ fiberboard with White or Linen thermofoil.
The cabinet interior is white laminate and the exterior is natural maple wood grain laminate except cabinets with standard APC construction which have natural maple wood grain laminate interior. Face frames are painted maple.

Base

¾″ x 3½″ Solid wood center stile

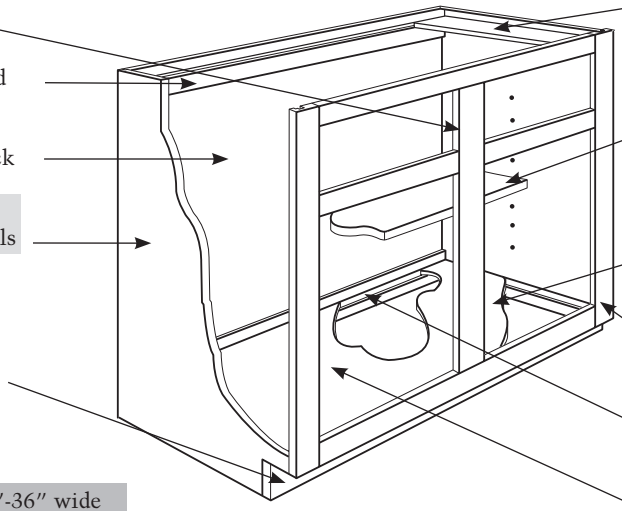
11/16″ x 3½″ Wood grain** laminated fiberboard hanging rails

⅛″ Wood grain** printed MDF back

½″ Natural maple wood grain, laminated furniture board end panels

4½″ h x 3⅜″ d Toe kick cut out, ½″ unfinished furniture board toe kick extends to cabinet floor for captive construction

Inset will be standard WCM for 30″-36″ wide cabinets.



½″ x 3″ I-Beam furniture board support dadoed into front, back and side

¾″ Wood grain** laminated furniture board adjustable shelves with edge banding; dual locking WellLock Shelf Clips®

½″ Wood grain** laminated furniture board bottom (solid wood brace on 36″ wide and larger cabinets)

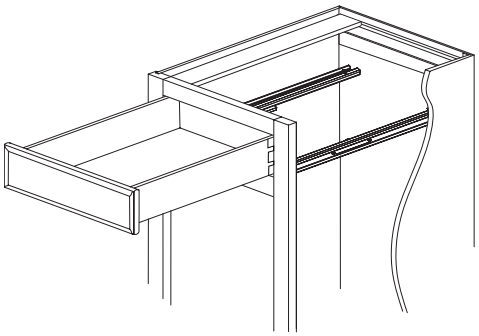
¾″ x 1¾″ Kiln-dried, solid wood face frames; mortised and tenoned, glued and stapled

Hanging rail dadoed to receive cabinet floor

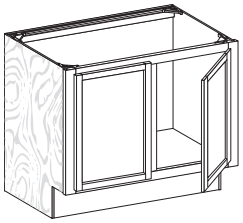
Interior is a natural maple wood grain or white laminate*

* For Paints and Paints with Glazes, the interior and exterior will be natural maple wood grain laminate.
** For Brighton door styles, drawer front is ¾″ fiberboard with White or Linen thermofoil.
The cabinet interior is white laminate and the exterior is natural maple wood grain laminate except cabinets with standard APC construction which have natural maple wood grain laminate interior. Face frames are painted maple.

Drawer



⅝″ Solid hardwood drawer in a natural finish with laminated plywood drawer bottom, dovetail construction and full extension undermount drawer slides featuring soft close. The soft closing function creates a perfectly silent and effortless operation. The last phase of the closing procedure leads to perfect movement without rebounding or springing back. Drawer has a 75 lb. weight capacity.



PCE — Plywood Cabinet Ends

When PCE option is selected both cabinet ends will receive ½″ thick **unfinished** plywood ends with wood grain or white laminate interior. See below for specific construction details. See the Semi-Custom Chart for availability.

To order, use the following code with cabinet item code:
PCE — Plywood Cabinet End
For Example: W3021 PCE

Wall

¾″ x 1¾″ Kiln-dried solid wood face frames; mortised and tenoned, glued and stapled

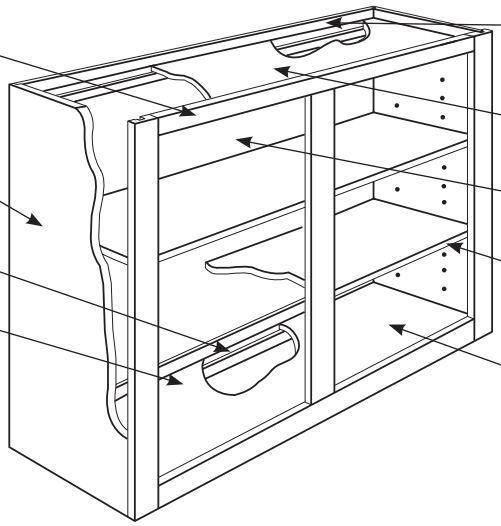
½″ **Unfinished** plywood end panels with laminate interior (FCE and MFE options available)

Hanging rail dadoed to receive cabinet floor

Interior is natural maple wood grain laminate

Doors have 6-way adjustable, smooth close, WellLine® concealed hinges.

Inset will be standard WCM for 30″-36″ wide cabinets.



¾″ x 3½″ Laminated solid hardwood or plywood hanging rails

½″ Wood grain laminated plywood top

3/16″ Wood grain laminated plywood back

¾″ Laminated plywood adjustable shelves with edge banding; WellLock Shelf Clips®

½″ Wood grain laminated plywood bottom

Base

¾″ x 3½″ Solid wood center stile

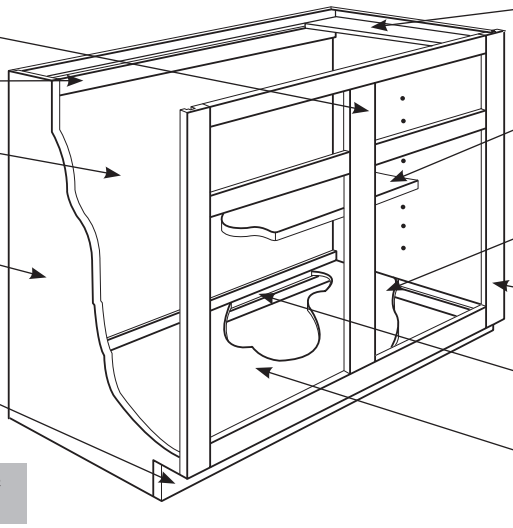
¾″ x 3½″ Wood grain laminated solid hardwood or plywood hanging rails

3/16″ Wood grain laminate plywood back

½″ **Unfinished** plywood end panels with laminated interior (FCE and MFE options available)

4½″H x 3⅜″D Toe Kick cut out, ½″ unfinished plywood toe kick extends to cabinet floor for captive construction

Inset will be standard WCM for 30″-36″ wide cabinets.



½″ x 3″ I-Beam plywood support dadoed into front, back and side

¾″ Laminated plywood adjustable shelves with edge banding; dual locking WellLock Shelf Clips®

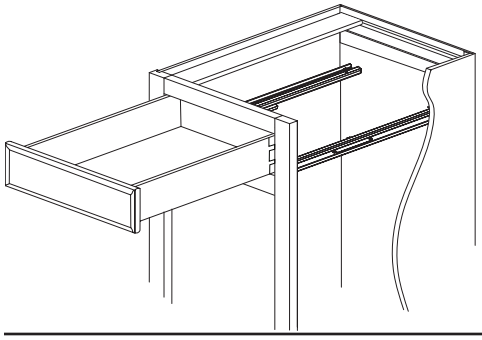
½″ Wood grain laminated plywood bottom (solid wood brace on 36″ wide and larger cabinets)

¾″ x 1¾″ Kiln-dried, solid wood face frames; mortised and tenoned, glued and stapled

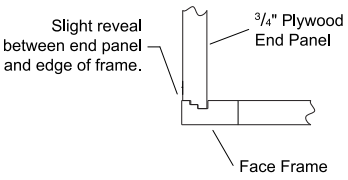
Hanging rail dadoed to receive cabinet floor

Interior is natural maple wood grain laminate

Drawer



⅝″ Solid hardwood drawer in a natural finish with laminated plywood drawer bottom, dovetail construction and full extension undermount drawer slides featuring soft close. The soft closing function creates a perfectly silent and effortless operation. The last phase of the closing procedure leads to perfect movement without rebounding or springing back.



FCE — Flush Cabinet End

Many wall, base, vanity/office and tall cabinets are available with Flush Cabinet End option. A ¾″ plywood end panel is used to create a flush appearance with a slight reveal between the end panel and the edge of the face frame. When FCE option is selected end comes finished to match the door finish. Any cabinet over 60″ high will use the Tall pricing. See the Semi-Custom Chart for option availability.

To order, use the following codes with cabinet item code:

Code	Description	Wall	Base	Tall
FCEL	Flush Cabinet End Left	$85	$100	$200
FCER	Flush Cabinet End Right	$85	$100	$200
FCEB	Flush Cabinet End Both	$170	$200	$400

For Example: B33 FCEL (Left)
B33 FCER (Right)
B33 FCEB (Both)

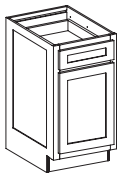
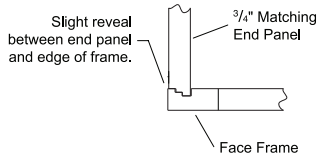
W3030 IMELL



VB15 IME



IME — Integrated Matching End

Most Premier APC cabinets with doors or drawers can be ordered with Integrated Matching End Panels on the cabinet. When choosing this option you must select left, right or both for the desired side of application. For blind corner cabinets, this option is only available for the side opposite the blind. Integrated Matching Ends are available with Increase Depth and Reduce Depth options and will be notched for toe kick. Minimum Reduced Depth available with IME option is 9″ for overlay door styles. Ends will have a full height door appearance for cabinets with door and drawer configurations.
INSET: Not available

To order, use the following codes with cabinet item code:

IMELS — Integrated Matching End Left for wall, base, vanity & desk cabinets 27″ high or under
IMERS — Integrated Matching End Right for wall, base, vanity & desk cabinets 27″ high under
IMELL — Integrated Matching End Left for wall, base, vanity & desk cabinets over 27″ high
IMERL — Integrated Matching End Right for wall, base, vanity & desk cabinets over 27″ high
IMELT — Integrated Matching End Left for talls
IMERT — Integrated Matching End Right for talls
For Example: W3030 IMELL

Pricing	***Per Side***
IMELS	$470 List
IMERS	$470 List
IMELL	$770 List
IMERL	$770 List
IMELT	$1490 List
IMERT	$1490 List

Note: When choosing this option the following overlay door styles and options are excluded: Milan, Barcelona, Mitered Doors and Brighton. When ordering in combination with WTR option, wall and tall cabinets will include the WTR and align with the front face frame.

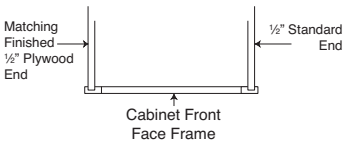
B36 MFEL



MFE — Matching Finished End

Cabinets will receive ½″ thick matching cherry, maple, oak or hickory finished veneer plywood for specified ends. Cabinet face frame and end panel have standard reveal. Remember to face cabinet when specifing left or right. See the Semi-Custom Chart for option availability.

To receive Matching Finished End:

Choose MFE option for left, right or both panels of the cabinet

To order, use the following codes with cabinet item code:

Code	Description	Wall	Base	Tall
MFEL	Matching Finished End Left	$45	$65	$125
MFER	Matching Finished End Right	$45	$65	$125
MFEB	Matching Finished End Both	$90	$130	$250

- See page Premier–1–6 for details and ordering codes

Field Installed Options:

Applied Door

- Skin the End Panel
- Add appropriate size door

Matching End Panel

Finished Skin

Bead Board Panels

WellGuard Finishing System®

Wellborn's 24-Step WellGuard Finishing System® has melamine enriched catalyzed sealers and top coats providing a furniture luster that shines deep from within the wood. Cabinet components are hand sanded to prepare the surface for staining. Wellborn hand rubs the stain to enhance the natural wood grain. Three coats of finish, including two coats of high moisture resistant sealers and one top coat of high molecular weight synthetic catalyzed varnish, result in a durable finish. Natural finishes receive two coats of sealer and one coat of topcoat.

Face Frames

¾″ x 1¾″ Kiln-dried solid wood stile and rail members. The center stiles are ¾″ x 3½″ solid wood. On all corner base and corner wall cabinets, the center stiles are ¾″ x 6½″ solid wood. 48″ Corner base has a 9½″ center stile. All face frame joints are precisely aligned with blind mortise and tenon, glued and stapled at all joints.

End Panels

½″ Thick industrial grade furniture board with a natural maple wood grain laminate exterior and our WellShield® natural maple laminate interior (for thermofoil door styles, white or linen laminate interior) that is resistant to household chemicals. For all specialty finishes, end panels will have a natural wood grain laminate (does not match cabinet front). The top and bottom edges of wall cabinet end panels are banded with wood grain edge banding. End panels are machined to accept tops, bottoms and adjustable shelf supports.

Wall Cabinet Tops and Bottoms & Base Cabinet Bottoms

½″ Thick industrial grade furniture board. These components are laminated with our WellShield® wood grain laminate. A dado joint, glue and staples are used to attach the top and bottom into face frames, end panels and hanging rails.

Backs

All backs are ⅛″ wood grain printed MDF with WellShield® laminate on the interior side. Wall cabinet backs are reinforced with 11⁄16″ x 3½″ wood grain laminated fiberboard hanging rails at the top and bottom. Wall cabinet backs are recessed and stapled into end panels, hanging rails and shelves. Base cabinet backs are attached in the same manner; the top and bottom of the base cabinet have 11⁄16″ x 3½″ wood grain laminated fiberboard hanging rails securing the back to the top of the end panels.

Shelves

Wall Cabinets - Adjustable Shelves

All wall cabinet shelves are adjustable and made of ¾″ thick industrial grade furniture board. The shelves are laminated with our WellShield® natural maple wood grain laminate which is resistant to water and household chemicals. The front edge of the shelf is banded with wood grain edge banding. The cabinet sides are drilled for shelf supports which are adjustable at 2½″ increments.

Base Cabinets - Adjustable Shelves

All base cabinets have fully adjustable ¾″ thick industrial grade furniture board shelves. The shelves are 10⁹⁄16″ deep and laminated with our WellShield® wood grain laminate. The front edge is banded with a wood grain edge banding.

Base Toe Board

The toe kick for base, vanity, utility and oven cabinets is ½″ x 4½″ unfinished furniture board. The toe kicks have captive construction.

Drawer - Box Construction

Sides, Front and Back

The box construction includes ⅝″ solid hardwood drawer sides, front and back with dovetail construction. The full depth drawer box is screwed to the drawer front with large washer head screws that allow for adjustment. The drawer has a 75 lb. weight capacity.

Drawer Bottoms

Laminated plywood bottoms are dadoed into all sides, glued and not stapled.

Drawer Slides

Wellborn drawers have full extension undermount soft-closing slides featuring Blumotion that provide smooth, easy operation. Drawer slides are fitted into a bracket mounted to the hanging rail. The bracket allows horizontal drawer adjustability.

6-Way Adjustable Smooth Close Concealed Hinges

Hinges are 6-way adjustable, chrome finished, smooth close concealed hinge design.

- Solid Wood Flat Center Panel
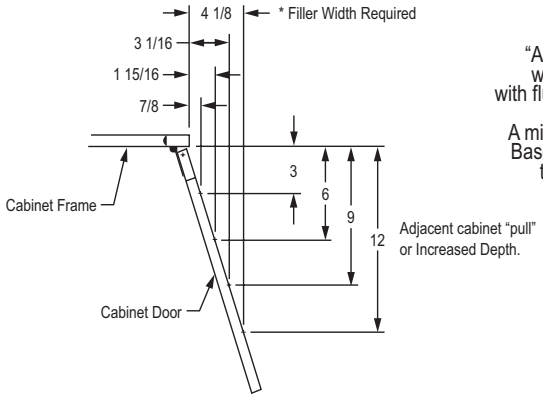
- Five Piece Drawer Front with Solid Reversed Flat Center Panel
- Classic Drawer Front Option Available for Top Drawer
- Tolerance around doors and drawers will vary

Installation Recommendations for Applied Moulding Doors Only.

Filler Requirements for Full Overlay Cabinets installed adjacent to “Pulled” or Increased Depth cabinets.

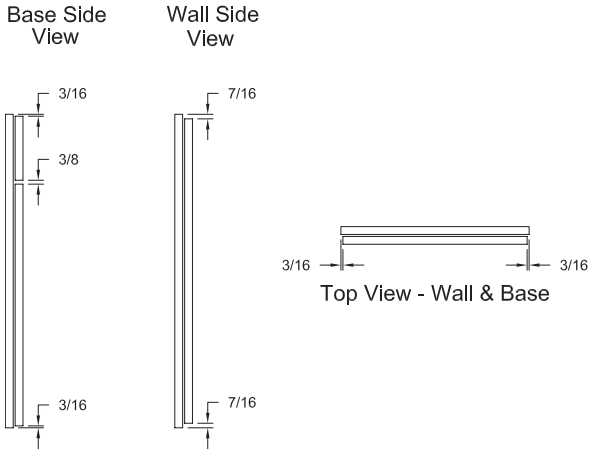


* Add 1/4" to the Filler width if the “Adjacent Cabinet” has standard end panels with the 1/4" scribe on the frame. Cabinets with flush ends would not require the additional 1/4".

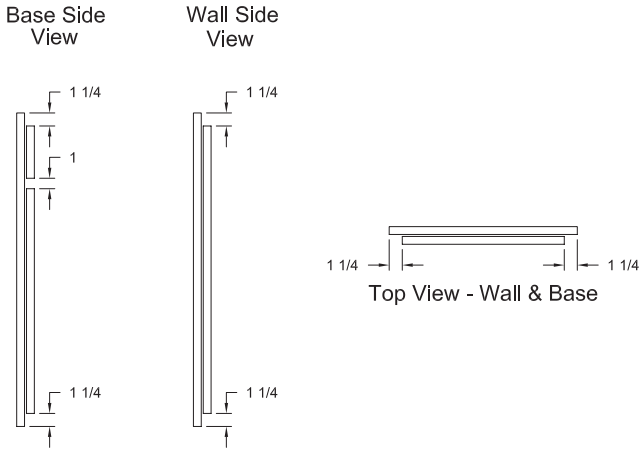
A minimum 1/4" Filler is also required on Drawer Base Cabinets Installed in this situation to allow the Drawer Front to clear the 1/4" Frame Scribe when the drawer is pulled out.

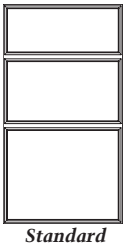
All Base, Vanity and Desk cabinets have a $^{3}/_{16}$″ reveal for FOL door styles and $1^{1}/_{4}$″ reveal for TOL door styles at top.

Full Overlay

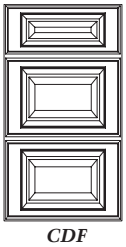


Traditional Overlay





Standard Drawer Configuration



CDF

CDF — Classic Drawer Front Option
CDFL — Classic Large Drawer Front Option

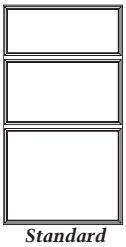
A 5-piece Classic Drawer Front option is available on some door styles in the Premier series. See Door Style Chart for availability indicated with ■. Classic Large Drawer Front option will apply to all drawer fronts greater than 8⅛″ tall. CDFL option is not available for Seville door styles. CDF and CDFL option can be ordered at the header level to apply to your entire order or at the line item level for specific cabinets.

To order at header level, use the following key combination:
CDF — Classic Drawer Front
CDFL — Classic Large Drawer Front
For Example: PRE BRS CDF TMF WHT
PRE BRS CDFL TMF WHT

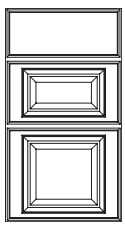
To order at line item level, use the following code with cabinet item code:
CDF — Classic Drawer Front
CDFL — Classic Large Drawer Front
For Example: B21 CDF1
3DB21 CDFL2

Note: For Madison Arch, Cathedral and Square door styles:
- Drawer fronts 4 ⅝″ to 6 ⅛″ in height will be 5-piece with a flat insert panel
- Drawer fronts 8 ⅛″ and larger in height will be 5-piece solid wood raised panel

For all door styles:
- Drawer fronts less than 4 ⅝″ will remain one piece.



Standard Drawer Configuration

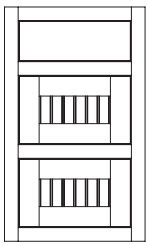


CDFL

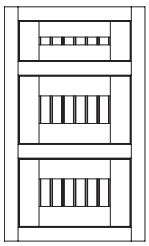
Pricing
Cabinet list price +
CDF option list price $80 (per each drawer)

For Example: 3DB18 CDF3

Cabinet list price:	$800
CDF option list price:	$240
Total list price	$1040



Standard Drawer Configuration



CDF

CDF — Classic Drawer Front for Inset Door Styles

For inset door styles, the Classic Drawer Front option is available for the top drawer (5⅛″ in height) only. The larger drawer fronts will be standard 5-piece and drawer fronts less than 5⅛″ in height will remain one piece in design.

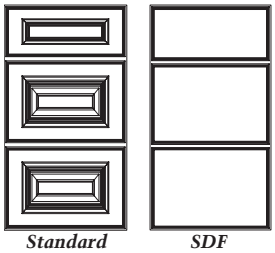
To order at header level, use the following key combination:
CDF — Classic Drawer Front
For Example: ECC BPT INS B CH CDF CHY LGT

To order at line item level, use the following code with cabinet item code:
CDF — Classic Drawer Front
For Example: 3DB21 CDF1

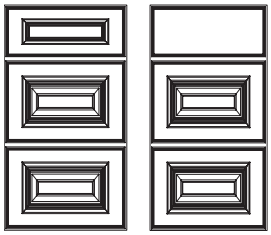
Pricing
Cabinet list price +
CDF option list price $80 (per each drawer)

For Example: 3DB18 CDF1

Cabinet list price:	$1000
CDF option list price:	$80
Total list price	$1080



Standard Drawer Configuration *SDF*



Standard Drawer Configuration *SDFT*

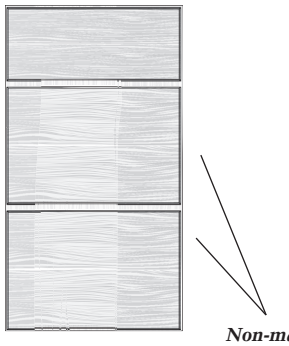
SDF — Slab Drawer Front Option
SDFT — Slab Drawer Front Top Option

A one piece or slab drawer front is available on specified door styles. See Door Style Chart for availability indicated with ❑. SDF and SDFT options can be ordered at the header level to apply to your entire order or at the line item level for specific cabinets.

To order at header level, use the following key combination:
SDF — Slab Drawer Front
SDFT — Slab Drawer Front Top Drawer
For Example: PRE BEL SDF MDF GLR
PRE BEL SDFT MDF GLR

To order at line item level, use the following code with cabinet item code:
SDF — Slab Drawer Front
SDFT — Slab Drawer Front Top Drawer
For Example: B21 SDF1
3DB21 SDFT

Pricing
No Charge



Non-matching grain pattern

HGDF — Horizontal Grain Drawer Front Option

This option is only available on Milan door styles. HGDF option can be ordered at the header level to apply to your entire order or at the line item level for specific cabinets.

To order at header level, use the following key combination:
HGDF — Horizontal Grain Drawer Front
For Example: PRE MIL HGDF OAK LGT

To order at line item level, use the following code with cabinet item code:
HGDF — Horizontal Grain Drawer Front
For Example: B21 HGDF1

Pricing
Cabinet list price +
HGDF option list price $80 (per each drawer)

For Example: 3DB18 HGDF3

Cabinet list price:	$800
HGDF option list price:	$240
Total list price	$1040

- Must specify L or R on all single door cabinets.
- Specify cathedral, arch or square on cathedral or arch door styles for standard vanity cabinets.
- All door styles have 6-way adjustable concealed smooth close hinges.

All finishes for a species are available on all door styles in that species unless noted. For example, all cherry finishes are available on all cherry door styles.

■ Classic Drawer Front Option — CDF available as an option on these door styles. Add a charge of $80 List for each drawer and blank front.

❑ Slab Drawer Front Option — SDF available as an option on these door styles at no charge.

HGDF ■ Horizontal Grain Drawer Front Option — HGDF available on this door style. Add a charge of $80 List for each drawer and blank front.

▲ Standard drawer front configuration

* Current Door Styles and Species on Extended Lead Time Program. Lead time will be extended one (1) week beyond the Standard Premier Lead Time.

Wellborn Cabinet, Inc. makes all MDF door styles from a Premier Superior Refined Medium Density Fiberboard to provide better quality from the start for a beautiful finish.

Take a second look at our Oak, now called Prestige Oak. Wellborn Cabinet, Inc. uses a specific milling process that produces a more uniform, straighter and tighter grain pattern yielding wood cabinet parts that are not as prone to warping and is more dimensionally superior to plain sawn lumber along with a more linear grain pattern that lends itself nicely to modern or transitional designs. All of this is available on all the solid wood door styles and at Oak's standard price! Show your customers Wellborn's new oak look today!

NE Natural Ends: All finishes notated "NE Natural Ends" will have as indicated natural maple wood grain laminate end panels (does not match cabinet front). Please refer to the specification catalog for available options on exposed ends. For example, order a finished skin to field install or order Matching Finished Ends.

‡ Only available with designated finish techniques.

Painted Medium Density Fiberboard (MDF) doors will display a color variance from the painted maple face frames, corbels, mouldings and other accessory items made with solid maple wood or maple plywood used in the same finish due to the MDF substrate material. This is not considered a defect and is not covered under warranty.

TRANSLUCENT STAINS WITH GLAZES

Translucent Stains	Ordering Codes	Species							
		Cherry	Character Cherry	Maple	Character Maple	Oak	Hickory	Thermofoil	Medium Density Fiberboard
Braze	BZE					35% NE	35% NE		
Forge	FGE					35% NE	35% NE		
Tensile	TEN					35% NE	35% NE		
Tungsten	TGT					35% NE	35% NE		

These unique finishes are created by applying multiple glazes onto a stained surface. This application, combined with the oak and hickory wood grain, creates a textural feel. These finishes will have a six (6) week lead time.

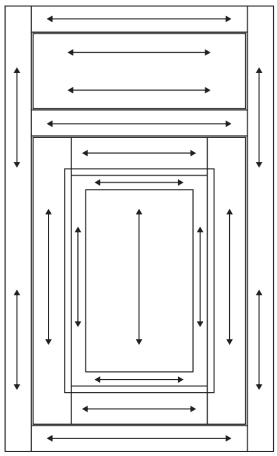
THE PREMIER SERIES — BRUSH FINISH

Brush Finish is available on Maple Premier Series Door Styles. Available to Order July 11, 2016

The Brush Finish technique is a hand applied glaze in a subtle brush stroke over laying the paint providing a depth to the finish not seen with standard glazing. All glazing is inconsistent providing a uniqueness to each part and piece it is applied to. A Brush Finish is created by a hand brushed technique applied to a contrasting opaque base color to look like a brush painted finish.

- Door Material Availability:
  - Brush Finish is available on Maple door styles.
- Brush Finish Details:
  - The Brush glaze color is called Fawn. Fawn is a very light tan color.
  - Fawn is available on the following painted colors: Crème, Divinity, Glacier, Pebble, Sandstone and Vanilla.
  - It is not available with any other glaze or Finish Technique options.
- Order Details:
  - Select Brush Finish Order Reason
  - Select Brush Finish Color
- Lead Time:
  - Brush Finish is available with the Extended Lead Time Program. The Extended Lead Time for Brush Finish will be an additional three (3) weeks more than standard Premier Lead Time, yielding a six (6) week lead time.
  - Lead time could vary based upon plant capacity.
  - Brush Finish is NOT available on the RUSH program.
- Customer Sample:
  - It is highly recommended you order a Brush Finish Sample Front Kit (SFK) in the door style and color choice for your customer to review.
  - The Document of Understanding Brush Finish is not required by Wellborn for ordering; however, it is strongly recommended that you should have your customer sign prior to order placement.
  - The sample will be available to ship to dealer 9 business days after dealer's cutoff date. This sample should be presented to dealer's customer for review and approval.
- Displays and Samples:
  - Showroom Display orders will follow the current Wellborn Cabinet, Inc. Display Program guidelines. If you have any questions, contact your Territory Manager for details.
  - Samples for showroom displays can be submitted for Co-op credit. This will require special approval from your Territory Manager along with pictures showing them as part of your permanent showroom display.
- Brush Finish Pricing:
  - Base Paint Color up-charge will apply
  - Add 20% for Brush Finish Technique

Brush Finish Application Process: Variations in brush stroke intensity, direction or overlap from piece to piece are common and should be expected. The brushed application is designed to give depth and movement to the base color. The brushed finish will be applied onto the base paint finish color in a directional brush stroke to the wood grain. The finished look can appear as an aged, weathered appearance to a more modern, contemporary look. Brush Finish will be applied to all painted surfaces, except the back of door and drawer fronts. Brush marks/strokes and amount of color will vary based on areas of the wood and the door and the selection of the wood species. Tonal variations and varied brush strokes should be seen and expected as a benefit of this finish process. Cabinet components that will include this technique: the front of cabinet doors and drawer fronts, face frames, decorative mouldings, wood accessories, finished ends and finished interior options. (Please see illustration below for direction of strokes when applied to the face frame, drawer front and sections of the door.)



Disclaimer: Due to the unique nature of Brush Finish, Wellborn Cabinet, Inc. does not guarantee that any two jobs or any two doors will look exactly alike. This variability should be explained so customers understand their kitchen will vary in appearance from your showroom display or door sample in the overall color tone, the amount of wiping, patterns and the amount of hang up and coverage. This technique should only be selected after viewing a Sample Front Kit (SFK) in the door style, species and color the customer will be ordering. Variances in this finish process are common and will not be considered a reason for product replacement or warranty.

Document of Understanding: Brush Finish

This finish technique is a glaze in a subtle brush stroke over laying the paint providing a depth to the finish not seen with standard glazing. All glazing is inconsistent providing a uniqueness to each part and piece it is applied to. A Brush Finish is created by a hand brushed technique applied to a contrasting opaque base color. It is only available on Maple door styles in Crème, Divinity, Glacier, Pebble, Sandstone and Vanilla paints with a Fawn brushed glaze.

Variations in brush stroke intensity, direction or overlap from piece to piece are common and should be expected. The brushed application is designed to give depth and movement to the base color. The brushed finish will be applied onto the base paint finish color in a directional brush stroke to the wood grain. The finished look can appear as an aged, weathered appearance to a more modern, contemporary look. Brush Finish will be applied to all painted surfaces, except the back of door and drawer fronts. Brush marks/strokes and amount of color will vary based on areas of the wood and the door and the selection of the wood species. Tonal variations and varied brush strokes should be seen and expected as a benefit of this finish process. Cabinet components that will include this technique: the front of cabinet doors and drawer fronts, face frames, decorative mouldings and wood accessories. Also included are finished end and finished interior options. (Please see illustration below for direction of strokes when applied to the face frame, drawer front and sections of the door.)

Due to the unique nature of Brush Finish, Wellborn Cabinet, Inc. does not guarantee that any two jobs or any two doors will look exactly alike. This variability should be explained so customers understand their kitchen will vary in appearance from your showroom display or door sample in the overall color tone, the amount of wiping, patterns, the amount of hang up and coverage. This technique should only be selected after viewing a Sample Front Kit in the door style, species and color the customer will be ordering. Variances in this finish process are common and will not be considered a reason for product replacement or warranty. This form is not required for ordering but is strongly recommended.

By WELLBORN CABINET, INC.®

ColorInspire is available on all Maple and MDF Premier Series Door Styles. Available to Order July 11, 2016

ColorInspire is a program that will allow your customers the ability to choose from thousands of colors in any of the Benjamin Moore, Sherwin Williams or Valspar color decks for that just right color. ColorInspire utilizes a catalyzed conversion finish that is oven-cured, creating a baked-on long lasting finish. The sheen level will be the standard low sheen level used on the current paint program.

Details About ColorInspire:

- Door Material Availability: ColorInspire is available on Maple and MDF door styles only.
- Finishes: ColorInspire is not available with any glazes or Finish Technique options.
- Lead Times: ColorInspire is available with the Extended Lead Time Program. The Extended Lead Time for ColorInspire will be an additional three (3) weeks more than standard Premier Lead Time, yielding a six (6) week lead time. Lead time could vary based upon plant capacity. ColorInspire program is NOT available on the RUSH program.
- Process Procedures: ColorInspire offers the selection of thousands of colors; therefore, there is a detailed process that must be followed to insure good service and customer satisfaction. This does take more preplanning time than the standard finish and paint offering. ColorInspire requires an upfront purchase of a color door sample of specified color and then many steps are taken to insure the consumer is pleased with their color choice. This sample cost is non-refundable. More details are listed below.
- Display Program: The ColorInspire program is included in Wellborn Cabinet, Inc.'s Display Program.
- Warranty and Disclaimer: All hardwoods, being a product of nature, vary from one piece to the next, even from the same tree, each having its own characteristics. Therefore, each piece of wood, each cabinet and each kitchen is unique. Painted finishes are created with several coats of pigmented paint and two coats of sealers. The final step is a conversion varnish topcoat that is oven-cured creating a tough, baked-on, long lasting finish. Depending on the door material chosen, some of the wood grain may show through the paint. The natural characteristics of wood create a constant state of expansion and contraction in every door, drawer front and face frame resulting in the visibility of joint lines. These visible joint lines are part of the beauty of painted finishes on natural wood. Samples approximate the actual paint color. It is also important to know that natural wood variation, graining, lighting (natural and artificial), profiles and edge shapes will affect the appearance of the color. ColorInspire is a catalyzed painted finish. There will be a slight difference between the ColorInspire sample and the cabinet order.
  The ColorInspire sample will not be an exact match to the paint manufacturer's paper color deck.

ColorInspire Ordering Steps:

Once the consumer has selected the ColorInspire program, the following steps must occur in order to obtain a smooth ordering and delivery process.

Step 1. Consumer may select any paint color from the Benjamin Moore, Sherwin Williams or Valspar color decks.

- These color decks can be located at any retail store that represents the brand.
- Samples approximate the actual paint color. It is also important to know that natural wood variation, graining, lighting, profiles and edge shapes will affect the appearance of the color. ColorInspire is a catalyzed painted finish.
  The ColorInspire sample will not be an exact match to the paint manufacturer's paper color deck.

Step 2. Place the order for the required ColorInspire Sample.

- Log on to Direct Connect
- Select RUSH – ColorInspire Sample
  - i. Information required for ordering:
  - ii. Paint Manufacturer's Name — For Example: Sherwin-Williams
  - iii. Paint Manufacturer's Color Name — For Example: Blue Bauble
  - iv. Paint Manufacturer's Order Code — For Example: SW6948
  - v. ColorInspire Wellborn Sample ID Number — For Example: CS000001 (will be supplied by Wellborn and applied to each half of sample)
  - vi. ColorInspire Sample Item Code: FD1417CS
    1. Sample Cost: $500 List
    2. Customer samples are not Co-op eligible.
- It is recommended that the sample be ordered in the door style and door material (Maple or MDF) of the potential order.
- Half of the ColorInspire sample will be available to ship to dealer 9 business days after dealer's cutoff date. This sample should be presented to the consumer for review and approval.
- The other half of the ColorInspire sample will remain at Wellborn Cabinet, Inc. for 90 days after the date stamped on the sample.
- ColorInspire Acceptance Form with approval signatures of consumer and dealer must be returned to Wellborn by dealer via electronic transmittal with cabinet order placement. The Acceptance form will be attached to the purchase order. If the color is not acceptable, a new sample must be purchased specifying a different color number. Wellborn Cabinet, Inc.'s ColorInspire program does not include a custom color match program.

- ColorInspire sample expires 90 days after the date stamped on the sample. If an order is not placed within that time, a new sample must be purchased and the entire process, including the purchase of a new ColorInspire sample, must be repeated prior to placing a ColorInspire order.

Step 3. Place ColorInspire Order

- ColorInspire Acceptance Form must be submitted to the Direct Connect ordering system prior to order placement – NO Exceptions.
- Order placement will occur following the receipt of the Acceptance Form at the dealer's next order cutoff date.
- Minimum of $500.00 Net cabinet order required. A minimum dollar order is not required for replacement part orders.
- Ordering Procedures:
  - i. Select the ColorInspire Finish Order Selection
  - ii. The following information will be required on the ColorInspire Order.
  - iii. Paint Manufacturer's Name — For Example: Sherwin-Williams
  - iv. Paint Manufacturer's Color Name — For Example: Blue Bauble
  - v. Paint Manufacturer's Order Code — For Example: SW6948
  - vi. ColorInspire Wellborn Sample ID Number — For Example: CS000001 (will be supplied by Wellborn and applied to each half of sample)
  - vii. The system will verify the information to the Acceptance Form information to insure correct color is ordered.
- There will be a slight difference between the ColorInspire sample and the cabinet order.
- ColorInspire Price: Add 25% to standard List price.
- Replacement Orders:
  - i. If a replacement part order is needed after 90 days from ColorInspire sample date, a new ColorInspire sample must be ordered.
- Displays and Samples:
  - i. Showroom Display orders will follow the current Wellborn Cabinet, Inc. display Program guidelines. If you have any questions, contact your Territory Manager for details. You must follow the same procedure stated above for ordering.
  - ii. Samples for showroom displays can be submitted for Co-op credit. This will require special approval from your Territory Manager along with pictures showing them as part of your permanent showroom display. You must follow the same procedure stated above for ordering.
- Touch-up:
  - i. Touch-up materials should be obtained from your local retail paint dealer.

Team Colors:

Is your customer the ultimate fan of a sports team? Did you know that you can get those colors on cabinetry? Make their sports watching room (or any room) reflect their love of the game and their team by using ColorInspire. Contact your Customer Service Representative for more information.

ColorInspire® Acceptance Form

ColorInspire Painted Finishes are created with several coats of pigmented paint and two coats of sealers. The final step is a conversion varnish topcoat that is oven-cured creating a tough, baked-on, long lasting finish. Depending on the door material chosen, some of the wood grain may show through the paint. The natural characteristics of wood create a constant state of expansion and contraction in every door, drawer front and face frame resulting in the visibility of joint lines. These visible joint lines are part of the beauty of painted finishes on natural wood. All hardwoods, being a product of nature, vary from one piece to the next, even from the same tree, each having its own characteristics. Therefore, each piece of wood, each cabinet and each kitchen is unique. Samples approximate the actual paint color. It is also important to know that natural wood variation, graining, lighting, profiles and edge shapes will affect the appearance of the color. ColorInspire is a catalyzed painted finish. **The ColorInspire sample will not be an exact match to the paint manufacturer's paper color deck.** Samples approximate the actual paint color. There will be a slight difference between the ColorInspire sample and the cabinet order.

By signing below, you are stating that you understand and accept all these characteristics of a ColorInspire painted finish.

Translucent Stains with Glazes 35%

These unique finishes are created by applying multiple glazes onto a stained surface to create a textural look and feel.
Braze: A brown stain with white, gray and brown glazes
Forage: A dark gray stain with dark gray and brown glazes
Tensile: A light gray stain with white and gray glazes
Tungsten: A medium gray stain with gray and brown glazes

Techniques

Burnishing: A technique where the profile edges have been brushed with a dark glaze to create an antiqued effect.
Carved Edges: A technique where small areas of the wood surface are chiseled out on door edges and corners to create a high level of worn look.
Dry Brushing: A technique applying a very dark stain to imitate distressing on the surface of the wood.
Medium Dents: A physical technique of randomly striking the wood surface with a tool to create indentations that mimic the look of aged wood. Medium Dents are larger than Worm Holes and will collect a glaze in varying amounts when applied.
Rasping: A physical technique using a metal rasp to run over the edges and raised details to mimic severe wear.
Rub Thru: A sanding technique used to randomly expose an undercoat or natural wood tone of corners and edges.
Small Dents: A physical technique of randomly striking the wood surface with a tool to create indentations that mimic the look of aged wood. Small Dents are larger than Worm Holes and will collect a glaze in varying amounts when applied.
Spatter: A paint technique where paint is flicked across the surface, producing inconsistent spatter on the stained or painted surface
Worm Holes: A physical technique of randomly placing small round holes that mimics the look of insect penetration which occurs naturally in trees and harvested wood. Worm Holes are smaller than Small Dents and will collect a glaze in varying amounts when applied.
Glaze: An accent stain is applied over the entire door and when wiped off leaves a "hang up" of light to dark tones in the corners, deep grooves and wood grains creating an inconsistent light to dark all over glazed look.
All Stains, Stains with Glazes, Paints and Paints with Glazes will have a low sheen top coat.

Document of Understanding Special Effects

_____ is proud you have chosen Wellborn Cabinet, Inc. products for your home.
(Dealer Name)

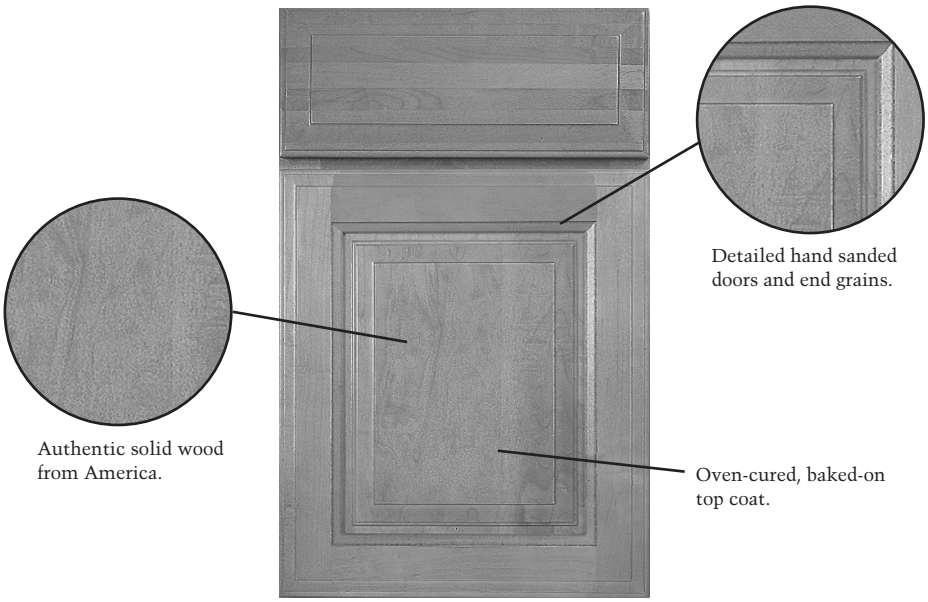
It is our desire that you be completely satisfied with your decision. All hardwoods, being a product of nature, vary from one piece to the next, even from the same tree, each having its own characteristics. Therefore, each piece of wood, each cabinet and each kitchen is unique.

We believe that it is important that you are aware of the special effects used to create _____.
(Finish Name)

The results of these finish techniques are intentional and will vary from one cabinet to the next. As a result, the effects of these techniques in an entire kitchen may be different than those in the individual sample on which you based your selection.

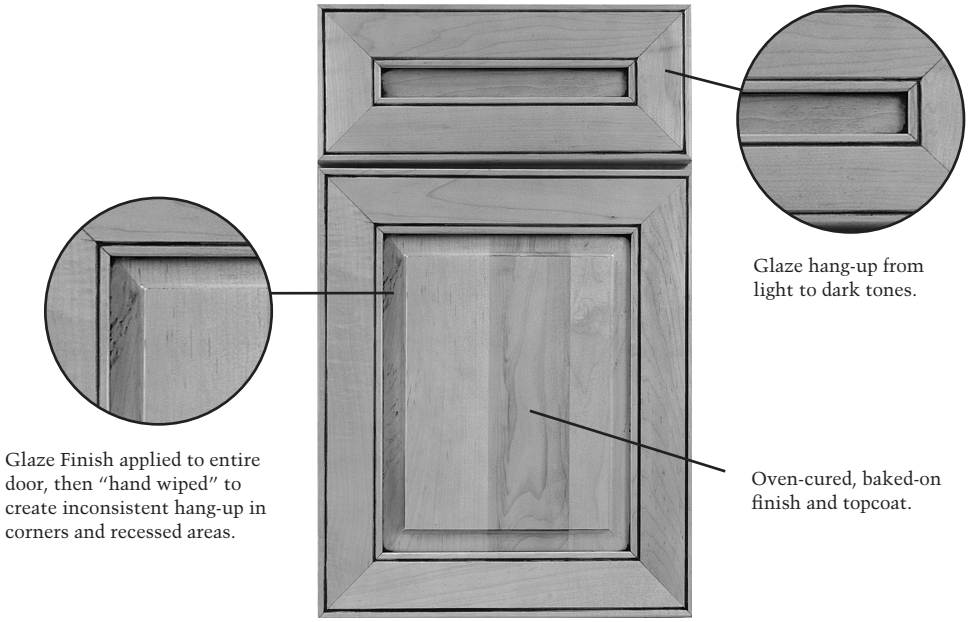
Following are descriptions of the finishing techniques used in many of Wellborn's finishes.

Stained Finishes



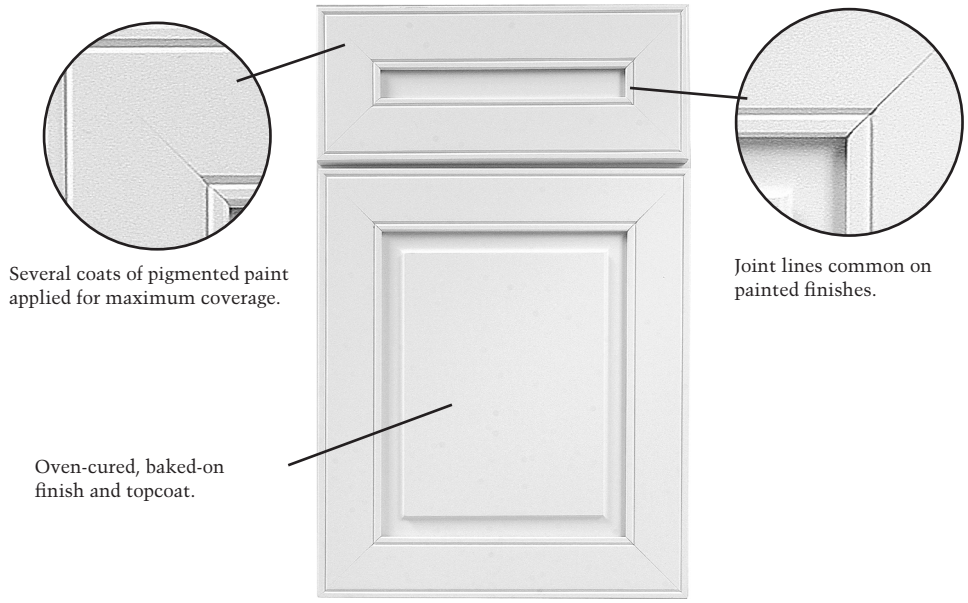
Wellborn's WellGuard Finishing System® is a superb finishing process. The Stained Finishes truly display the natural beauty and characteristics of each individual wood species. The detailed hand sanding and hand rubbed processes result in a high quality finish that enhances the wood grain in each door. A toner may be applied depending on the stain color to equalize natural sap levels. As layers of finish color and sealers are applied, hand sanding continues throughout the process ensuring the best finish in the industry. The final step is a conversion varnish topcoat that is oven-cured creating a tough baked-on long lasting finish.

Stained Finishes with Glaze Technique



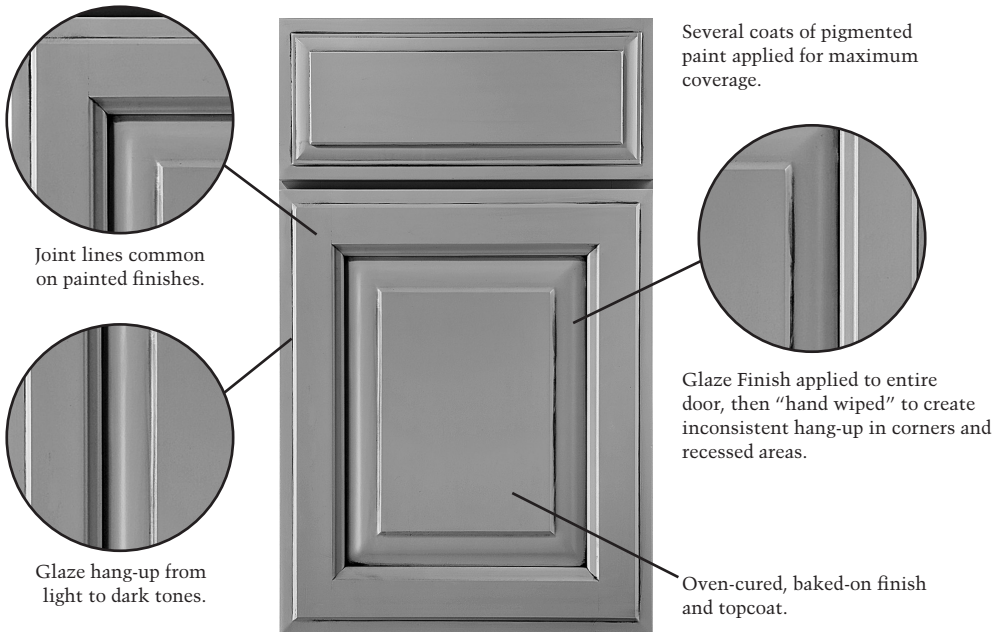
The Glaze Technique on Stained Finishes is created by applying an accent stain over the entire door and then wiping off the glaze leaving a "Hang Up" of light to dark tones in the corners, deep grooves and wood grains creating an all over glazed look. The Glaze Technique purposely creates an uneven, inconsistent look of light to dark tones. This hand rubbed application adds warmth and richness to the wood and results in a unique, one of a kind look on each door. The final step is a conversion varnish topcoat that is oven-cured creating a tough baked-on long lasting finish. These features are acceptable on stained finishes with a glaze technique and are not considered defects. Therefore, these features are not covered under warranty.

Painted Finishes



Painted Finishes are created with several coats of pigmented paint and two coats of sealers. Depending on the wood species chosen, some of the wood grain may show through the paint. Character maple will show more wood grain than standard maple. Painted Cherry and Painted Character Cherry are only available with designated finish techniques and require a signed acceptance form be submitted with each order. The natural characteristics of wood create a constant state of expansion and contraction in every door, drawer front and face frame resulting in the visibility of joint lines. These visible joint lines are part of the beauty of painted finishes on natural wood. The final step is a conversion varnish topcoat that is oven-cured creating a tough baked-on long lasting finish. These features are acceptable on painted finishes and are not considered defects. Therefore, these features are not covered under warranty.

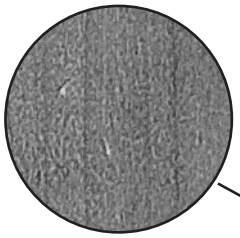
Painted Finishes with Glaze Technique



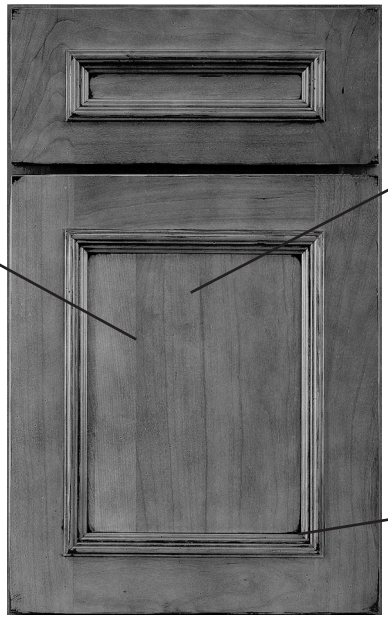
The Glaze Technique on Painted Finishes is created by applying an accent stain over the entire door and then wiping off the glaze leaving a "Hang Up" of light to dark tones in the corners, deep grooves and wood grains creating an all over glazed look. The Glaze Technique that is applied over Painted Finishes is created with several coats of pigmented paint and two coats of sealers. Depending on the wood species chosen, some of the wood grain may show through the paint. Character maple will show more wood grain than standard maple. Painted Cherry and Painted Character Cherry are only available with designated finish techniques and require a signed acceptance form be submitted with each order. The natural characteristics of wood create a constant state of expansion and contraction in every door and drawer front resulting in the visibility of joint lines. These visible joint lines are part of the beauty of painted finishes on natural wood. The final step is a conversion varnish topcoat that is oven-cured creating a tough baked-on long lasting finish. These features are acceptable on painted finishes with a glaze technique and are not considered defects. Therefore, these features are not covered under warranty.

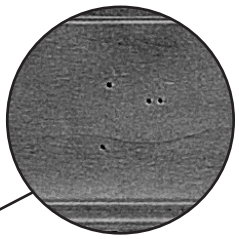
FINISH TECHNIQUES – Wellborn has several Finish Techniques that create different levels of worn appearances. Each piece on the cabinet will vary in the amount of level and appearance in each effect creating a randomness of appearance. Techniques will be applied to doors and drawer fronts. Overlay face frames and fillers do not receive finish techniques. Inset face frames and fillers receive finish technques. Moulding 1¼" wide and larger will receive finish techniques. Plywood parts do not receive finish techniques. Parts such as stiles on end panels will not receive finish techniques. For veneer door styles, Milan and Barcelona will only receive Cottage and SeaSide finish techniques. Door styles with veneer center panels (Bali and Essex) will only be available with Cottage, SeaSide and Vintage techniques. Some specialty accessories like Furniture Bookcases, Open Display Cabinets and Bookcases will receive these effects. Many small mouldings will not receive Finish Techniques. The Finish Techniques will vary within individual doors; therefore, no two doors will be alike throughout the entire kitchen. For your convenience, any exclusions are notated throughout the catalog.

Heirloom



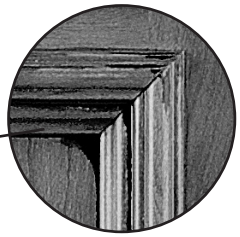
SMALL DENTS –
A physical technique of randomly striking the wood surface with a tool to create indentations that mimic the look of aged wood. Small Dents are larger than Worm Holes and will collect a glaze in varying amounts when applied.





WORM HOLES –
A physical technique of randomly placing small round holes that mimic the look of insect penetration which occurs naturally in trees and harvested wood. Worm Holes are smaller than Small Dents and will collect a glaze in varying amounts when applied.

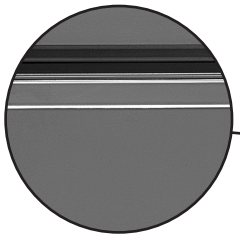
- Glaze Required for Maple, Character Maple, Oak and Hickory
- Glaze Optional for Cherry and Character Cherry



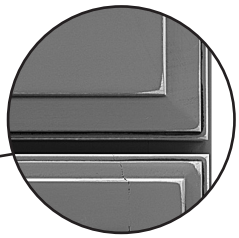
BURNISHING –
A technique where the profile edges have been darkened to create an antiqued effect.

The Heirloom Technique is available on doors, drawer fronts, the face frames of Open Display Cabinets and Bookcases and specified mouldings. All other face frames and accessories will not receive this technique. These features are acceptable with the Heirloom Technique and are not considered defects. Therefore, these features are not covered under warranty.

Vintage



Detailed hand sanded doors and end grains.



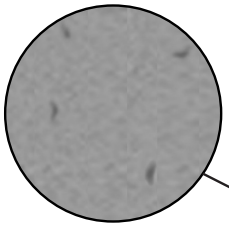
RUB THROUGH –
A sanding technique used to randomly expose an undercoat of natural wood tone on corners and edges.

- Glaze Required for Maple, Character Maple, Oak and Hickory
- Glaze Optional for Cherry and Character Cherry

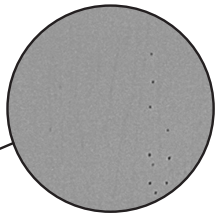
Oven-cured, baked-on finish and topcoat.

All doors with a flat center panel will not receive the Vintage technique on the center panel. The worn edges will vary within individual doors and throughout the entire kitchen. These features are acceptable with the Vintage Technique and are not considered defects. Therefore, these features are not covered under warranty.

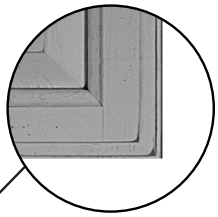
Carriage



SMALL DENTS –
A physical technique of randomly striking the wood surface with a tool to create indentations that mimic the look of aged wood. Small Dents are larger than Worm Holes and will collect a glaze in varying amounts when applied.



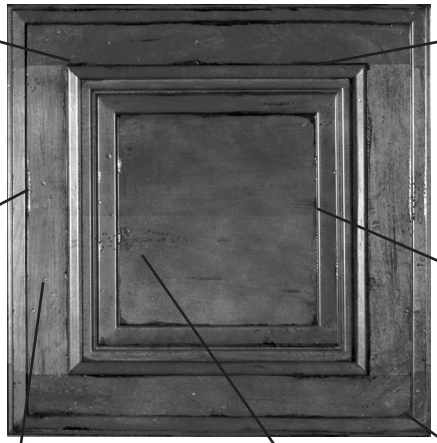
WORM HOLES –
A physical technique of randomly placing small round holes that mimic the look of insect penetration which occurs naturally in trees and harvested wood. Worm Holes are smaller than Small Dents and will collect a glaze in varying amounts when applied.

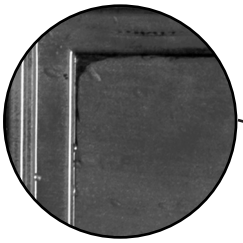


RUB THROUGH –
A sanding technique used to randomly expose an undercoat of natural wood tone on corners and edges.

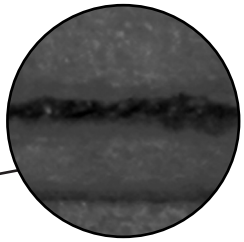
- Glaze Required for Maple, Character Maple, Oak and Hickory
- Glaze Optional for Cherry and Character Cherry

Olde World

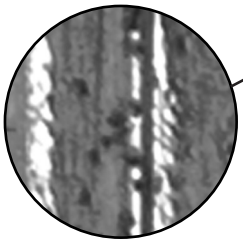




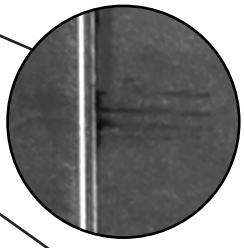
BURNISHING –
A technique where the profile edges have been darkened to create an antiqued effect.



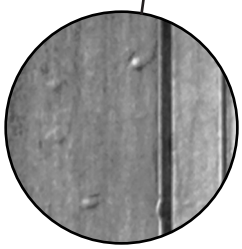
CARVED EDGES –
A technique where small areas of the wood surface are chiseled out on door edges and corners to create a high level of worn look.



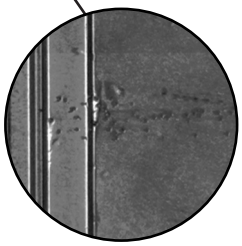
RASPING –
A physical technique using a metal scrapper called a rasp which runs over the edges and raised details to mimic severe wear.



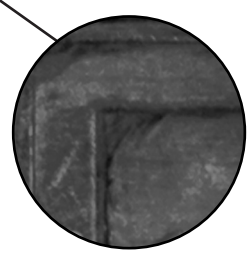
DRY BRUSHING –
A technique applying a very dark stain to highlight the distressing on the surface of the wood.



MEDIUM DENTS –
A physical technique of randomly striking the wood surface with a tool to create indentations that mimic the look of aged wood. Medium Dents are larger than Worm Holes and will collect a glaze in varying amounts when applied.



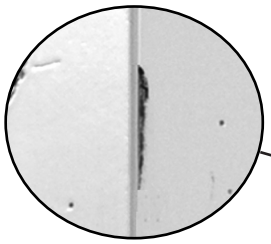
WORM HOLES –
A physical technique of randomly placing small round holes that mimics the look of insect penetration which occurs naturally in trees and harvested wood. Worm Holes are smaller than Small Dents and will collect a glaze in varying amounts when applied.



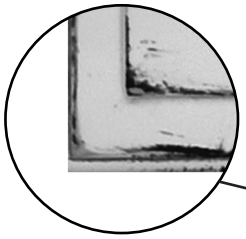
RUB THROUGH –
A sanding technique used to randomly expose an undercoat of natural wood tone on corners and edges.

- Glaze Required for Maple, Character Maple, Oak and Hickory
- Glaze Optional for Cherry and Character Cherry

Antique



BURNISHING –
A technique where the profile edges have been darkened to create an antiqued effect.



RUB THROUGH – A sanding technique used to randomly expose an undercoat of natural wood tone on corners and edges.

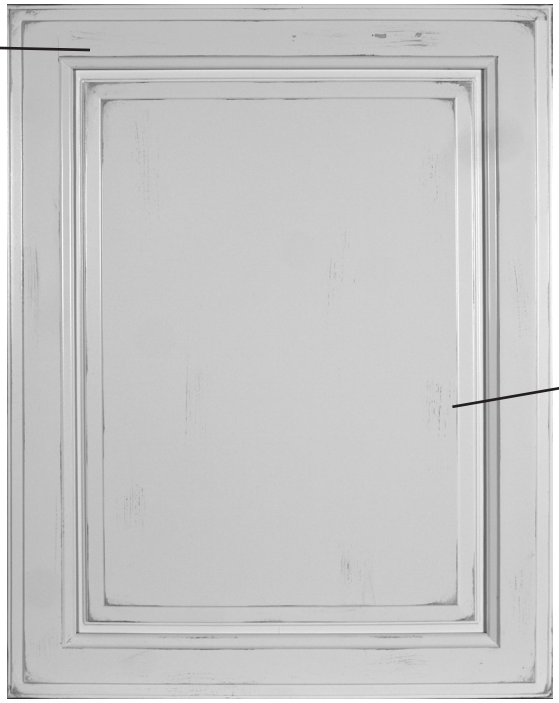
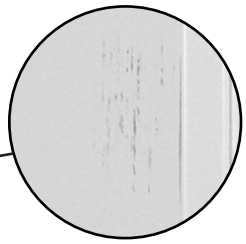
SeaSide

BURNISHING –
A technique where the profile edges have been darkened to create an antiqued effect.

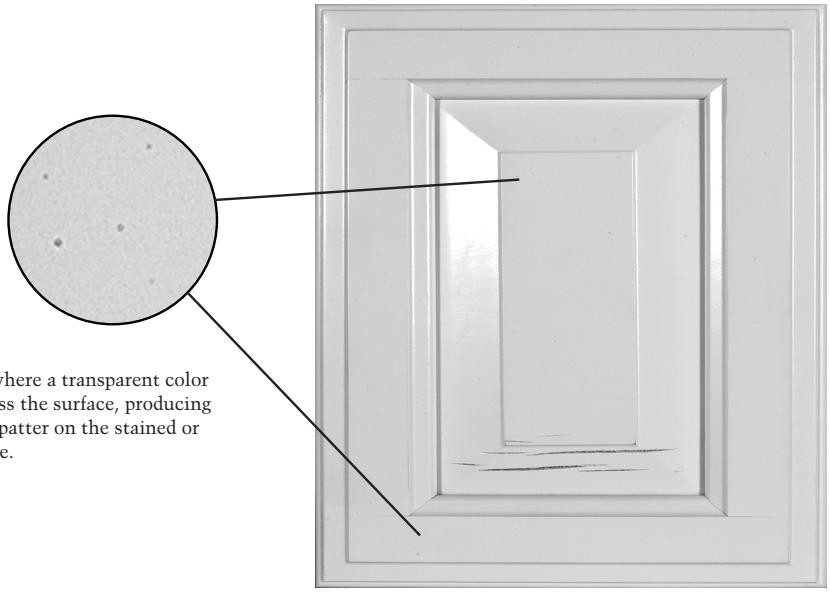




DRY BRUSHING – A technique applying a very dark stain to highlight the distressing on the surface of the wood.

- Available on Bleu, Divinity, Honey Butter, Pebble and Sage Paints
- Available on Maple, Character Maple, Oak and Hickory

Cottage



SPATTER –
A technique where a transparent color is flicked across the surface, producing inconsistent spatter on the stained or painted surface.

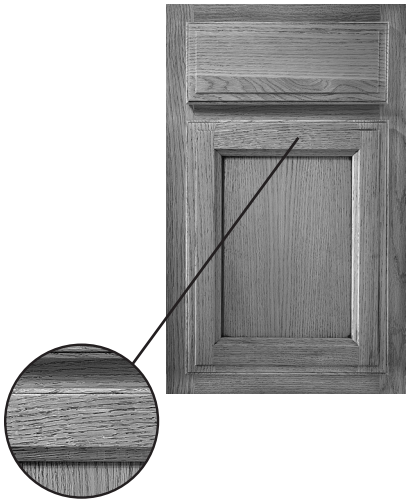
- Available on Crème, Divinity, Glacier, Honey Butter, Pebble, Sandstone and Vanilla Paints

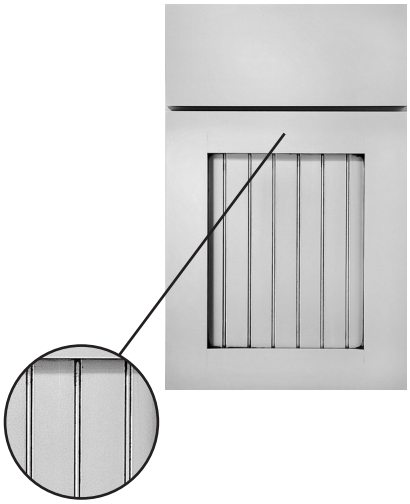
These features are acceptable on finishes with the Cottage Technique and are not considered defects. Therefore, these features are not covered under warranty.

Special Effects

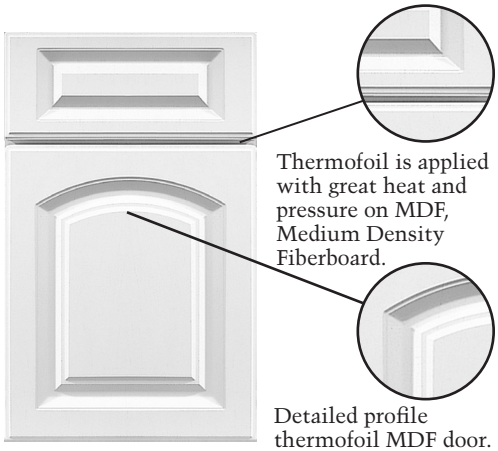
TICKING
Oak is an open grain and therefore the Glaze Technique will hang up in all open grain areas of the door, which will appear as "ticking." These features are acceptable with Specialty Finishes on oak and are not considered defects. Therefore, these features are not covered under warranty.

GLAZING ON BEAD BOARD
Door styles with bead board grooves retain more stain in all finishes, resulting in a darker color in the grooves. These features are acceptable. Therefore, these finishes are not covered under warranty.





Thermofoil



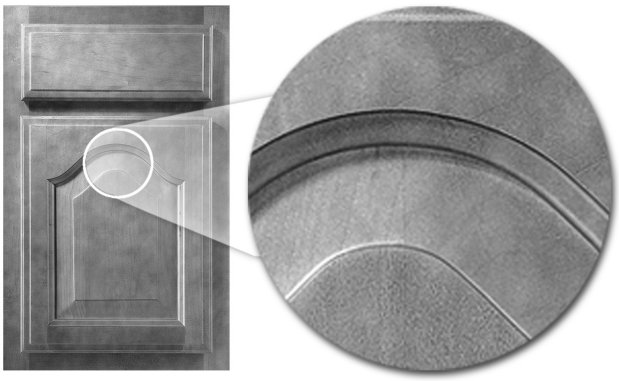
Thermofoil is applied with great heat and pressure on MDF, Medium Density Fiberboard.

Detailed profile thermofoil MDF door.

Easy-to-clean surface.

Thermofoil doors are created by pressing MDF (Medium Density Fiberboard) with a high quality foil that has a lightly textured effect. Foil is applied with an intense heat process and secured with durable glue to the MDF substrate to ensure a clean smooth surface. The face frame of the cabinets with thermofoil doors will be painted to match the door color. It is recommended that a Delamination Shield be placed between freestanding base ovens and adjacent cabinets during installation.

UNFINISHED CABINETS – This option is available for all door styles in the Premier Series and Estate except MDF and thermofoil door styles. Cabinet doors, drawer fronts and face frames will be unfinished. All open cabinets, like bookcases, will have an unfinished interior. This product is sanded at the factory; however, it should be sanded prior to field applying a finish to remove any residue that may be on the surface. Unfinished cabinets lack the protection of a finish coat and are more susceptible to damage from variations in temperature and humidity, and therefore are not covered under warranty. Unfinished cabinets void all warranty!

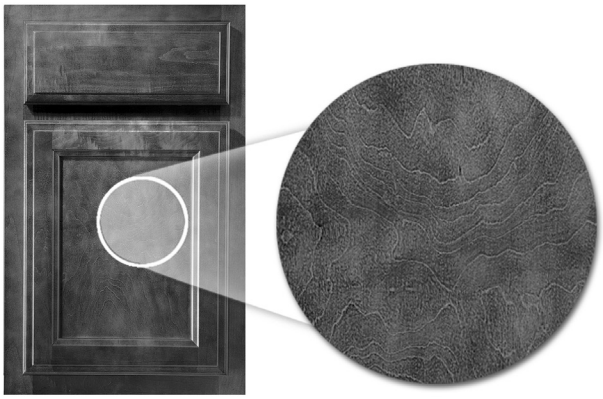


Light lines at edges of center panel are common on solid wood doors

Solid Wood Doors

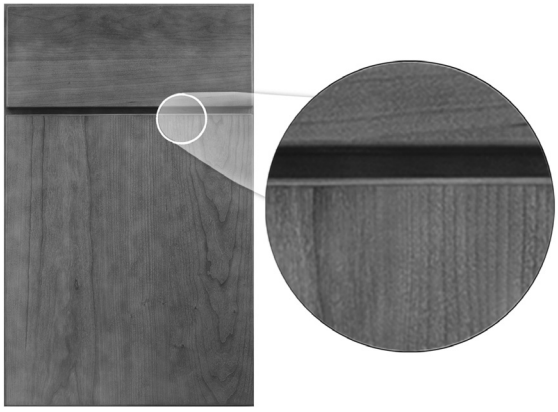
Solid wood doors are affected by temperature and humidity and will expand or contract, depending on the installed location. These conditions are inherent in all wood products and will cause a light line to appear at edges of the center panel. This can easily be touched up and can be controlled by regulating humidity. This characteristic is the result of environmental factors beyond manufacturer's control and is not considered a defect. Therefore, it is not covered under warranty.

Any product that is exposed to moisture will show separation at the joints.



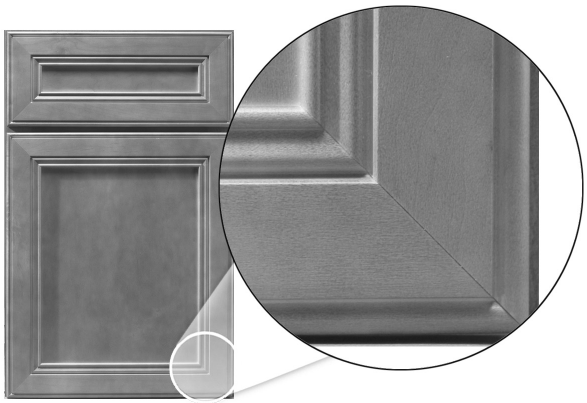
Veneer Center Panels

Veneer is thin slices of wood that are glued to furniture board. Since no two trees are exactly alike and even the same tree will have variations due to limbs and growth interruptions, there will be differences in the grain and color of the wood. Our veneer products are made from real wood and will have the same grain patterns, color variations and textures as the wood the veneer is made from. Therefore, each piece of veneer, each cabinet and each kitchen will be unique and beautiful.



Milan and Barcelona

The soft edges of the Milan and Barcelona doors are created by applying a ⅛″ thick solid wood edge. Certain stains may show a slight line between the door panel and wood edge. This is an acceptable level of quality for these doors and finish combinations.



Miter Doors

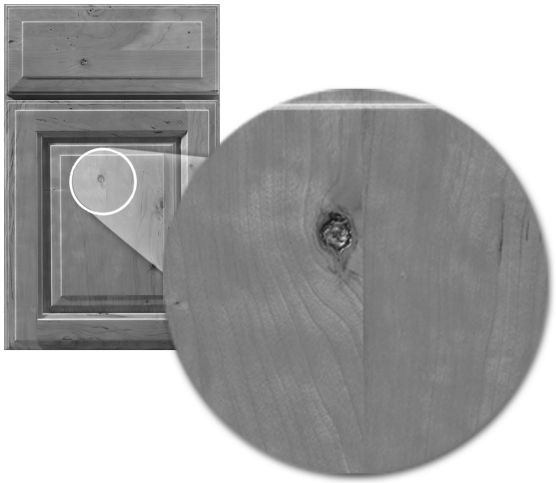
Miter doors will show separation and peeling in the joints at the door corners. This characteristic is the result of environmental factors beyond manufacturer's control and is not considered a defect. Therefore, this feature is not covered under warranty.

Cherry Wood Species

Beautiful markings such as occasional clusters of tiny pin knots or very small dark streaks of gum set cherry apart from any other hardwood. Cherry includes sapwood that is white to yellowish and heartwood that is reddish brown. It is the nature and beauty of solid wood to vary somewhat in color and grain characteristics and, due to this nature, no two trees are alike. Exposure to sunlight, smoke, household chemicals and other environmental conditions will affect the color of the finish through time. Every wood species exhibits additional characteristics with age such as darkening of grain, pinholes and sap runs. Cherry wood ages noticeably faster than other wood species. The aging process occurs more quickly and is more noticeable in lighter finishes.

Character Cherry

Characteristics:
Character cherry has very different characteristics than standard cherry and other woods giving it an overall distinctive rustic appearance. Its characteristics are brought out by randomly occurring, variously sized knots, worm holes and tracks, gum pockets and streaks, mineral stains and streaks, burls, blemishes, sapwood, and non-structural splits. The amount of character marks will vary from each piece of wood making each kitchen unique. Character cherry will include wood color differences that can range from pink to dark brown with a flowing grain pattern.



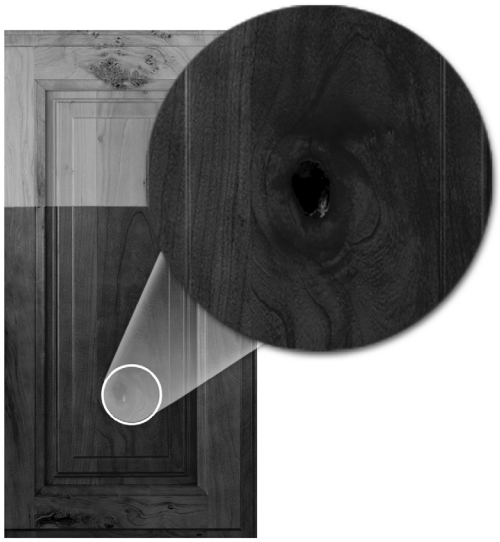
Knot Specifications:
While knots in character cherry are more rare than in character maple, it is possible to find open and closed knots with some knots possibly located in the center panel of door and drawer panels. Cluster knots could also be a feature. Open knots located in the center panel of the door and drawer panels are acceptable, though they must be structurally sound. Sound or closed knots are acceptable up to 2½" in diameter. Knots with visible openings entirely through the wood must not exceed ½." Some knot locations may affect hardware placement.

Accessories:
Other parts of the cabinet, like door stiles, rails and mouldings, will not include knots, but may show character cherry's other natural features. However, it will be uncommon to find all markings on any single piece. Door parts are chosen at random with the appearance of each individual door varying widely from a great amount of character to relatively clear cherry. It could occur that a part will be clear cherry as well. Cabinet face frames, end panels, and open cabinets (such as bookcases and other components) will not include knots; however they may appear with grain characteristics of character and/or clear cherry.

The color of character cherry will darken and mellow over time. This change is more evident in light finishes and is most noticeable within the first 6 months. Exposure to strong light sources, such as the sun, will accelerate this process. The natural characteristics of character cherry, including variations in grain patterns and color, are not considered reasons for product replacement and are not covered under the Warranty Program. We recommend viewing a door sample prior to ordering.

Dark Finishes on Character Cherry

Dark finishes and paints on character cherry will hide the majority of character features. Large open knots and some splits, if present, may still be partially visible. Character features are more noticeable on Natural or lighter toned finishes.



Character Maple

Characteristics:
Character maple has very different characteristics than standard hard maple and other woods giving it an overall distinctive rustic appearance. Its characteristics are brought out by randomly occurring, variously sized knots, pin holes, worm holes and tracks, gum and bark pockets, sugar tracks, heartwood and mineral streaks. The amount of character marks will vary from each piece of wood making each kitchen unique. Character maple will include wood color differences caused by variations found in minerals in the soil.

Knot Specifications:
It will be common to find open knots and bark pockets. Some knots may have small holes through the center panel. Character features include knots that may be located in the center panel of the door and drawer panels. Open knots located in the center panel of the door and drawer panels are acceptable, though they must be structurally sound. Sound or closed knots are acceptable up to 2½" in diameter. Knots with visible openings entirely through the wood must not exceed ½." Cluster knots could also be a feature.

Accessories:
Other parts of the cabinet like door stiles, rails and mouldings, will not include knots, but may show character maple's other natural features. The Bristol door style is the only exception to this due to it's wide shaker stiles and rails and will have some knots located in the stiles and rails of the door. However, it will be uncommon to find all markings on any single piece. Door parts are chosen at random with the appearance of each individual door varying widely from a great amount of character to relatively clear maple. It could occur that a part will be clear maple as well. Cabinet face frames, end panels and open cabinets (such as bookcases and other components) will not include knots, however they may appear with grain characteristics of character and/or clear maple.

The natural characteristics of character maple, including variations in grain patterns and color, are not considered reasons for product replacement and are not covered under the Warranty Program. We recommend viewing a door sample prior to ordering.

Dark Finishes or Paints on Character Maple

Dark stains and paints will hide the majority of character features. Large open knots and some splits, if present, may still be partially visible. Character features are more noticeable on Natural or lighter toned finishes.

Painted Cherry, Character Cherry & Character Maple Acceptance Form

Cherry, character cherry and character maple when painted, retain many of their natural wood characteristics. Please read the following to ensure a clear understanding of the nature of these wood species.

The natural characteristics of wood create a constant state of expansion and contraction in every door, drawer front and face frame resulting in the visibility of joint lines. These visible joint lines are part of the beauty of painted finishes on natural wood. All hardwoods, being a product of nature, vary from one piece to the next, even from the same tree, each having its own characteristics. Therefore, each piece of wood, each cabinet and each kitchen is unique.

Cherry has unique characteristics specific to this wood species. Gum streaks, pin knots and pitch pockets are natural occurrences that are acceptable and are not considered defects. When painted, these features will show through. Therefore, these features are not considered defects and are not covered under warranties.

Character cherry and character maple have very different characteristics than standard cherry, maple and other woods giving them an overall distinctive rustic appearance. These characteristics are brought out by randomly occurring, variously sized knots, pin knots, gum pockets and streaks, mineral stains and streaks, burls, blemishes, sapwood and non-structural splits. The amount of character marks will vary from each piece of wood making each kitchen unique. Character woods will include wood color differences that can range from pink to dark brown with a flowing grain pattern. While knots in character cherry are more rare than in character maple, it is possible to find open and closed knots with some knots possibly located in the center panel of door and drawer panels. Cluster knots could also be a feature. When painted, these features will show through. Therefore, these features are not considered defects and are not covered under warranties.

For a smoother painted finish, Maple or Medium Density Fiberboard (MDF) is recommended.

Please review the visual depictions on the following pages. These photographs visualize what can be expected in a painted cherry or character cherry product.

By signing below, you are stating that you understand and accept all these characteristics of a cherry, character cherry or character maple painted finishes.

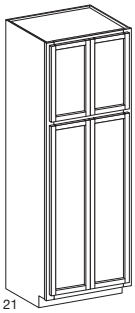
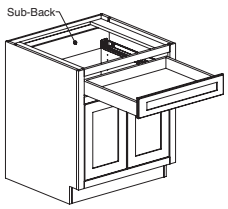
Modifying Dimensions

Cabinets and end panels can be modified for depth, height and width. Doors, drawer fronts and cabinet openings will change to match the new overall dimensions. Exceptions or limitations are noted under each individual modification. To obtain price, use the next larger or largest standard item available and add the specified percentage. Always reduce, if possible, from a larger cabinet. Modifying in multiple directions results in the following pricing:

Pricing
One direction — add 23% per cabinet
Two directions — add 33% per cabinet
Three directions — add 43% per cabinet



U248424 MD21



B30 MD30

MD — Modify Depth

The depth of most cabinets can be modified in ¼″ increments. When this modification is chosen the cabinet shelves will be standard full depth shelves. All drawers will remain standard depths. Cabinets with sliding shelves can not be reduced below 18″ or above 27″ depth. See the Semi-Custom Chart for availability and sizing information.

To order, use the following code with cabinet item code:
MD — Modify Depth
For Example: W3030 MD9

Cabinet Type	Depth Minimum	Depth Maximum
Walls without drawers	4½″	30″
Walls with drawers	12″	30″

W1536 MH35¼

MH — Modify Height

The height of most cabinets can be modified in ¼″ increments. For Wall, Base, Vanity and Tall cabinets with both doors and drawers, the height adjustment will occur in the door section and drawer heights will not change. For Tall cabinets and end panels, height adjustment will be made to top section. If Inverted Frame option is also chosen the height adjustment will be to the original top door section. When ordering cabinets with Bead Board or Contrasting Bead Board Backs, the height cannot be modified over 96". See the Semi-Custom Chart for availability and sizing information.

To order, use the following code with cabinet item code:
MH — Modify Height
For Example: U219324 MH91

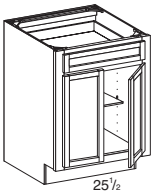
W3942 MW38½

MW — Modify Width

The width of most cabinets can be modified in ¼″ increments. Changes in width will follow the standard cabinet configurations. Any cabinet less than 24″ wide will be a single door cabinet by using existing 24″ wide single door cabinets. Cabinets greater than 48″ wide will become a three (3) door cabinet. 9″ Wide cabinets will be square for TOL arch and all cathedral overlay door styles. Modify width allows an easy way to get half size cabinets: i.e. 13½″, 16½″, 20½″, 22½″ widths, etc. **INSET:** 9″ Wide cabinets will have one piece doors. See the Semi-Custom Chart for availability and sizing information.

To order, use the following code with cabinet item code:
MW — Modify Width
For Example: B27 MW25 1/2



B27 MW25½

	Width	
Cabinet Type	Minimum	Maximum
Wall cabinets without drawers	9″	48″
Wall cabinets with drawers	12″	48″
Base and Vanity cabinets without drawers	9″	48″
Base and Vanity cabinets with drawers	12″	48″
Base and Vanity cabinets with sliding shelves	15″	48″
Vanity Sink Drawer Base cabinets	24″	60″
Tall cabinets without drawers	9″	42″
Tall cabinets with drawers	15″	42″

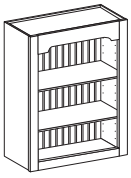
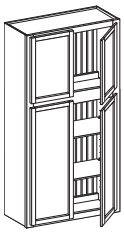
BKC2196 BB



ODW2436 BB



WSC2454 BB

BB — Bead Board Back

This option replaces the back of the cabinet with a bead board panel. It is available for most Wall, Base, Bookcase and Furniture Bookcase cabinets. All cabinets that are standard with a finished interior will come with the bead board back in the matching finish. Any cabinets with a standard interior will require ordering one of the many available finished interior options before this option will be allowed: Finished Interior (FI), Finished Interior Finished Door (FIFD), Finished Interior Mullion Door (FIMD) or Finished Interior Decorative Door Frame (FIDDF). Cabinets with this option are not available over 96" high. See the individual options for details and availability.

Note: When choosing this option specialty techniques will **NOT** be applied to the Bead Board Back.

To order, use the following code with cabinet item code:

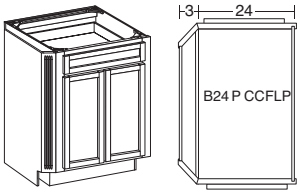
B24 CCL
(Clipped Corner Left Base)
27" Overall cabinet width

CC — Clipped Corner

Clipped Corner cabinets are available on many wall, base, vanity/office and tall cabinets. The clipped corner end panel is set back 3" by the clip and the width of the cabinet will increase 3" per clip. For example, a B24 with one clipped corner will have a 27" width. Clipped Corner sides are unfinished. Choose FME to get a finished end. See the Semi-Custom Chart for option availability.

To order use the following codes with cabinet item code:
CCR — Clipped Corner Right Wall, Base and Vanity/Office
CCL — Clipped Corner Left Wall, Base and Vanity/Office
CCRT — Clipped Corner Right Tall
CCLT — Clipped Corner Left Tall
CCFR — Clipped Corner Fluted Right Wall, Base and Vanity/Office
CCFL — Clipped Corner Fluted Left Wall, Base and Vanity/Office
CCFRT— Clipped Corner Fluted Right Tall
CCFLT— Clipped Corner Fluted Left Tall
For Example: B24 CCL (Left)
B24 CCFL (Fluted Left)



B24 P CCFLP
(Peninsula Clipped Corner
Fluted Left Base)
27" Overall cabinet width

To order Clipped Corner with Peninsula option for wall, base, vanity/office, use the following codes with cabinet item codes:
CCRP — Clipped Corner Right on Kitchen Side and Peninsula Side
CCLP — Clipped Corner Left on Kitchen Side and Peninsula Side
CCFRP— Clipped Corner Fluted Right on Kitchen Side and Peninsula Side
CCFLP — Clipped Corner Fluted Left on Kitchen Side and Peninsula Side
Note: Must be ordered with peninsula option only.
For Example: B24 P CCLRP (Left Peninsula)
B24 P CCFLP (Fluted Left Peninsula)

* The depth of a cabinet with a Clipped Corner cannot be less than 9"

Pricing
Add $275 List per end (Wall, base and vanity)
Add $330 List per end (Tall)
Add $550 List per end (Peninsula wall, base and vanity)

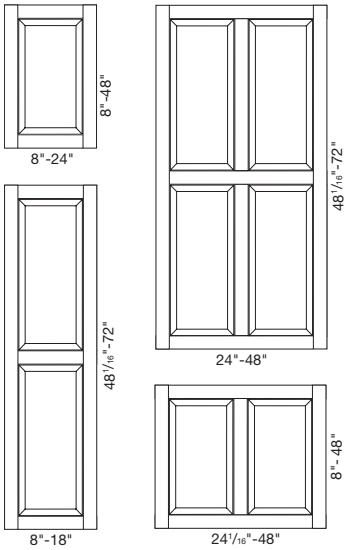
CUSTDOOR/CUSTBF — Custom Size Door and Drawer Fronts

Panel Configurations



This option gives you the ability to order custom panel sizes based on specific parameters for each door style. You must specify the following information when ordering. Does not include installation hardware. Wellborn has the right to substitute MDF for center panels with paints and paints with glazes to insure better quality on larger panels.

- Drill or No Drill (ND)
  - If Drill is selected, then you must specify Left (L) or Right (R) hinge.
- Door Edge Profile (DE) or Square Edge Profile (SE)
  - Note: All edges will receive the specified edge treatment.
- Height and Width
  - Sizes are allowed in 1/16″ increments
  - There are minimum and maximum widths allowed in order to retain the door profile. Minimum and maximum widths will vary based on individual door construction.
- Door Type
  - FD Finished Door
  - DDF Decorative Door Frame
  - MD Mullion Door

If DDF or MD is chosen, specify Glass Type:

Codes	Description	Price is in addition to sq. ft. door pricing	Glass Max. Sizes
NG	No Glass	No Charge	---
CG	Clear Glass	$100 List	48" x 60"
RG	Reeded Glass	$150 List	32" x 42"
SG	Satin Glass	$150 List	63" x 44"
CSG	Clear Seedy Glass	$150 List	24" x 72"
SSG	Super Seedy Glass	$150 List	32" x 42"
CAG	Clear Antique Glass	$150 List	24" x 72"
CWG	Clear Water Glass	$150 List	24" x 72"
CBG	Clear Baroque Glass	$150 List	30" x 72"

Custom Door Parameters:

For Custom Door orders, specify:
Door Hinge – L/R/ND
Edge Pofile – DE/SE
Door Type – FD/DDF/MD
Height measurement
Width measurement

Full Overlay Door Styles (Cope & Tenon)

Width:
- Minimum = 8″
  - Doors less than 11⅝″ are not available in Cathedral.
  - Doors less than 8⅝″ are not available in Arch.
  - Cortland, Chelsea, Charleston, Messina, Wellington, Winslow, Richmond, Vienna & Bristol doors less than 11⅝″ will have reduced width stiles.
- Maximum = 24″ (single panel), 48″ (horizontal double panel)
  - Doors greater than 24″ wide are not available in Arch or Cathedral.
  - Doors greater than 24″ wide are not available over 48″ high.

Height:
- Minimum = 8″
  - Doors less than 11″ high are not available in Arch or Cathedral.
- Maximum = 48″ (single panel); 72″ (vertical double panel)
  - Doors greater than 24″ wide are not available over 48″ high.

Mitered/Slab Door Styles (all are single panel)

Width:
- Minimum = 8″
- Maximum = 24″

Height:
- Minimum = 8″
- Maximum = 72″

Traditional Overlay Door Styles (Cope and Tenon)

Width:
- Minimum = 7¾″
  - Doors less than 9½″ are not available in Arch or Cathedral.
- Maximum = 21½″ (single panel), 48″ (horizontal double panel)
  - Doors greater than 21½″ wide are not available in Arch or Cathedral.
  - Doors greater than 21½″ wide are not available over 48″ high.

Height:
- Minimum = 7¾″
  - Doors less than 9½″ high are not available in Arch or Cathedral.
- Maximum = 48″ (single panel); 72″ (vertical double panel)
  - Doors greater than 21½″ wide are not available over 48″ high.

Note: All cope and tenon, MDF and thermofoil door styles over 48″ high will have a mid-rail, and if over 24″ wide will have a center stile. Mitered and slab doors will remain a one-piece panel.

Custom Drawer Front Parameters:

For Custom Drawer Front orders, specify:
Edge Profile – DE/SE
Height measurement
Width measurement

- Any drawer fronts *not listed* are SLAB.
- Minimum Size, Slab, H x L = 4⅝″ x 7″
- Minimum Size, 5-piece, H x L = 4⅝″ x 8⅝″
- Maximum Size, H x L = 15″ x 48″ (except Harbour & Bridgeport)

Charleston, Messina, Richmond and Vienna
- < 9⅞″ = 3-piece construction
- ≥ 9⅞″ = 5-piece construction w/raised panel

Madison CDF
- = 4⅝″ & < 8⅛″ = 5-piece w/flat panel

- < 6⅛″ cut-down from 6⅛″

Savannah, Monterey & Venice
- ≤ 5″ = 5-piece w/no visible center panel
- > 5″ & < 8⅛″ = 5-piece w/flat panel
- ≥ 8⅛″ = 5-piece w/raised panel

Geneva, Harmony, Hawthorne, Sonoma, Sydney & Napa
- ≤ 5″ = 5-piece w/no visible center panel
- > 5″ = 5-piece w/flat panel

Belmont & Hartford
- > 5⅝″ = 5-piece appearance

To Calculate the Price of Your Panel:
The custom panels are priced per square foot. There is a minimum charge of 1 sq. ft. for drawer fronts and 1½ sq. ft. for doors.

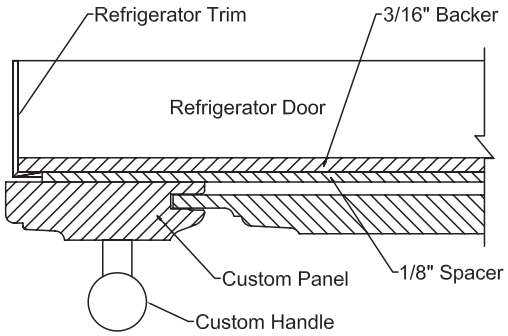
- Custom Panels are $120 List per sq. ft.

EXAMPLE:
Panel Size
36″ x 30″ = 1,080 ÷ 144 = 7.5 sq. ft.

For Custom Door (or Drawer Fronts):
7.5 sq. ft. x $120 List = $900

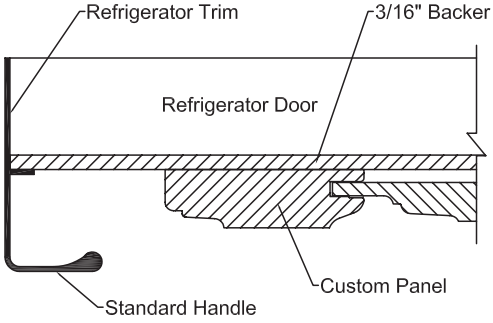
Custom Refrigerator Door Panels

Custom Appliance Panels to match your Estate cabinetry are available for appliances designed to accept them. These panels will be custom made to the appliance manufacturer specifications. It is important to research your appliances thoroughly before ordering. A few minutes spent acquiring the correct documents eliminates expensive replacements and order delays. Check the manufacturers specifications and model number carefully to verify your particular application. A complete model number and the appropriate manufacturer's specifications must accompany all custom panel orders.



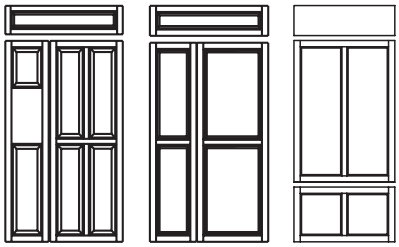
Typical "Overlay" Application

Custom panels for an "Overlay" application typically include 3/16" backers, 1/8" spacers and 3/4" custom panels which match the specified door style. The panels cover the entire front of the refrigerator and the installation usually requires a custom handle, but in some applications the standard handle can be extended to allow finger clearance between the custom panel and the handle. The term "Overlay" does not mean that the panels are limited to a full overlay door style. Traditional overlay doors can be used as well.



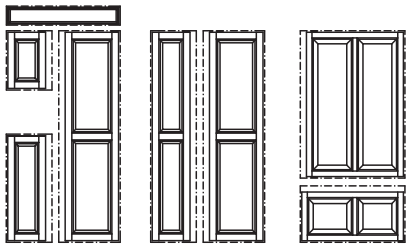
Typical "Classic" or "Framed" Application

Custom panels for a "Classic" application include 3/16" backers and 3/4" custom panels that match the specified door style. Some manufacturers refer to this as a "Framed" application. In this application, the trim around the perimeter of the door which holds the panels in place is visible. There is typically a 2"- 3" reveal on the handle side of the panels to allow for finger clearance. The top, bottom and hinge side reveals vary from 5/16"- 1" depending on the manufacturer.



Typical Overlay Configurations

Inset Design



Typical Classic Configurations

Notes:

- Any cut outs required for dispensers must be done in the field.
- Custom routing for finger clearance is not available.
- Panels greater than 24" in width will have two vertical panels. Mitered door styles have two separate panels designed to be mounted side-by-side.
- Panels greater than 48" in height will have two panels separated by a center rail. Mitered door styles will always have one tall panel with no center rail.
- Grill panels and doors less than 8" will have a flat center panel even in raised panel door styles.
- Add percentage (%) upcharge for specialty finishes.

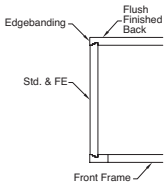
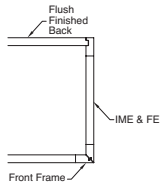
B24 FFB





FFB — Flush Finished Back

This modification integrates a ¾″ thick panel into back of cabinet for a flush finished back treatment. The grain of the back panel will run vertically. This option requires Flush Cabinet End option to be applied to both end panels (FCEB). It does not change the depth of the cabinet.

To order, use the following codes with the cabinet item code:

Codes	Description	List Price
FFB	— Flush Finished Back Wall/Base/Office/Vanity cabinets	$240
FFBT	— Flush Finished Back Tall cabinets	$540

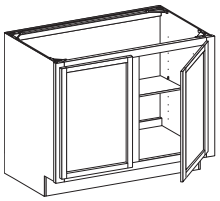
For Example: B24 FFB

For Diagonal Corner, Diagonal Corner Sink Base and Corner Sink Base Cabinets, you will need to specify Right, Left or Both. Always remember to face the front of the cabinet when specifying left and right.

To order, use the following codes with the item code:

Codes	Description	List Price
FFBR	— Flush Finished Back Right	$240
FFBL	— Flush Finished Back Left	$240
FFBB	— Flush Finished Back Both	$480

For Example: DC2430 FFBR



B39 FH

FH — Full Height Doors

Many base cabinets are available with Full Height Doors. See the Semi-Custom Chart for option availability.

To order, use the following code with cabinet item code:
FH — Full Height door
For Example: B39 FH

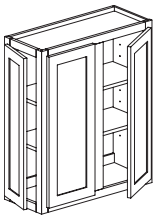
FE — Functional End

Functional End option is available for use on many wall, base, desk and vanity cabinets. See each section for information regarding vailability of Modify Depth option and sizing information. **INSET:** Not available

When adding a Functional End, please note the following:

- 24″ Deep cabinets are available with one door or two doors on the functional end.
- Single door Functional End will be hinged at the back of cabinet. Allow proper clearance for door to open.
- Must specify left, right or both sides of the cabinet.
- When FH, FIFD, FIMD or IF option is selected, the option will apply to front and functional end side of cabinet.

Note: When choosing Functional End option, the following options are excluded: BO, CC, ES, FO, P, RTK, TKU, VT, MTLDINSG, MTLDINRG, MTLDFGINSG, MTLDFGINRG, SSDSCIN, SSWIN, SDWIN and TOTIN.



W3936 FEWL

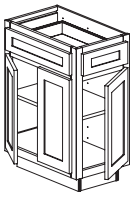
Wall cabinets:

- Full-height door cabinets receive one full-height functional door by specifying FEWL or FEWR. When MD24 is specified, then the cabinet will have the option of one or two doors on the Functional End. In order to specify two doors on the Functional End use FEWL2 and FEWR2 codes.
- 9″ Depth cabinets with Functional End will have a square door for TOL arch and all cathedral door styles.

To order, use the following codes with cabinet item code:
FE — Functional End

For Example:	**1 Door per side**	**1 Door per side**	**2 Doors per side**
	W3936 FEWL (1 Door)	W3936 MD24 FEWL (1 Door)	W3936 MD24 FEWL2 (2 Doors)
	W3936 FEWR (1 Door)	W3936 MD24 FEWR (1 Door)	W3936 MD24 FEWR2 (2 Doors)
	W3936 FEWB2 (2 Doors)	W3936 MD24 FEWB2 (2 Doors)	W3936 MD24 FEWB4 (4 Doors)

FE Available on the following cabinets:
W960 - W4812, PW1548 - PW3660



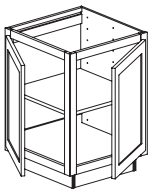
B15 FEL2

Base, Desk and Vanity cabinets:

- Full-height door cabinets receive one full-height functional door by specifying FEL or FER. Two doors can be specified for 24″ depth cabinets by using FEL2 and FER2 codes. Drawer/door combination cabinets receive a drawer front/functional door combination to match. Drawer front on the FE side is not functional.
- All base cabinets have square doors.
- Vanity bases with arch doors selected will come standard with arch doors on the functional end.
- Cabinets with this option will come standard with full depth shelving.
- Recessed Toe Kick will come standard on both front and functional end.
- When Inverted Frame option is selected, both face frames will be inverted.

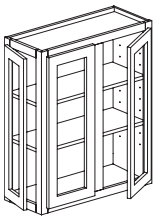
To order, use the following codes with cabinet item code:
FE — Functional End

For Example:	**1 Door per side**	**1 Door per side**	**2 Doors per side**
	B24 FEL (1 Door)	B24 MD21 FEL (1 Door)	B24 FEL2 (2 Doors)
	B24 FER (1 Door)	B24 MD21 FER (1 Door)	B24 FER2 (2 Doors)
	B24 FEB2 (2 Doors)	B24 MD21 FEB2 (2 Doors)	B24 FEB4 (4 Doors)



VS21 FEL

FE Available on the following cabinets:
B12 - B48, SB24 - SB60, VS1816 - VS42B18, VSB36 - VSB60, VB12 - VB2418, VS21BH - VS42B18BH, VSB36BH - VSB60BH, VB12BH - VB2418BH and DVB15 - DVB36



W3936 FEWL DDFIN CG

Decorative Door Frame Functional End Option

- Available on Wall, Base, Desk and Vanity cabinets
- When any Decorative Door Frame option is selected for the front face of the cabinet, the functional end door will automatically match the front. Refer to Decorative Door Frame options for details.

To order, use the following codes with cabinet item code:
FE — Functional End
For Example: W3936 2DDFIN CG FEWL

Mullion Door Functional End Option

- Available on Wall cabinets
- When any Mullion Door option is selected for the front face of the cabinet, the functional end door will automatically match the front unless, for overlay door styles, the cabinet is less than 15″ high or 12″ wide. **For wide stile door styles, mullion doors are not available for doors less then 13¼" wide.** If a mullion door is not available for the specified cabinet a finished door will be substituted. Refer to Mullion Door options for details.

FIMD — Finished Interior Mullion Door
FIMDTOP — Finished Interior Mullion Door Top
FIMDBTM — Finished Interior Mullion Door Bottom

Available on many wall and tall cabinets. When this option is chosen, end panels are finished on the exterior and interior. For Thermofoil door styles, shelves are painted plywood. When ordering FIMD, the whole cabinet interior will be finished, not just the sections that have mullion doors. A pack of assorted shelf clips is included to align shelves with mullions. Reference the following chart for door style availability.

When ordering FIMD, ALL standard doors will be replaced with mullion doors.
When ordering FIMDFTOP, TOP standard doors will be replaced with mullion doors.
When ordering FIMDBTM, BOTTOM standard doors will be replaced with mullion doors.

To order, use the following codes with cabinet item code:
FIMD—Finished Interior Mullion Door
For Example: W3930 FIMD TR NG

To order, use the following codes with cabinet item code:
FIMDTOP—Finished Interior Mullion Door Top
For Example: U308424 FIMDTOP TR CSG

To order, use the following codes with cabinet item code:
FIMDBTM—Finished Interior Mullion Door Bottom
For Example: U308424 FIMDBTM TR CG

These bullets apply to all Mullion Door Options:
- Not available on Box Only Options.
- Mullions in character maple and character cherry door styles will not have character features.
- Sandia will have the step profile on the top and bottom rails for Horizon Mullion Style.
- Half Arch and Symphony are only available in Essex, Henlow, Rose Hall, Seville and Madison door styles on the following cabinets: W1530, W3030, W1533, W3033, W1536, W3036, W1539, W3039, W1542, W3042, W1830, W3630, W1833, W3633, W1836, W3636, W1839, W3639, W1842 and W3642.
- For Wellington and Winslow door styles, the inside edge of the mullion door will match Messina.
- Harmony will have a decorative door frame with a mullion insert.
- Glass options are non-tempered and therefore not recommended for use near interior and exterior doors. Glass patterns run vertically with the height of the door.
- Not available on the following cabinets: 9″ Wide cabinets, entertainment cabinets, curved cabinets or any open cabinets that do not come standard with doors.

INSET: Available with Traditional Mullion Style only and for wall cabinets 15″ high or higher and 15″ wide or wider. Not available on 24″ wide double door cabinets. DDF options are available.

Note: To order replacement doors, use the Easy Parts Search Program on WAY.

See Premier–1–64 for Mullion Styles and Glass Type options.

2DDFINTOP — Two Decorative Door Frames Installed on top section
3DDFINTOP — Three Decorative Door Frames Installed on top section
4DDFINTOP — Four Decorative Door Frames Installed on top section
For Example: U308424 2DDFINTOP CBG

To order, use the following codes with cabinet item code:
1DDFINBTM — One Decorative Door Frame Installed on bottom section
2DDFINBTM — Two Decorative Door Frames Installed on bottom section
3DDFINBTM — Three Decorative Door Frames Installed on bottom section
4DDFINBTM — Four Decorative Door Frames Installed on bottom section
For Example: U308424 2DDFINBTM CAG

Note: Not available with Box Only option. Milan is a solid wood cope and tenon door frame with shaped edges. Not available for entertainment cabinets, any open cabinets that do not come standard with doors, all cabinets with a kit installed or the Barcelona doorstyle. **Glass options are non-tempered and therefore not recommended for base applications or near interior and exterior doors. Glass patterns run vertically with the height of the door.**

Then choose your Glass Type:

NG	No Glass
CG	Clear Glass
RG	Reeded Glass
SG	Satin Glass
CSG	Clear Seedy Glass
SSG	Super Seedy Glass
CAG	Clear Antique Glass
CWG	Clear Water Glass
CBG	Clear Baroque Glass

For Example: WSC3048 2DDFINBTM SG

Note: To order replacement doors, use the Easy Parts Search Program on WAY.

See Premier–1–64 for Glass Type options.

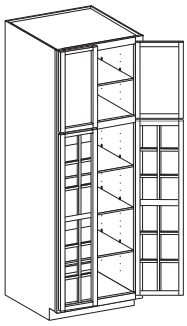
U308424 2MDINTOP SSG



U308424 2MDINBTM SSG

MDIN — Mullion Doors Installed
MDINTOP — Mullion Doors Installed Top
MDINBTM — Mullion Doors Installed Bottom

Most wall and tall cabinets can be ordered with Mullion Doors Installed on the cabinet. All cope and tenon tall doors greater than 48″ high will have a center rail and two panel openings. A pack of assorted shelf clips is included to align shelves with mullions. **Matching Interior is not standard with this option; therefore, we recommend ordering cabinets with Finished Interior (FI)**. Reference the following chart for door style availability.

When ordering MDIN, ALL standard doors will be replaced with mullion doors.
When ordering MDINTOP, TOP standard doors will be replaced with mullion doors.
When ordering MDINBTM, BOTTOM standard doors will be replaced with mullion doors.

To order, use the following codes with cabinet item code:
1MDIN — One Mullion Door Installed
2MDIN — Two Mullion Doors Installed
3MDIN — Three Mullion Doors Installed
4MDIN — Four Mullion Doors Installed
6MDIN — Six Mullion Doors Installed
8MDIN — Eight Mullion Doors Installed
For Example: W3930 2MDIN NG

To order, use the following codes with cabinet item code:
1MDINTOP — One Mullion Door Installed on top
2MDINTOP — Two Mullion Doors Installed on top
3MDINTOP — Three Mullion Doors Installed on top
4MDINTOP — Four Mullion Doors Installed on top
6MDINTOP — Six Mullion Doors Installed on top
8MDINTOP — Eight Mullion Doors Installed on top
For Example: U308424 2MDINTOP SSG

To order, use the following codes with cabinet item code:
1MDINBTM — One Mullion Door Installed on bottom
2MDINBTM — Two Mullion Doors Installed on bottom
3MDINBTM — Three Mullion Doors Installed on bottom
4MDINBTM — Four Mullion Doors Installed on bottom
6MDINBTM — Six Mullion Doors Installed on bottom
8MDINBTM — Eight Mullion Doors Installed on bottom
For Example: U308424 2MDINBTM SSG

These bullets apply to all Mullion Door Options:
- Not available on Box Only Options.
- Mullions in character maple and character cherry door styles will not have character features.
- Sandia will have the step profile on the top and bottom rails for Horizon Mullion Style.
- Half Arch and Symphony are only available in Essex, Henlow, Rose Hall, Seville and Madison door styles on the following cabinets: W1530, W3030, W1533, W3033, W1536, W3036, W1539, W3039, W1542, W3042, W1830, W3630, W1833, W3633, W1836, W3636, W1839, W3639, W1842 and W3642.
- For Wellington and Winslow door styles, the inside edge of the mullion door will match Messina.
- Harmony will have a decorative door frame with a mullion insert.
- Glass options are non-tempered and therefore not recommended for use near interior and exterior doors. Glass patterns run vertically with the height of the door.
- Not available on the following cabinets: 9″ Wide cabinets, entertainment cabinets, curved cabinets or any open cabinets that do not come standard with doors.

INSET: Available with Traditional Mullion Style only and for wall cabinets 15″ high or higher and 15″ wide or wider. Not available on 24″ wide double door cabinets. DDF options are available.

Note: To order replacement doors, use the Easy Parts Search Program on WAY.
See Premier–1–64 for Mullion Style and Glass Type options.

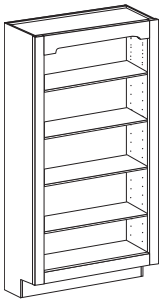
W3930 TKA



BKC2760 TKA

TKA — Toe Kick Added

Available on most wall and bookcase cabinets unless noted on the Semi-Custom chart. This option adds a 4½″ tall by 3⅜″ deep toe kick to the bottom of a wall cabinet which increases the overall height of the cabinet by 4½″. The end panels will extend to the total cabinet height. The Toe Kick Added option uses standard wall doors. See Semi-Custom Chart for availability.

To order, use the following code with cabinet item code:
TKA — Toe Kick Added
For Example: W3930 TKA
(Overall height is 30″ + 4½″ = 34½″)

Note: When choosing this option the following options are excluded: Front Only, Inverted Frame, Half Arch Mullion Doors Installed, Void Toe Kick, Wide Bottom Rail, and Cathedral or Arch door styles. When ordering WTR with TKA on wall cabinets, the WTR will extend up beyond the face frame of the box. Mullion Doors, Decorative Door Frames, and Metal Doors (installed) are available. Modified Depth is available in ¼″ increments up to 24″. Full Height Door and Full Depth Base Shelf are standard. Recessed Toe Kick can be ordered with Toe Kick Added.

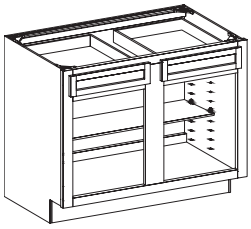
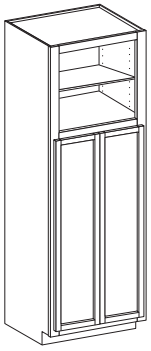
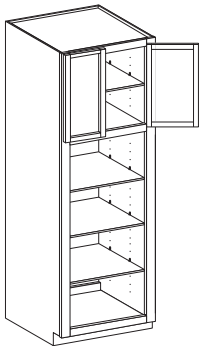
Note: When choosing this option the following options are excluded: FI, BO, cabinets that have kits attached to the door fronts or any cabinets with lift doors.



B30 VDO



U248424 VDRTOP



U248424 VDRBTM

VDO — Void Doors Only
VDRTOP — Void Doors Top
VDRBTM — Void Doors Bottom

Most cabinets are available with the Void Door options. Cabinets with top doors, such as Wall Stack Cabinets, Utilities, etc. may be ordered as Void Doors Top. Hinges will not be included for the voided doors.

VDO — Void Doors Only
Most cabinets with doors or door/drawer combinations may be ordered as Void Doors Only. VDO eliminates all doors on the cabinet. Drawer boxes, drawer fronts and blank fronts will remain intact. Hinges will not be included for the voided doors.

VDRTOP — Void Doors Top
Cabinets with top doors, such as Wall Stack Cabinets, Utilities, etc. may be ordered as Void Doors Top. VDRTOP eliminates the top doors on the cabinet, leaving the bottom doors intact. Hinges will not be included for the voided doors.

VDRBTM — Void Doors Bottom
Cabinets with bottom doors, such as Wall Stack Cabinets, Utilities, etc. may be ordered as Void Doors Bottom. VDRBTM eliminates the bottom doors on the cabinet, leaving the top doors intact. Hinges will not be included for the voided doors.

To order, use the following code with cabinet item code:
VDO — Void Doors Only
For Example: B30 VDO

VDRTOP — Void Doors Top
For Example: U248424 VDRTOP

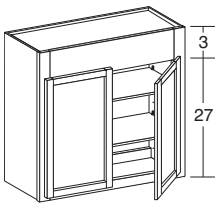
WTRRO — Wide Top Rail Reduced Opening



W2430 WTRRO3

Wide Top Rail Reduced Opening is available for wall and tall cabinets. It shortens the height of the door and creates a wide top rail that is available in 3″ or 6″ heights. This option is not available for 12″ high cabinets and will only be available in the 3″ height for 15″ high cabinets. These restrictions also apply to the upper section of tall cabinets that line up with 12″ and 15″ high cabinets. Not available with Clipped Corner, Inverted Frame or Valance options. When this option is ordered in conjunction with Functional End, Integrated Matching End, Matching End Panel Installed or Peninsula Options, the modified sides will also reflect the Wide Top Rail Reduced Opening.

To order, use the following codes with cabinet item code:
WTRRO3 — Wide Top Rail Reduced Opening by 3″
WTRRO6 — Wide Top Rail Reduced Opening by 6″
For Example: W2430 WTRRO3

To order Peninsula option, use the following codes with cabinet item code:

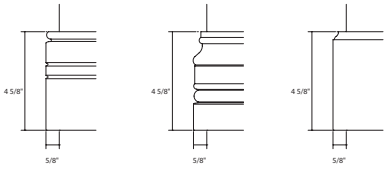
VSDB36L VTK
DBP4IN-CBM



DBP4-BM ***DBP4-CBM*** ***DBP4-FBM***

DBP4IN — Decorative Base Platform Installed

Available on vanity cabinets. Not available on Curved Vanity Cabinets. This option applies base moulding around the bottom of the vanity. This option requires that VTK and FME options be applied to the cabinet.

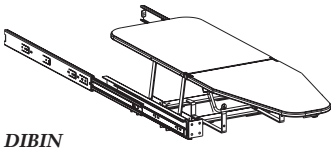
To order, use the following item codes with the cabinet item code:

Codes	**Description**	**Pricing per sq. ft.**
DBP4IN-FBM	— Decorative Base Platform with Furniture Base Moulding Installed	$35 List
DBP4IN-CBM	— Decorative Base Platform with Classic Base Moulding Installed	$50 List
DBP4IN-BM	— Decorative Base Platform with Base Moulding Installed	$35 List

For Example: VSDB36L VTK DBP4IN-CBM

To calculate the price:
The Decorative Base Platform is price by square feet. There is a minimum charge of eight (8) square feet. For measurements greater that 8 sq. ft., use the individual moulding list price times the number of square feet.

Example:
Cabinet size
60″ x 21″= 1260 ÷ 144 = 8.75 x $50 List = $437.50 List



DIBIN

DIBIN — Drawer Ironing Board Installed

The Drawer Ironing Board will fit in a B18 or B21. It is available for the top drawer only. This kit replaces the drawer. Not available with Reduced Depth, Reduced Depth Drawer or Box Only options.

SSPSIN — Split Spindle/Plinth/Spool Installed

Includes split spindle/plinth/spool installed to our 3″ plain extended stiles, 3″ plain wide stiles, 3″ plain clipped corners, 3″ plain fillers and 3″ plain pilasters. It will be centered on extended/wide stile and clipped corners (not including original stile dimension of cabinet). Height is limited to 96″. Available in fluted, rounded or rope split spindle options. Wall, base, tall and vanity cabinets receive a split plinth block and spool at the top and bottom of the split spindle. If added to a cabinet with WBR option, the bottom plinth will be larger. Note: this feature will protrude about 1″ from the face frame of the cabinet. **This option is only available on cabinets and accessories 18″ high or higher.**

To order, use the following codes with the cabinet item code:

Fluted Split Spindle/Plinth/Spool Installed
FSSPSIN — Fluted Split Spindle/Plinth/Spool Installed (for fillers and pilasters only)
FSSPSLIN — Fluted Split Spindle/Plinth/Spool Left Installed

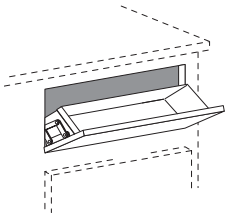
TKDIN

TKDIN— Toe Kick Drawer Installed

This modification installs a drawer in the recessed toe kick area of Base, Office, Vanity or Tall cabinets. Drawer is ¾″ solid dovetail hardwood with full extension drawer slides that include a touch feature that allows easy opening of the drawer. The drawer front is ¾″ thick solid wood with an eased edge profile and will protrude when placed next to a standard toe kick. There is ¼″ clearance from the bottom of the drawer front to the floor; guides can be adjusted up 1/8″ for additional clearance. Nylon glides are attached to bottom of drawer front to prevent front from dragging or scratching the floor. Minimum cabinet width is 15″, maximum 36″. Minimum cabinet depth is 18″, maximum 27″. This option is not available with Clipped Corner, Peninsula, Toe Kick Unattached or Wide Bottom Rail options.

To order, use the following item code with the cabinet item code:

Codes	Description	List Price Including Installation Charge
TKDIN	Toe Kick Drawer Installed For Example: B27 TKDIN	$365



TOTIN — Tilt Out Tray Installed

The following base cabinets are available with the Tilt Out Tray Installed in the cabinet. When ordering, note that the Tilt Out Tray will be stainless. Not available with Box Only or Front Only cabinet options. **INSET:** Not available.

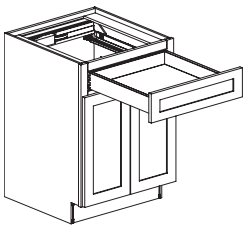
VB15WB WBTTOIN



VB30 SDWRTTOIN

TTOIN — Touch To Open Installed

Touch To Open is available on many cabinets with drawers, wastebasket cabinets and also on some wall cabinets. This option installs an electrical kit (requiring electrical access) that assists in opening drawers/doors with just a touch to the drawer/door front. Touch To Open is available for the top drawer only or all drawers in the cabinet; meaning there are multiple codes available for cabinets with more than one drawer.

This option is not available on cabinets with Full Height Doors, Box Only or Reduced Depth Drawer options. Options that apply to specific drawers such as Cutting Board Drawer Installed, Cutting Board and Knife Drawer Installed, Scoop Top Drawer Box, Void Top Drawer, Wide Top Rail, Wood Tiered Cutlery Tray Installed options will not have the TTOIN option for the affected drawer(s). This option will also not be available for the Drawer Corner Base Cabinets, Wastebasket Cabinets in Inset, drawers with the Pullout Table installed, file drawers, U-drawers, drawers that are less than 8″ wide or drawers that are less than 3 7/16″ tall.

To order, use the following codes with the cabinet item code:

Codes	Description	Pricing
SDWRTTOIN	— Single Drawer Touch To Open Installed	$1632 List

This section of options will need to be ordered using the You Draw It program. Premier You Draw It requires that all You Draw It cabinets are made with All Plywood Construction and require a six (6) week lead time. Due to the complexity of these options, they will require the request form, approval and customer sign-off associated with the You Draw It program. This section contains examples of some options and their guidelines. The following options are not available outside of the You Draw It program. Wellborn Cabinet, Inc. reserves the right to substitute MDF for center panels with paints and paints with glazes to insure better quality with larger panels. Contact your Customer Service Representative with any questions regarding the You Draw It program.

Combined Cabinets Horizontally

Combination of cabinets is limited. A sketch must be sent in using the You Draw It request form detailing all necessary dimensions and cabinets to be combined. Restrictions for these cabinets will be based on depth, height, width and the weight of the combination of cabinets. Some modifications may not be available in conjunction with this option. Below are some guidelines to refer to.

For overlay door styles, use the following guidelines:
For Width, the minimum is 24″ and maximum is 84″ for wall or base cabinets or 42″ for tall cabinets
For Depth, the minimum is 6″ and maximum is 36″
For Height, the minimum is 24″ and maximum is 48″ for bases, 60″ for walls and 102″ for tall cabinets

For inset door styles, use the following guidelines:
For Width, the minimum is 24″ and maximum is 72″ for wall or base cabinets or 42″ for tall cabinets
For Depth, the minimum is 6″ and maximum is 36″
For Height, the minimum is 24″ and maximum is 48″ for bases, 60″ for walls and 102″ for tall cabinets

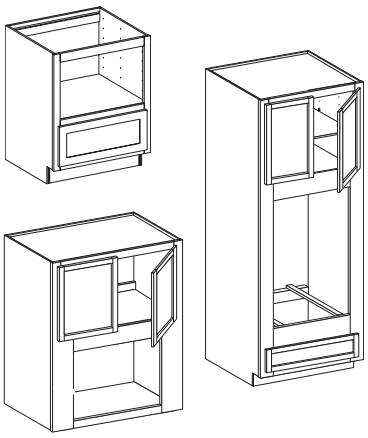
Pricing
$295 List per cabinet combined

Combined Cabinets Vertically

Combination of cabinets is limited. A sketch must be sent in using the You Draw It request form detailing all necessary dimensions and cabinets to be combined. Restrictions for these cabinets will be based on depth, height, width and weight of the combination of cabinets. Some modifications may not be available in conjunction with this option. Below are some guidelines to refer to.

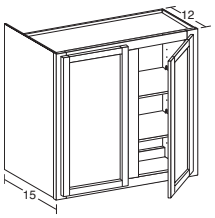
For Width, the minimum is 24″ and maximum is 42″
For Depth, the minimum is 6″ and maximum is 36″
For Height, the minimum is 24″ and maximum is 48″ for bases, 60″ for walls and 102″ for tall cabinets

Pricing
$295 List per cabinet combined



Custom Factory Cutouts for Appliance Cabinets

Be sure to submit the following information on the You Draw It Request Form:
- Start from one of our many current appliance cabinets
- Provide the width and height dimensions of the cut out
- Include the dimension from the bottom rail of where to start the opening cut out
- Note if a floor is needed versus supports
- Also remember to include any other cabinet modifications needed i.e. Modify Depth, Mullion Doors Installed, etc.



Extended End Panels Back

End panel of cabinet is extended back. Interior side of extension will match the cabinet interior and have an exposed dado running from front to back at the cabinet top and floor locations. This option is available in ¼″ increments up to a maximum of 30″ overall end panel depth.

Pricing

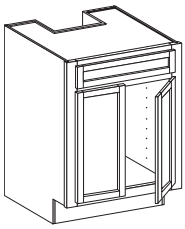
Wall/Base/Office/Vanity	$100 List per side
Tall	$192 List per side

Flush Finished Bottom

Flush Finished Bottom

This option is available on individual Wall cabinets only. It will create a flush finished bottom on the wall cabinet. Seams will still be present when joining multiple cabinets in a run. This option does not change the height of the cabinet.

Pricing
$295 List per cabinet



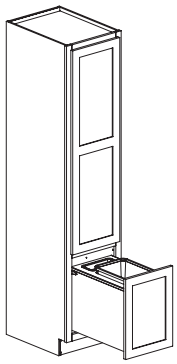
Pipe Chase

This option allows for a three-sided notch to be cut into the back of a wall, base, tall or vanity cabinet. A sketch must be sent in using the You Draw It request form detailing all necessary dimensions for the location of the pipe chase. Dimensions may be specified down to ¼″ increments. If the cut out for the pipe chase is located in a cabinet with drawers, the drawers will become blank fronts. Base and vanity cabinets with this option will include a full top.

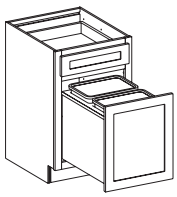
Pricing
$295 List per cabinet

Specialty Cabinet Ideas

Toe kick hidden step stool, a tall wastebasket cabinet, built in under cabinet paper towel holder, unique interior storage kits, etc. can be accomplished using the You Draw It Program. Below are a few examples with more throughout the next several pages.



Utility Inverted Frame with Wastebasket Installed



Wastebasket Divider

Add a floor below the drawer to partition off the wastebasket.

You Draw It PROGRAM

from concept to creation

This program includes an offering of cabinets and modifications not currently shown in the Premier Series catalog including the following:

— special sizes

— modifications

— custom options

— special cabinets

Premier Series You Draw It cabinetry will be made with All Plywood Construction. The You Draw It Program does not include special finishes or door profiles not included in the current Premier Series catalog.

The You Draw It program is the place where you can get almost anything that you can imagine to fit your customer's needs or wants. Does your customer want a custom baking center? Maybe the perfect island to fit both their cooking and entertaining needs? Or is it one of Stanisci Design's Wood Hoods as the focal point in their new kitchen? The possibilities are as endless as the individuality of your clients. Don't forget the other rooms throughout their home: Pantries, Entertainment Centers, Vanities, Fireplace surrounds, specialty Display Cabinets and more.

Important things to remember when placing a You Draw It order:

✓ Keep all correspondence within the original e-mail trail

✓ Double check all information prior to sending

✓ Drawings must be clear

✓ Time allowance for You Draw It requests to be reviewed

✓ Any changes to the You Draw It request will be handled as a new request

✓ If changes are necessary, remember to add all the necessary modification information from the original request

✓ Lastly, don't forget to contact Customer Service to let them know the order has been placed so they can add your You Draw It item to it

Complete the form on the following page for all submissions. This form can also be found on the Wellborn Specification Catalog page on WAY.

Requests must be sent in one (1) week prior to ordering.

Wellborn Cabinet, Inc. reserves the right to determine if a special product will be built.

Notes

Requests must be sent in one week prior to ordering.

Approval of request is made on an order-by-order basis. Previous approval does not guarantee a future approval, construction, lead time or pricing. All requests will be returned within 48 hours (excluding holidays and weekends). Only one item will be quoted per form; however, this does not affect the quantity of that item you may order. Please completely fill out the form.

What can you do with You Draw It?
Take a look at these pictures from our booth. Can you spot the You Draw It items we created?

The countertop wall cabinet is an example of vertically combining wall cabinets using a Wall Appliance Door Cabinet and Open Display Cabinet.

The sink base cabinet illustrates horizontal combining of base cabinetry using a Base Spice Rack, an Inverted Base Cabinet along with a Base Tray Cabinet. This works really well with the inset overlay to keep down the number of visible seams.

The Hood and the Island include an X overlay over the Harbour center panels.

The Valance over the sink continues the X theme with the special cutout pattern for center panels.

Additional Ideas for You Draw It Items:

STANISCI™ DESIGN

Stanisci Design manufacturers high quality custom range hoods and arched valances for kitchen professionals throughout the US and Canada. These products are sent unfinished so that Wellborn Cabinet, Inc. can match the finish to the rest of the kitchen.

We specialize in distinctive high quality wood range hoods for discriminating customers. Wood range hoods can be purchased with a wide array of carvings, and ventilation options. We also offer wood / metal range hood combinations.

Our goal is to provide you with a complete wood range solution. Our unique designs are designed for our ventilation options. This ensures that the fit is perfect and that no aftermarket metal fabrication needs to be done.

We take great pride in the quality and engineering of our products, only the best quality raw materials are used. Stanisci Design specializes in range hoods, this focus allows us to offer the widest array of quality options to our customers. We dedicate ourselves to ensuring we have the best traditional and new designs, quality ventilation and products which are easily installed.

Stanisci Design specializes in offering you the full solution when we offer you a range hood. We offer a multitude of ventilation options to fit your customer's needs. Internal and remote ventilation are offered. We have blowers ranging from 350 to 1500 CFM. We have stainless mesh, stainless baffle and a value liner all in stock for immediate shipment. If you are not sure which ventilation option will work for your customer, we encourage you to call us and speak to one of our customer service representatives. We welcome the opportunity in assisting you.

You can visit their website: http://www.wood-hood.com to view all of their range hoods and options.

How to Order:

- Visit Stanisci Design's website to find the hood for your project noting all the necessary information like sizes, options, moulding packages and ventilation. A full line catalog (pdf and 20/20) is available under the Catalogs header for download.
- Due to a longer lead time these items must be placed using the You Draw It Program. Refer to the You Draw It Program pages for additional details.
- If you have any questions, please contact your Customer Service Representative.

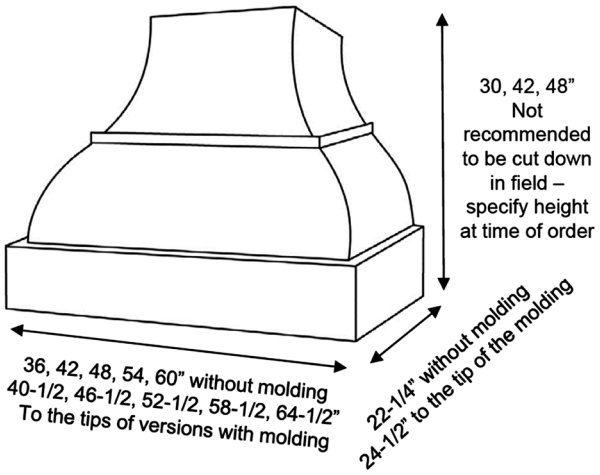
A Series



B Series

Above is the standard B Series Wood Hood. Below is just a couple examples of the options that you can choose from to create your customer's ideal hood. You can create something wonderfully simple or simply elegant.

B Series

B Series

One of Stanisci Design's new additions is the X Series Hybrid Wood Hood. It gives the appearance of a mantle hood with columns but the liner goes the full width of the hood because the columns are not full depth (see the diagram below).

PRICING GUIDELINES

Wellborn offers a simplified price structure to upgrade from the Premier Series. Simply price your cabinet in the Premier Series. Please refer to the detailed pricing procedure below to determine your new list price.

See the Wellborn Price Catalog for pricing details on those options.

Steps	*Procedures*	*Examples*	*Amount*
1. List Price	Start with cabinet list price. For inset, add 15% to list price and round to nearest whole dollar of applicable overlay door style.	Find Cabinet List Price.	$336.00
2. Subtotal	This Subtotal should be rounded to the whole dollar.	Next round to whole dollar.	336.00
3. Specialty Finish Charge	Calculate finish upcharge based on total from Step 2. Do not round.	Calculate finish upcharge. Multiply Step 2 by specialty finish upcharge. ($336 x 15% = $50.40)	50.40
4. SC-1	Calculate Semi-Custom options with percentage upcharges (For Example, RD/P). If you have multiple options, add the percentages together and calculate based on total in Step 2. Do not round.	Calculate SC-1 upcharges. For example, if Reduced Depth (30%) and Peninsula (65%) options are selected, add percentages together and then multiply total percentage by Step 2 subtotal. ($336 x 95% = $319.20)	319.20
5. SC-2	Add Semi-Custom options with list price upcharges (For example, ES/CCL). If you have multiple options, add totals together. Do not round.	Add SC-2 upcharges. For example, if ESR3 ($130) and CCL ($250) are selected, add list prices together. ($130 + $250 = $380)	380.00
6. Total	Total amounts from Steps 2-5. This is your total list price including specialty finish upcharges and Semi-Custom options. Do not round.	Add Steps 2-5 for Total List price. ($336.00 + $50.40 + $319.20 + $380 = 1,085.60)	$1,085.60

Finish up-charges only apply to the cabinet list price. Finish up-charges are not applied to any Semi-Custom options.

SC-1

Semi-Custom Options (Percentage)

APC – All Plywood Construction
BB – Bead Board Back
BO – Box Only
CBB – Contrasting Bead Board Back
FH – Full Height Doors

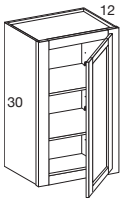
WTD9IN/WTD12IN – Wire Tray Divider Installed
WTR – Wide Top Rail
WTRRO – Wide Top Rail Reduced Opening

Note: Due to construction options and various packaging requirements, weights shown in this catalog may vary from actual weight.

STANDARD DOOR HINGE INFORMATION

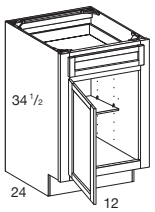


W1230 R
Right Hinge

All single door cabinets must be specified left or right hinge. These cabinets will have "L/R" immediately following their nomenclature throughout the catalog. Face cabinet when specifying left or right.

For example: W1230 L/R
When ordering, specify either W1230 L for left hinge or W1230 R for right hinge.

Direct Connect automatically defaults hinging to the Left. You must remember to change it if you need the door hinged Right.



B12 L
Left Hinge

WELLBORN SYMBOLS

Launch Dates are notated by the following shading.

Available to order May 2, 2016 | Available to order July 11, 2016 | Available to order October 3, 2016

L/R — All single door cabinets must be specified left (L) or right (R) hinge.

FR — The "FR" symbol denotes items that are available in the Function Ready Program. In the Function Ready Program, many cabinets are available with accessory kits and decorative/mullion doors installed at the factory.

Design Idea — The "Design Ideas" symbol references a design idea that can be found in the Wellborn Specification Catalog.

\+ — The "+" symbol in the APC price column refers to option availability and the upcharge for the option.

SUBSTITUTIONS

To allow our customers more design flexibility, substitutions are made for species and finishes and are noted in the specification catalog where applicable. Please note that these substitutions will complement your designs but will not be an exact match. Common substitutions in our catalogs are listed below:

Finish techniques are not included.
Oak is substituted for hickory.
Painted maple is substituted for thermofoil and MDF.

ABBREVIATIONS

TOL	Traditional overlay door styles
FOL	Full overlay door styles
INS	Inset door styles

DETERMINING ORDERING CODES

To determine ordering codes, add the desired series code, door style code and species code to the preferred finish code.

For example: Hanover Classic Drawer Front Maple Caramel Java Heirloom

Series		Door Style		Drawer Front		Species		Finish		Glaze Option		Finish Technique		Header Code
PRE	+	HNR	+	CDF	+	MPL	+	CML	+	JAV	+	HL	=	PRE HNR CDF MPL CML JAV HL (Premier Series)

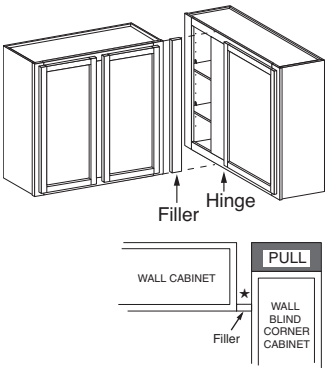
WALL BLIND CORNER CABINETS



WALL BLIND CORNER CABINET INSTALLATION/ORDERING INSTRUCTIONS
Must order left or right blind for all blind corner cabinets. Blind Corner cabinets with swingout kits should not be installed next to appliance cabinets due to clearances needed for kits. For single door cabinets, hinge is on blind side of cabinet. Left Wall Blind Corner Cabinet is shown.

NOTE: All **Traditional Overlay** door styles must pull at least 1″ and use a 1″ filler when using Wellborn stock hardware to allow for a 90° clearance. A filler or pull is not required when hardware is not used for these styles. All **Full Overlay** door styles must pull at least 2″ and use a 2″ filler when using Wellborn stock hardware to allow for a 90° clearance. A pull of 1″ and use of a 1″ filler are required when hardware is not used. All Wall Blind Corner Cabinets will pull up to 4¾″. Opening is 5½″ wide on all Wall Blind Corner Cabinets. Center stile is 6½″ wide. **INSET:** Depending on hardware selection, pull may not be necessary or visually desirable.

★ Open blind area will be filled with ⅛″ back panel material.

MICROWAVE CABINETS

Microwave Cabinets have standard Finished Interior in microwave area. The removable shelf is ¾" plywood. Measurements indicated reflect the distance between stiles and the distance between the top of the removable shelf and the bottom of the rail in the microwave area. For all Thermofoil door styles, the removable shelf is thermofoiled fiberboard. For MDF door styles, the removable shelf is painted maple. Microwave Cabinet will not receive a built in microwave installation kit or a trim kit.

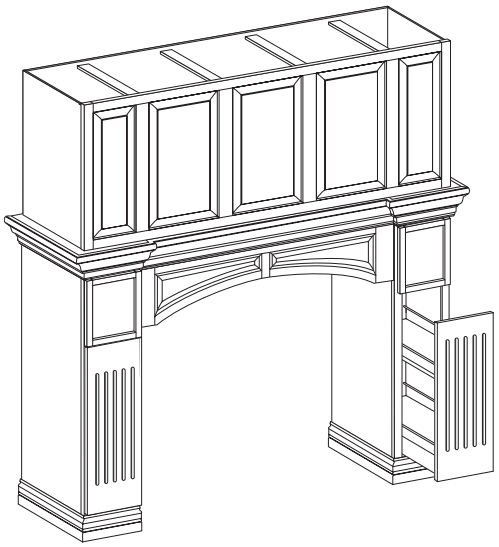
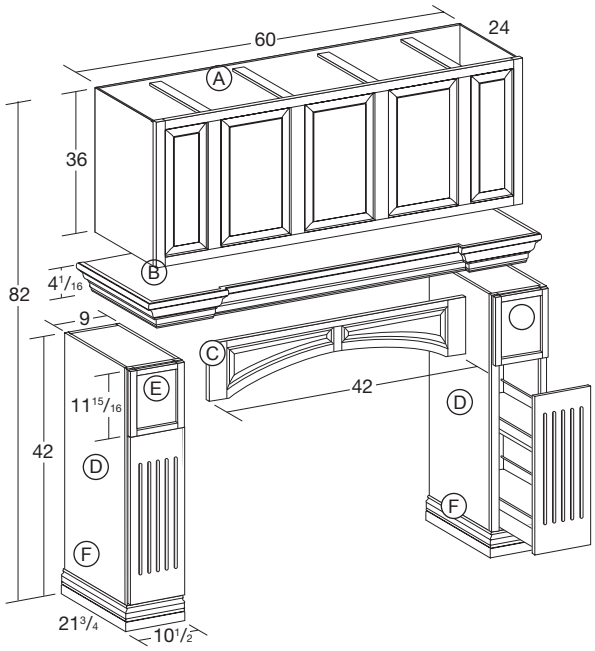
MANTLE HOODS





To create Mantle Hood Example A, order the following:

- (A) SOF603624
- (B) TMS60
- (C) NAV42
- (D) FWPO942 (2)
- (E) FD0811N (2) FOL or FD0709N (2) TOL
- (F) CBM

Note: Mantle Hood Components are not available on the Rush Program.
Note: When ordering any wood hood or mantle wood hood, it is the dealer's responsibility to verify all fire codes in your area (fire codes can vary from state to state and even from city to city). Hoods should be installed at a proper level over the range and installer should account for any special needs for cook tops and grills. Be sure to match hood liner width to the range width to ensure proper ventilation. Please note that these are only recommendations and you should always reference local building codes, fire codes and manufacturer specifications for final design/applications.

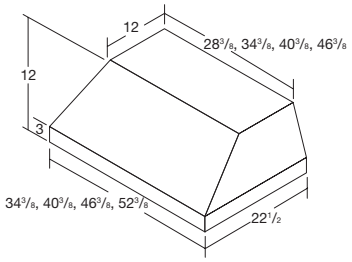
FOL: FD0811N — 8⅝″ x 11⅛″
TOL: FD0709N — 7″ x 9½″
INS: FD0811N — 8⅝″ x 11⅛″

- Can be ordered to attach to wall pullout (field installed)
- Available in square door styles only
- Specify door style, species and finish
- **INSET:** Will be FOL in indesign

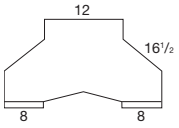
MANTLE HOOD FAN AND LINER KITS



24″ Deep Mantle Hood Fan and Liner Kit
MHFLK5424
MHFLK6024
MHFLK6624
MHFLK7224

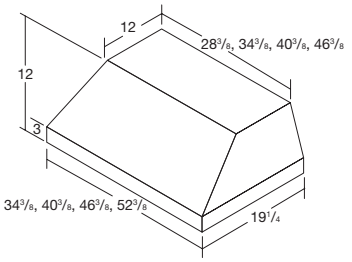
34⅜″ for TMS48, SMS48 or Larger (installation requires one SHV1296)
40⅜″ for TMS60, SMS60 or Larger (installation requires one SHV1296)
46⅜″ for TMS66, SMS66 or Larger (installation requires one SHV1296)
52⅜″ for TMS72, SMS72 or Larger (installation requires two SHV1296)

- Use with ID24 Wall Pullout Application
- Manufactured by Vent-A-Hood
- Liner and fan have stainless steel finish
- One dual blower 600 CFM for 54″, 60″ and 66″ kits
- Two dual blowers 1200 CFM for 72″ kits
- 8″ Diameter duct size
- Halogen lights included with unit
- See shelving installation diagram on following page
- For 72″ kit, must order transition duct shown below
- MHFLK5424 will fit 48″ mantle
- Mounting hardware not included, requires #8 x ⅝″ screws
- Top access to hood interior is required to complete installation. If not available, consider ordering the hood with the Removable Front option.



Transition Duct
MHFLKTD7224

- Transition duct for use with MHFLK7224 only



21″ Deep Mantle Hood Fan and Liner Kit
MHFLK5421
MHFLK6021
MHFLK6621
MHFLK7221

34⅜″ for TMS48, SMS48 or Larger (installation requires one SHV1296)
40⅜″ for TMS60, SMS60 or Larger (installation requires one SHV1296)
46⅜″ for TMS66, SMS66 or Larger (installation requires one SHV1296)
52⅜″ for TMS72, SMS72 or Larger (installation requires two SHV1296)

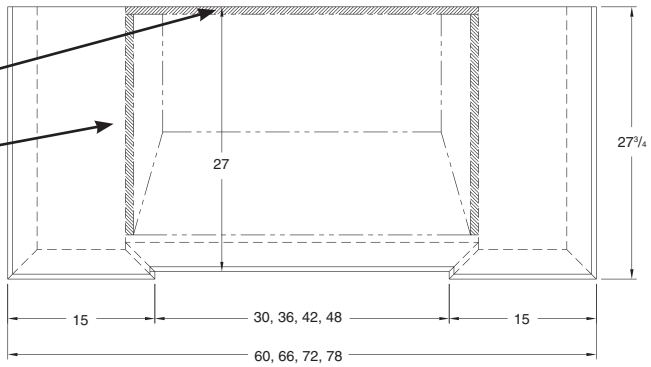
- Use with standard 21″ depth Wall Pullout Application
- Manufactured by Vent-A-Hood
- Liner and fan have stainless steel finish
- One dual blower 600 CFM
- 8″ Diameter duct size
- Halogen lights included with unit
- See shelving installation diagram below
- MHFLK5421 will fit 48″ mantle
- Top access to hood interior is required to complete installation. If not available, consider ordering the hood with the Removable Front option.

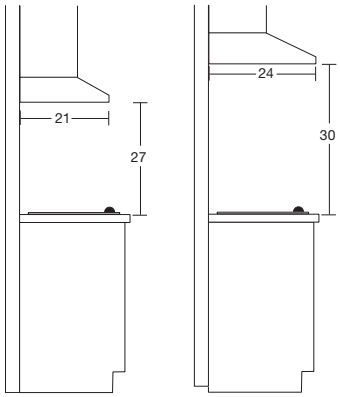
INSTALLATION INFORMATION

Shelving Installation Diagram

SHV cut to fit between Liner & Wall and between Wall Pullouts

SHV cut to fit behind NAV between Liner & Wall Pullout on both sides

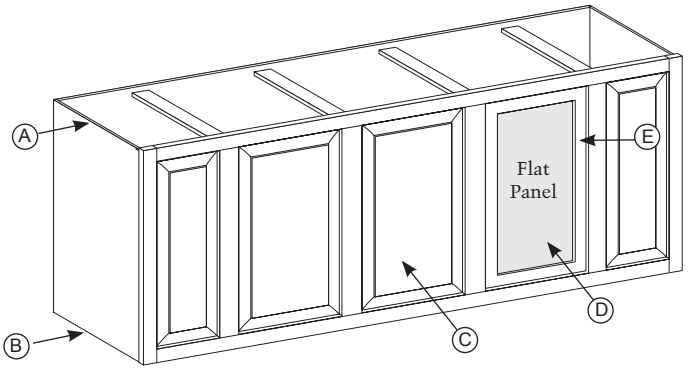




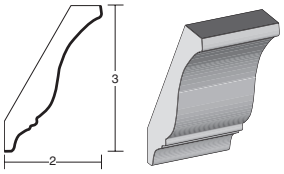
Specification Details for Power Fan Units

When ordering any wood hood or mantle wood hood, **it is the dealer's responsibility to verify all fire codes in your area** (fire codes vary from state to state and even from city to city). Hoods should be installed at a proper level over the range and installer should account for any special needs for cook tops and grills. Be sure to match hood liner width to ensure proper ventilation. Please note that these are only recommendations and you should always reference local building codes, fire codes and manufacturer specifications for final design/applications. Recommended distance from top of cooking surface to bottom of fan unit is 27″-30″ depending on manufacturer range specifications and depth of cabinets. If installed beyond recommended distance, the fan unit will not perform effectively.

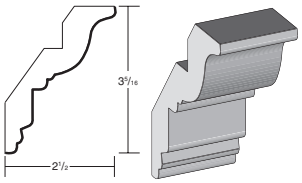
MANTLE HOOD DESIGN IDEAS



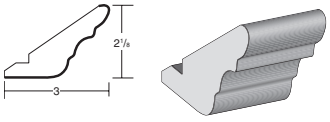
Ⓐ Top will accommodate any desired crown.



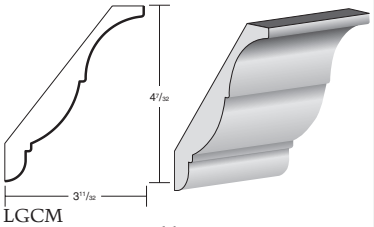
DCM
Decorative Crown Moulding



TCM
Traditional Crown Moulding

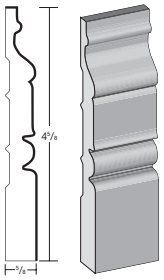


FOCM
Full Overlay Crown Moulding



LGCM
Large Crown Moulding

Ⓑ Adding CBM, BM or other preferred moulding to base of Mantle Hood adjusts height as needed.



CBM

Design Tip

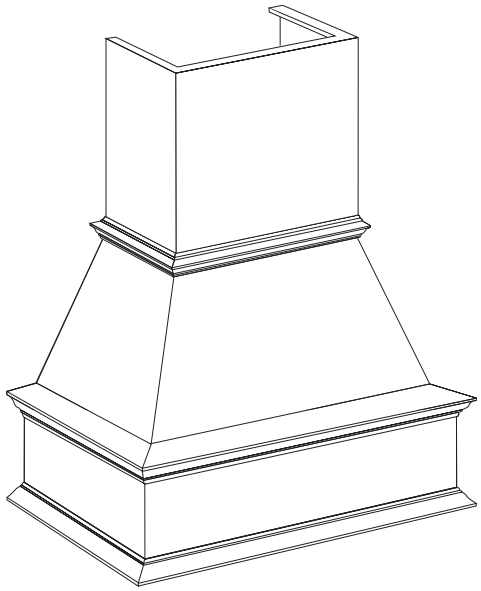
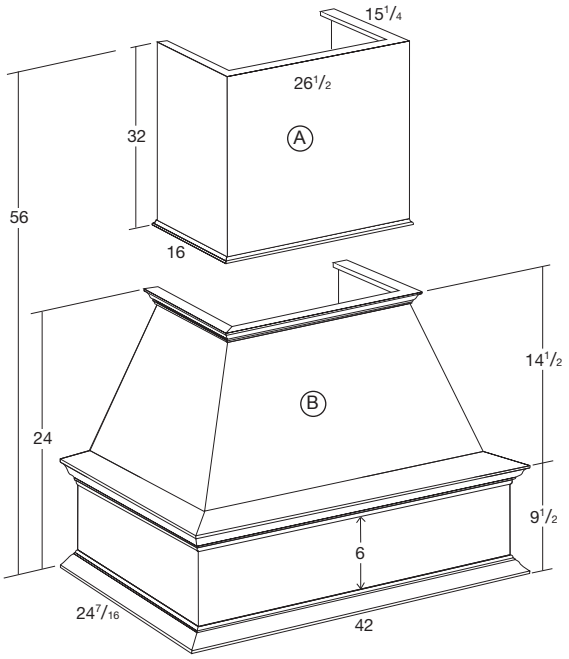
Chimney Wood Hood
Example A





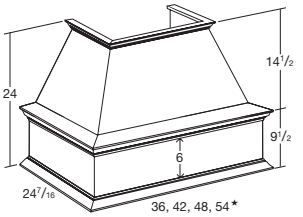
To create Chimney Wood Hood Example A, order the following:
Ⓐ CMNY42P (trim for ceiling height)
Ⓑ CWH42P

Note: Hood components are not available on the Rush Program.

Note: When ordering any wood hood or mantle wood hood, **it is the dealer's responsibility to verify all fire codes in your area** (fire codes can vary from state to state and even from city to city). Hoods should be installed at a proper level over the range and installer should account for any special needs for cook tops and grills. Be sure to match hood liner width to the range width to ensure proper ventilation. Please note that these are only recommendations and you should always reference local building codes, fire codes and manufacturer specifications for final design/applications.

CHIMNEY WOOD HOODS

Plywood construction standard. A 3" space is recommended on each side of hood unit for adjacent cabinets. Hood interior is finished 6" from bottom. Onlays and appliques can be added. See page Premier–2–74 for liners, fans and installation requirements.



Plain Chimney Wood Hood
CWH36P
CWH42P
CWH48P
CWH54P

* **Actual width dimensions including moulding:**

- Sirocco fan unit (weight 35.2 lbs.)
- Noise level = 7 sone at max speed
- 8″ Diameter duct
- Liner and fan have stainless steel finish
- Top access to hood interior is required to complete installation. If not available, consider ordering the hood with the Removable Front option.

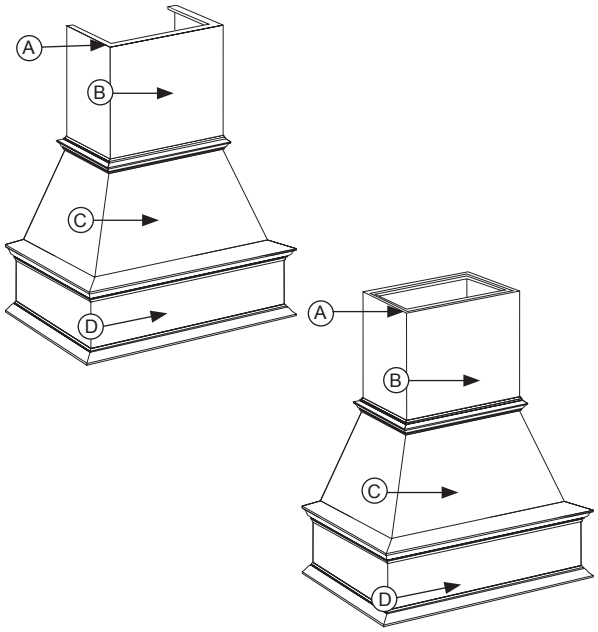
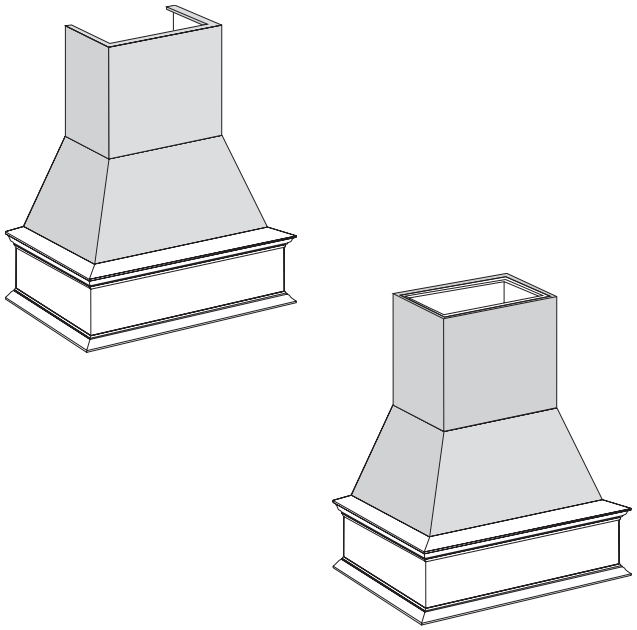
Specification Details for Power Fan Units

Caution: Refer to Peninsula Hood Installation in Installation Manual.
When ordering any wood hood or mantle wood hood, **it is the dealer's responsibility to verify all fire codes in your area** (fire codes vary from state to state and even from city to city). Hoods should be installed at a proper level over the range and installer should account for any special needs for cook tops and grills. Be sure to match hood liner width to ensure proper ventilation. Please note that these are only recommendations and you should always reference local building codes, fire codes and manufacturer specifications for final design/applications. Recommended distance from top of cooking surface to bottom of fan unit is 24″-30″ depending on manufacturer range specifications and depth of cabinets. If installed beyond recommended distance, the fan unit will not perform effectively.



Ⓐ Apply coordinating crown moulding (shown below) to top of chimney for custom built-in appearance.



Designer Chimney Hoods were designed for onsite creative applications like those shown at right.

Design Tip

HOODS

For all Wood Hoods and Contemporary Hoods, power fan unit with light (PFU04/PFU02) is required. A ductless conversion kit (DCK04/DCK02) must be ordered if venting inside the home. All hoods have plywood fronts and end panels. Additional moulding may be required to cover bottom plywood edges. Metal liner is sold separately.

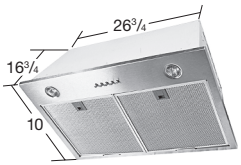
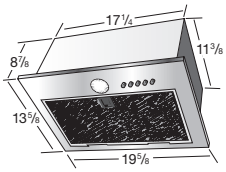
HOOD ACCESSORIES

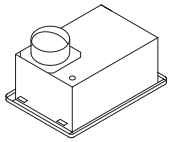


Power Fan Unit (660 CFM)

PFU06

- 660 CFM with 8″ round discharge
- Back draft damper included
- Lighted fan unit with easy clean stainless finish
- Pre-wired for electrical connection
- UL, CUL, HVI certified
- Use in IWH4224P, IWH4224B and IWH4224
- Liner must be ordered separately
- Requires Transition Elbow Duct
- Top access to hood interior is required to complete installation. If not available, consider ordering the hood with the Removable Front option.

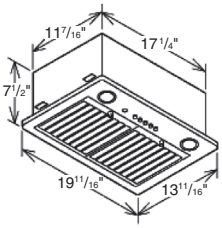


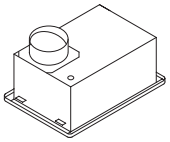


Power Fan Unit (290 CFM)

PFU04

- 290 CFM with 7″ round discharge
- Requires DCK04 ductless conversion kit for in-home venting
- Back draft damper included
- Lighted fan unit with easy clean silver metallic finish
- Pre-wired for electrical connection
- UL, CUL, HVI certified
- Used in all wood hoods on pgs. Premier–2–77 and Premier–2–78 and IWH3624P, IWH3624B, IWH3624, IWH3024P, IWH3024B and IWH3024
- Liner must be ordered separately
- Requires Transition Elbow Duct
- Top access to hood interior is required to complete installation. If not available, consider ordering the hood with the Removable Front option.

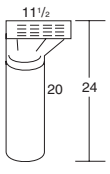




Power Fan Unit (390 CFM)

PFU02

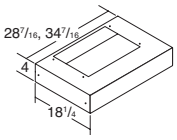
- 390 CFM with 7″ round discharge
- Requires DCK02 ductless conversion kit for in-home venting
- Back draft damper included
- Lighted fan unit with easy clean stainless finish
- Pre-wired for electrical connection
- UL, CUL, HVI certified
- Used in all wood hoods on pgs. Premier–2–77 and Premier–2–78 and IWH3624P, IWH3624B, IWH3624, IWH3024P, IWH3024B and IWH3024
- Liner must be ordered separately
- Requires Transition Elbow Duct
- Top access to hood interior is required to complete installation. If not available, consider ordering the hood with the Removable Front option.



Ductless Conversion Kit

DCK02 (for PFU02)
DCK04 (for PFU04)

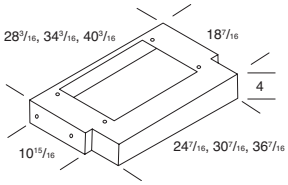
- Includes charcoal filter



Wood Hood Liner

WHL30
WHL36

- Silver metallic in color
- Use with standard wood hoods on pgs. Premier–2–77 and Premier–2–78



Integral Wood Hood Liner

IWHL30
IWHL36
IWHL42

- Silver metallic in color
- Use with standard Integral Wood Hoods on pg. Premier–2–71
- IWHL42 for use with PFU06 only

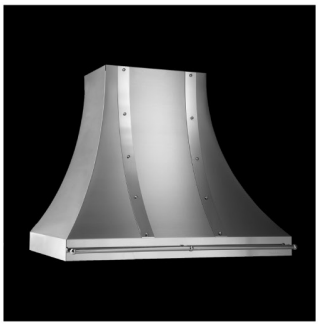
Transition Elbow Duct

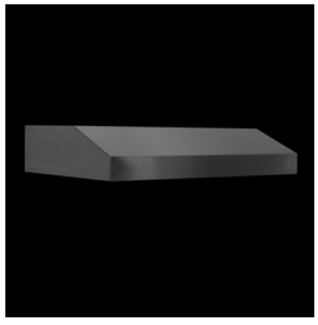
TED812

- Silver Metallic in color
- Use with PFU06
- 8″ Diameter and 12″ in height
- Adjustable

VENTAHOOD

Wellborn Cabinet, Inc. and Ventahood have partnered to bring you a stylish and contemporary selection of both hoods and accessories. Our partnership allows us to provide you with a larger selection ensuring that you will find the perfect hood for your perfect kitchen. Log onto Direct Connect and place your order today.





THE VENT-A-HOOD DIFFERENCE

GREASE EXTRACTION

Laboratory testing of competitive units shows that only about 30% of the grease is collected in the filter during typical residential cooking.

MAGIC LUNG® VS OTHER BRANDS

The Magic Lung® centrifugal grease extractor collects 99% of the grease 100% of the time.

EASY TO CLEAN

In other brands, cleaning the grease from behind the filter is nearly impossible. Access is limited by components and sharp protrusions. Even the motor gets greasy.

MAGIC LUNG® VS OTHER BRANDS

The new in-the-shield grease tray makes routine cleaning easier than ever. If desired, the Magic Lung® Blower comes apart for easy cleaning in soapy water or a dishwasher.

QUIET & POWERFUL

Variable speed blowers in competitve units become louder and louder as CFM increases.

MAGIC LUNG® VS OTHER BRANDS

Each Magic Lung® blower supplies 300 CFM of air flow – combining multiple blowers will meet any air flow requirement without increasing the noise level.

FIRE SAFETY

Cooking fires are the leading cause of home fires (150,000 per year – NFPA). Filters are flammable and can sustain a secondary fire near the inlet to the blower leading to a duct fire. Fire insurance claims against filtered hoods are common.

MAGIC LUNG® VS OTHER BRANDS

The Magic Lung® Constant-Speed Blower is designed to keep grease and flame from entering a duct. In over 80 years, Vent-A-Hood has never received a report of an attic or wall fire when the Magic Lung® has been in use.

EFFICIENT

Filters in competitive units obstruct air flow and spoil the collector properties of the canopy.

MAGIC LUNG® VS OTHER BRANDS

A range hood equipped with the Magic Lung® blower system is a wide open, active collector that invites contaminants in. A proper collector is the most critical element for good cooking ventilation and requires 1/3 less air flow than a filter-style range hood.

WARRANTY

5 YEAR WARRANTY — MAGIC LUNG® VS OTHER BRANDS — 1 YEAR WARRANTY

We've got you covered with the best warranty in the industry. Vent-A-Hood has long been the most respected name in ventilation. Our products are guaranteed to work and we stand on over 80 years of manufacturing in the highest quality ventilation products. Our family is devoted to your satisfaction.

- 5mm diameter padded glass shelf supports

DECORATIVE GLASS DOORS

Decorative Glass Doors are sold separately. Hinges not included. Utilize hinges of existing cabinet door for all door styles. Must specify L or R hinge. When ordering an arch or cathedral door style, the glass remains square. Therefore, the arch and cathedral door profiles will cover part of the glass design according to the curve of the top door rail. When ordering applied moulding door styles, the moulding may cover part of the glass design. Samples are recommended prior to order placement. Decorative Glass Doors feature antique brass grills or dark patina finished zinc grills with clear textured glass. Not available for WCM cabinets. Not available in Barcelona, Bristol, Milan, Richmond, Vienna, Charleston, Messina, Cortland, Wellington, Winslow, Chelsea, MDF or Thermofoil door styles. Bali will not include applied moulding. Decorative glass will not be installed when ordered as unfinished. Wellborn offers 17 styles of Decorative Glass Doors in specific sizes in an effort to accomodate most customer needs. If you need something outside our offering, visit Middlefield Glass website at www.middlefieldglass.com.

To order, choose the size then select the Glass Type. See the following page for all 17 styles.

DECORATIVE DOOR INSERTS

Decorative Door Inserts are available for field installation only. All styles of wire mesh are available in all three finishes listed.

To order, use the following item code:
DDI

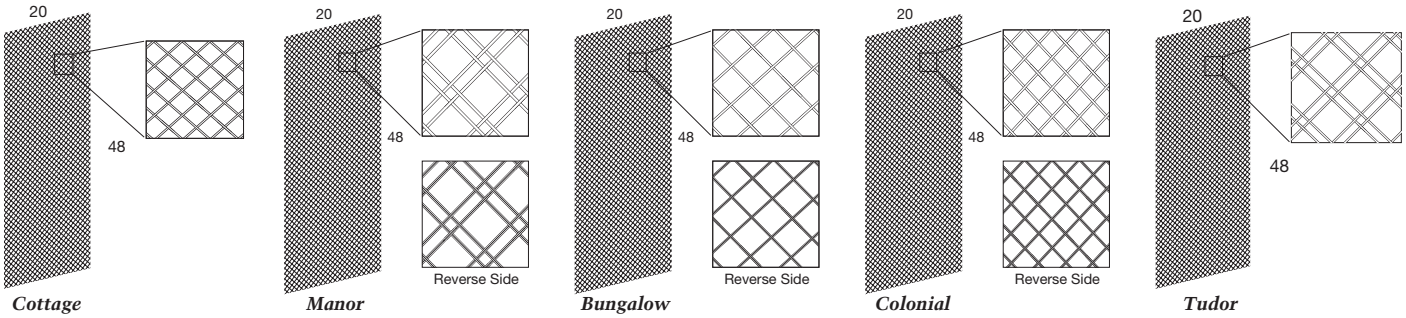
Then choose your style:

WMICG	Wire Mesh 20 x 48 Pattern Cottage
WMIMA	Wire Mesh 20 x 48 Pattern Manor (Reversible - one side reeded, one side flat)
WMIBW	Wire Mesh 20 x 48 Pattern Bungalow (Reversible - one side reeded, one side flat)
WMICO	Wire Mesh 20 x 48 Pattern Colonial (Reversible - one side reeded, one side flat)
WMITD	Wire Mesh 20 x 48 Pattern Tudor

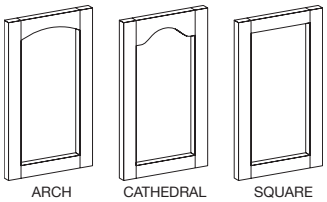
Then choose your finish:

ORB	Oil Rubbed Bronze
SS	Satin Steel
AB	Antique Brass

For Example: DDI WMICG ORB

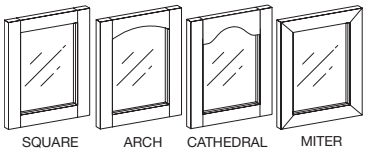


DECORATIVE DOOR FRAMES



Must specify left or right hinge. Grooved for glass or mirror in all doors except for Thermofoil door styles. Doors include clear plastic clips. Available in any standard door sizes: square, cathedral and arch. Hinges not included. Utilize hinges of existing cabinet door on all door styles. For glass sizes see Hardware and Miscellaneous section. To order doors for field installation, use the Easy Parts Search Program on WAY for ordering codes. To order "Function Ready" with doors installed on the cabinet, see Function Ready Section for ordering codes. Milan is a solid wood cope and tenon door frame with shaped edges. Not available for Barcelona door style.

DECORATIVE DOOR FRAMES WITH GLASS INSTALLED



Decorative Door Frames can be ordered with clear, reeded, satin, clear seedy, super seedy, clear antique, clear water and clear baroque glass included. See Function Ready Section for details and ordering codes.

W3030 TKA

The Toe Kick Added option is available in the Semi-Custom section on most wall cabinets. This option gives the ability to create 12″ deep full height base cabinets in a wide range of heights. Some of the more popular heights are 34½″ by using the 30″ high wall cabinets and 40½″ by using the 36″ high wall cabinets. Note the addition of 4½″ to overall height with the addition of the toe kick. This option allows versatility in designs containing staggered countertop heights. See the Semi-Custom Chart for option availability.

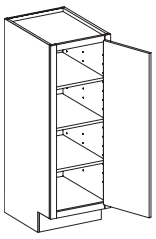
FOL/TOL																						▲					
INS																						▲					



PW1560 TKA

The Toe Kick Added option is also available on the Pantry Wall Cabinets giving the ability to create 24″ deep base cabinets in taller heights. Note the addition of 4½″ to the overall height of the cabinet with the addition of the toe kick. For example, PW1560 TKA will have an overall height of 64½″. These cabinets can serve as broom closets, offer more design flexibility for stacking opportunities or just right for that design requiring staggered heights for visual appeal. See the Semi-Custom Chart for option availability.

B36 FH

The Full Height Door option gives the ability to turn many base cabinets with drawers into full height doors. This is often used in areas that require slightly taller storage without modifying the height of a cabinet and also for stacking purposes. The base cabinet will keep the half depth base shelf, if included in the original cabinet, which can also be modified into a Full Depth Base Shelf, if needed. See the Semi-Custom Chart for these options availability.

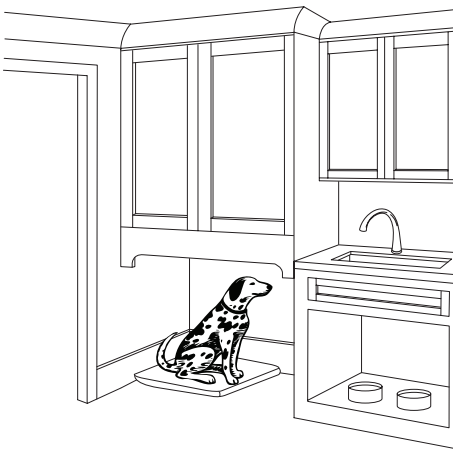
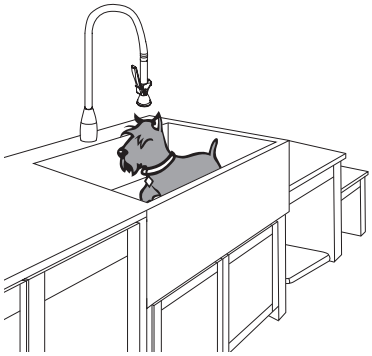
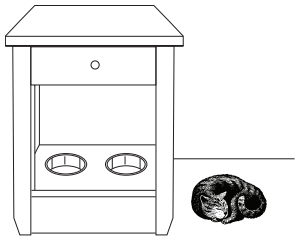
PET CENTER DESIGN IDEAS

Pet centers are a great way to give pets their very own spaces within your customer's homes. They are functional as well as stylish. Pet centers will allow you to create custom accommodations that make everyday pet owner tasks more manageable and give pets an added sense of belonging within their own homes. Use the You Draw It program to create your customer's pet specific areas.







BASE WHATNOT SHELVES

A Square Top and Bottom Shelf is available under the Semi-Custom Program for all whatnots. For MDF door styles, whatnots are painted maple. For Thermofoil door styles, whatnots are thermofoiled fiberboard. Finish techniques are not included.

- **INSET:** Use codes beginning with 'I'; installing more than one ISSDSC in a cabinet requires a full depth shelf for attachment

---

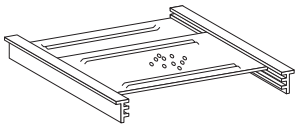
FR **Door Shelf Kit**

DSK (for B18, B36, SB36)

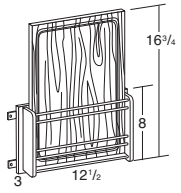
- Natural finish solid wood with chrome rails
- Removable tray
- Shelf not adjustable
- **INSET:** Not recommended



FR **Drawer Bread Box Cover**

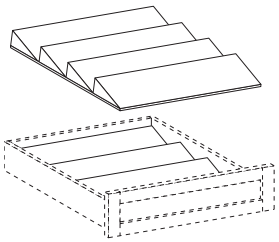
DBBC15 (for 3DB15)
DBBC18 (for 2DB18, 3DB18)
DBBC21 (for 2DB21, 3DB21)

- Clear plastic
- Not trimmable



Cutting Board
CB

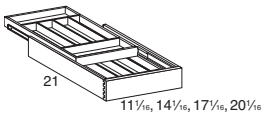
- Mounts on cabinet door
- Natural finish
- Includes mounting hardware
- For single door base and sink base cabinets, installs in 18" wide and larger
- For double door base and sink base cabinets, installs in 36" wide and larger
- **INSET:** Not recommended



FR **Wood Drawer Spice Rack**

WDSR12 (for 12")
WDSR15 (for 15")
WDSR18 (for 18")
WDSR21 (for 21")
WDSR24 (for 24")
WDSR27 (for 27")

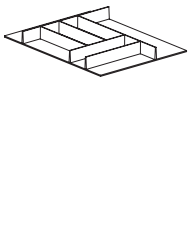
- Solid wood
- Natural finish
- **Includes spice drawer unit only, not a complete drawer**



FR **Wood Tiered Cutlery Tray**

WTCT15 (for B15, B30, 3DB15, 4DB15)
WTCT18 (for B18, B36, 3DB18, 4DB18)
WTCT21 (for B21, B42, 3DB21, 4DB21)
WTCT24 (for B24, B48D2, 3DB24, 4DB24)

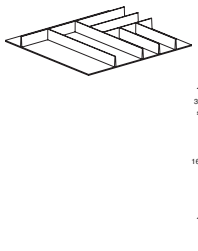
- Replaces the existing drawer
- Existing drawer front reattaches to the front of the kit with screws
- Once installed, will open and close as a standard drawer
- Cannot be installed in cabinets less than 24" deep
- Includes full extension soft close drawer slides



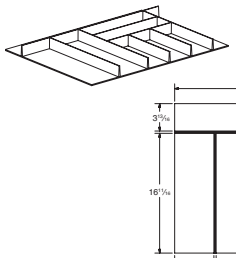
Walnut Drawer Cutlery Organizer Inserts

WDCOI21 (trim for 18″)

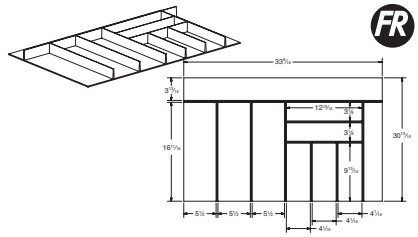
- WDCOI39 will hold 3 inserts
- WDCOI33 and WDCOI27 will hold 2 inserts
- WDCOI21 will hold 1 insert



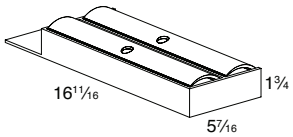
WDCOI27 (trim for 24″)



WDCOI33 (trim for 30″)



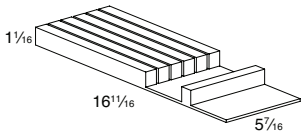
WDCOI39 (trim for 36″)



Walnut Wrap Holder Organizer Insert

WWHOI

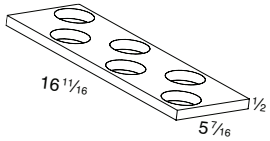
- Fits into the 5 7/16″ sections of the WDCOI



Walnut Knife Block Organizer Insert

WKBOI

- Fits into the 5 7/16″ sections of the WDCOI



Walnut Container Holder Organizer Insert

WCHOI (holder only)

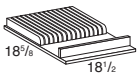
- Fits into the 5 7/16″ sections of the WDCOI

SSCPK6 (6 stainless steel containers)

- Fits into the WCHOI holder insert

GCPK6 (6 glass containers)

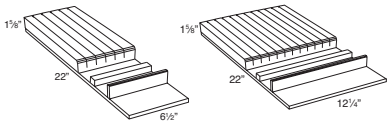
- Fits into the WCHOI holder insert



Knife Divider

KD

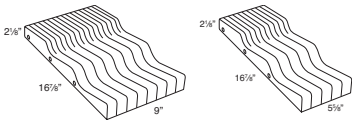
- Fits B24 cabinet drawer
- Trimmable
- Natural finished wood



Knife Block Inserts

KBI6
KBI12

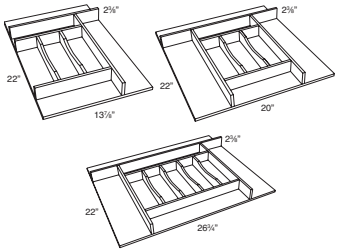
- Natural finished wood
- Trimmable



Curved Knife Block Inserts

CKBI5
CKBI9

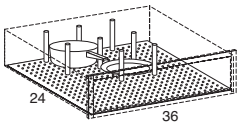
- Natural finished wood

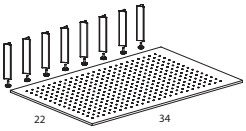


Silverware Tray Inserts

STI13
STI20
STI26

- Natural finished wood
- Trimmable



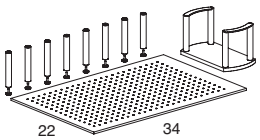


Deep Drawer Pegged Dish Organizer

DDPDO (board and 8 round posts in Natural)
DDPDOW (board and 8 round posts in Walnut)
DDTPDOW (board and 8 triangle posts in Walnut)
DDPDOKIT (set of 4 round posts in Natural)
DDPDOWKIT (set of 4 round posts in Walnut)
DDTPDOWKIT (set of 4 triangle posts in Walnut)

- Fits DRB deep drawers - Must be trimmed
- Organizer kit includes board and 8 posts
- Posts are 1″ diameter x 6½″ height
- Posts mount into pre-drilled holes and are secured with fastening nut
- Pre-drilled holes have 1⅜₁₆″ centers
- Additional posts can be ordered - DDPDOKIT, DDPDOLOKIT and DDTPDOWKIT includes 4 posts and locking nuts

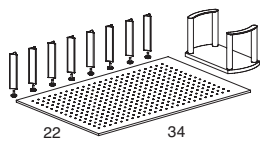
---



Deep Drawer Organizer Kit in Walnut with Round Pegs and Plate Holder

DDOKWRPPH

- Fits DRB deep drawers - Must be trimmed
- Kit includes: board, 8 round posts and plate holder in Walnut

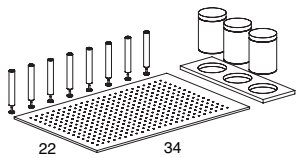


Deep Drawer Organizer Kit in Walnut with Triangle Pegs and Plate Holder

DDOKWTPPH

- Fits DRB deep drawers - Must be trimmed
- Kit includes: board, 8 triangle posts and plate holder in Walnut

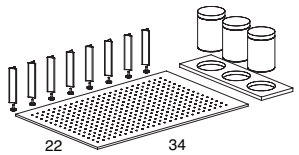
---



Deep Drawer Organizer Kit in Walnut with Round Pegs and Glass Containers

DDOKWRPGC

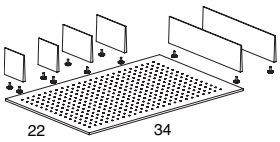
- Fits DRB deep drawers - Must be trimmed
- Kit includes: board, 8 round posts and a holder with 3 large glass containers in Walnut



Deep Drawer Organizer Kit in Walnut with Triangle Pegs and Glass Containers

DDOKWTPGC

- Fits DRB deep drawers - Must be trimmed
- Kit includes: board, 8 triangle posts and a holder with 3 large glass containers in Walnut

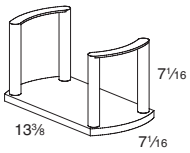


Deep Drawer Organizer Kit in Walnut with Dividers

DDOKWD

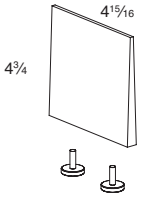
- Fits DRB deep drawers - Must be trimmed
- Kit includes: board, 2 large dividers, 2 medium dividers and 2 small dividers in Walnut

---



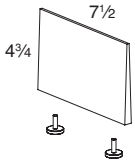
DDWPH (Plate holder in Walnut)

- Works with any of the Deep Drawer Organizer Kits



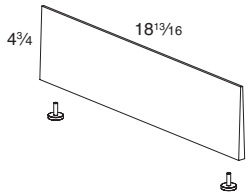
SDDWD (Small divider in Walnut)

- Works with any of the Deep Drawer Organizer Kits



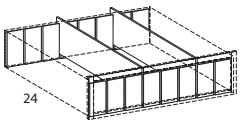
MDDWD (Medium divider in Walnut)

- Works with any of the Deep Drawer Organizer Kits



LDDWD (Large divider in Walnut)

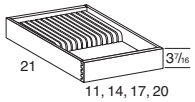
- Works with any of the Deep Drawer Organizer Kits



Deep Divider Kit

DDK

- Trimmable
- Fits deep drawers
- Kit includes 2 dividers and slotted ends



FR **Knife Drawer**

KDWR15
KDWR18
KDWR21
KDWR24

- Replaces the existing drawer
- Existing drawer front reattaches to the front of the kit with screws
- Once installed, will open and close as a standard drawer
- Cannot be installed in cabinets less than 24″ deep
- Includes full extension soft close drawer slides

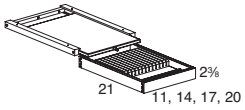
- Includes full extension soft close drawer slides



FR

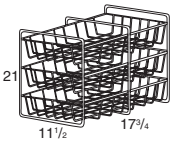
Plastic Vegetable Bin Kit

PVBK (for B18, B24, B27, B36, U188424)

- White polystyrene plastic bins in white metal rack
- Fits 21″ deep cabinets and deeper
- **INSET:** Only available for full height door base cabinets

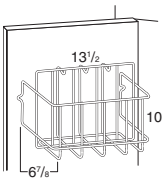


FR

Metal Vegetable Bin Kit

MVBK (for B18, B24, B27, B36, U188424)

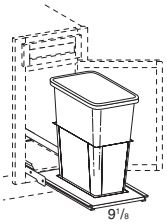
- Gray powdercoat
- Fits 21″ deep cabinets and deeper
- **INSET:** Only available for full height door base cabinets



Kitchen Foil Holder

KFH

- Gray powdercoat

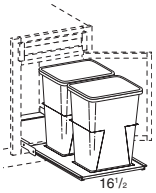


FR

Single Wastebasket

SW9.125 (for B15, B18, B21, B24, B27, B30, B33, B36)

- White wastebasket has 35 quart capacity
- Wire frame and full extension slides are brushed nickel
- Includes mounts and screws for floor mount

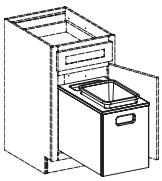


FR

Double Wastebasket

DW16.5 (for B21, B24)

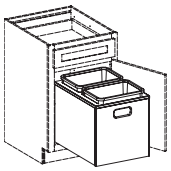
- White wastebaskets have 70 quart combined capacity
- Wire frame and full extension slides are brushed nickel
- Includes mounts and screws for floor mount



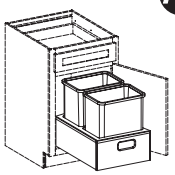
Super Single Wastebasket

SSW15 (for B15)
SSW18 (for B18)

- White wastebasket has 35 quart capacity
- Full extension soft close slides included
- Includes mounts and screws for floor mount
- **INSET:** Not available



SDW21 & SDW24

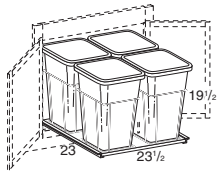


SDW18

Super Double Wastebasket

SDW18 (for B18)
SDW21 (for B21)
SDW24 (for B24)

- White wastebaskets have 70 quart combined capacity
- Full extension soft close slides included
- Includes mounts and screws for floor mount
- **INSET:** Not available



4 Bin Recycle Center

4BRC (for B27)

- Four white wastebaskets have 108 quart combined capacity
- Equipped to separate the four most common recyclable materials: plastic, glass, paper and metal
- Full extension slides
- Includes mounts and screws for floor mount
- **INSET:** Only available for full height door base cabinets

Wastebasket Lid

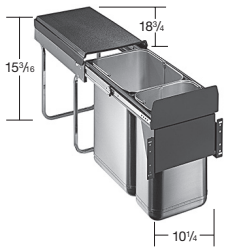
35QTLIDW (white)

- Fits 35 quart capacity waste baskets
- For use with SSW15, SSW18, SDW18, SDW21, SDW24, B15WB, B18WB, B18WB2, B21WB, B24WB, AC18WB, ACB21WB, ALB15WB, ALB18WB and ALB21WB
- For double wastebasket cabinets, lids will not open on back wastebasket

Wastebasket

35QTWBW (white)

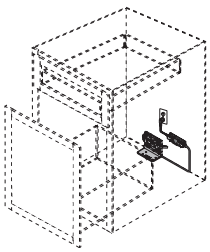
- White wastebasket has 35 quart capacity
- For use with B15WB, B18WB, B18WB2, B21WB, B24WB, AC18WB, ACB21WB, ALB15WB, ALB18WB and ALB21WB



Under Sink Wastebasket

USWB

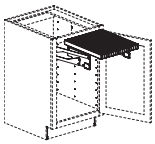
- Built in handles for easy removal
- Fits 24″ and 21″ depth cabinets
- Contains 2 containers (1) 10 liter and (1) 20 liter
- Fit sink bases 30″ wide



Wastebasket Touch To Open Kit

WBTTOK

- Electrical drawer opening mechanism
- For use in Wastebasket Cabinets
- **INSET:** Not available

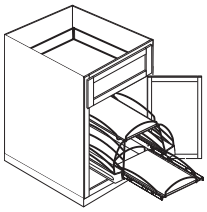


NEW CODES

Hide A Mixer Shelf Kit

HAMSKIT18 (for B18FH)
HAMSKIT21 (for B21FH)
HAMSKIT24 (for B24SDFH)

- 1½″ Thick solid maple
- Includes mounting hardware
- Shelf is 16″ W x 18″ D
- Installs in 24″ deep - full height cabinets only
- 30 lb. Weight capacity
- **INSET:** Not available



FR

Pot, Pan and Lid Caddy

PPLC24
PPLC30

- For all door styles, caddy is natural finish with gray powdercoated rails
- Two separate pullout sections
- Slanted side sections for lid storage

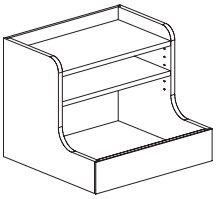
Base Pantry Pullout

BPPO12
BPPO15
BPPO18
BPPO21
BPPO24

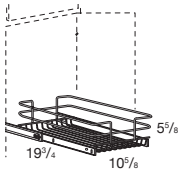
- Includes mounting hardware
- Installs in 24″ deep - full height cabinets only
- **INSET:** BPPO12 not available



Pot and Pan Pullout

PTPNPO27
PTPNPO30
PTPNPO33
PTPNPO36

- Pullout is natural finish and include full extension slides
- **INSET:** PTPNPO27 not available

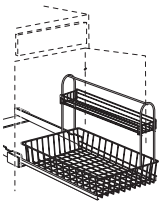


FR

Under Sink Basket

USB (for B15, B30)

- Chrome
- Full extension slides

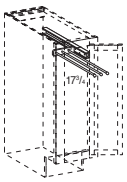


FR

Under Sink Basket Deluxe

USBD18
USBD21

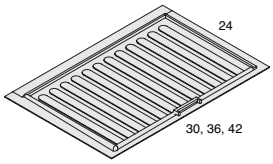
- Removable basket with fixed handle
- Gray powdercoat
- Can be installed on the right or the left
- Top basket offset for plumbing clearance



Pullout Towel Bar

POTB

- Three slide out prongs for towels
- Mounts in all base cabinets
- Gray powdercoat

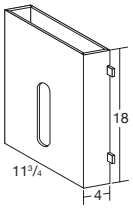


Base Drip Tray Almond

BDTA3024 (trim for 27″)
BDTA3624 (trim for 33″)
BDTA4224 (trim for 39″)

- Trim to fit
- For cabinets with center mullion, tray must be installed before countertop

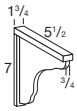
---



Plastic Bag Recycling Dispenser

PBRD

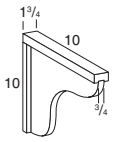
- Mounts to door
- Natural finished plywood
- For single door base and sink base cabinets, installs in 18″ wide or larger
- For double door base and sink base cabinets, installs in 36″ wide or larger
- **INSET:** Not recommended



Small Countertop Support

SCS

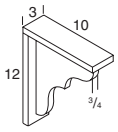
- Solid Wood
- MDF and Thermofoil are painted maple
- **Finish techniques are not included**



Countertop Support

CS

- Solid Wood
- MDF and Thermofoil are painted maple
- **Finish techniques are not included**



Fancy Countertop Support

FCS

- Solid Wood
- MDF and Thermofoil are painted maple
- **Finish techniques are not included**

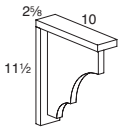
MSC

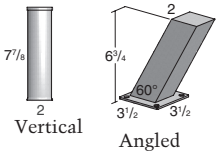
- Solid Wood
- MDF and Thermofoil are painted maple
- **Finish techniques are not included**



Victorian Countertop Support

VCS

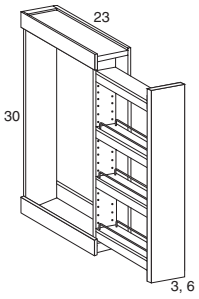
- Solid Wood
- MDF and Thermofoil are painted maple
- **Finish techniques are not included**



Stainless Countertop Support

SCSV (vertical)
SCSA (angled)

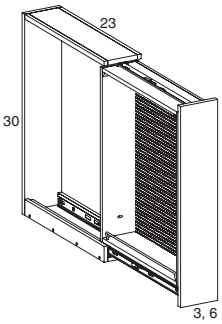
- Brushed stainless steel
- Includes all mounting hardware



Base Filler Pullout

BFP3 **2 Adj. shelves,**
BFP6 **1 Fixed shelf**

- Includes wood spacers
- Must be installed between two cabinets
- An overlay filler trim is recommended for FOL door styles
- Can be installed next to a cabinet with Flush Cabinet End option by omitting supplied spacers
- Natural finished wood with chrome rails
- If not installed between 2 cabinets, exposed end must be covered with an end panel
- Full extension slides
- **Finish techniques are not included**

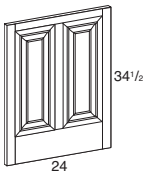


Right Hand Shown

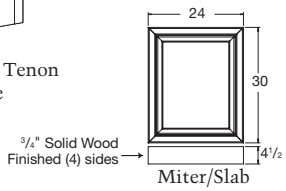
Base Filler Peg Pullout

BFPP3L **BFPP6L**
BFPP3R **BFPP6R**

- Natural finished wood with stainless steel perforated panel pullout
- An overlay filler trim is recommended for FOL door styles
- Can be installed next to a cabinet with Flush Cabinet End option by omitting supplied spacers
- If not installed between 2 cabinets, exposed end must be covered with an end panel
- Full extension slides
- Assortment of stainless steel black coated hooks and pegs
- **Finish techniques are not included**



Cope and Tenon
One Piece



Miter/Slab
Two Pieces

Matching Base End Panel

MBEP
IMBEP
MBEPSD

- ¾" Solid wood construction with spacers on back to compensate for the face frame scribe
- All MBEPs are square on top and bottom edge
- TOL door styles have a decorative profile on the sides
- FOL door styles have matching door edge profile on the sides and are designed to flush with the face frame of the cabinet
- Harmony/Geneva/Venice/Napa/Sonoma/Savannah/Hawthorne/Monterey/Sydney have a mitered profile
- Barcelona and Milan are slab with separate toe kick construction
- **For Thermofoil door styles, Matching End Panels are thermofoiled fiberboard**
- **For MDF door styles, Matching End Panels are painted MDF**
- **INSET:** Use codes beginning with 'I'

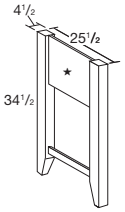
Island Component Basket Unit

ICBU15
ICBU18

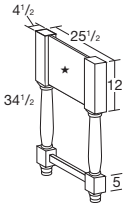
- Framed construction
- Basket functional front and back
- Reduced Depth option not available
- ¾″ Unfinished plywood flush ends standard
- Finished interior standard
- **Finish techniques are not included**

ISLAND COMPONENT BASE ENDS WITH LEGS



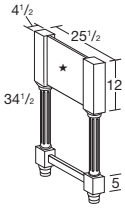
Island Component Base End with Chunky Shaker Legs

ICBE24CSTL



Island Component Base End with Chunky Classic Legs

ICBE24CCTL



Island Component Base End with Chunky Fluted Legs

ICBE24CFTL

- Ends finished on both sides
- Reversible for left or right application
- For MDF and Thermofoil door styles, component base ends are painted maple
- Reduced Depth option available in 3″ increments to 15″
  When specifying:
  RD21 actual depth is 22 ½″
  RD18 actual depth is 19 ½″
  RD15 actual depth is 16 ½″
- Increased Depth option available in 3″ increments to 48″
  When specifying:
  ID27 actual depth is 28 ½″
  ID30 actual depth is 31 ½″
  ID33 actual depth is 34 ½″
  ID36 actual depth is 37 ½″
  ID39 actual depth is 40 ½″
  ID42 actual depth is 43 ½″
  ID45 actual depth is 46 ½″
  ID48 actual depth is 49 ½″
  ⋆ 16½″ W x 12″ H inside dimension

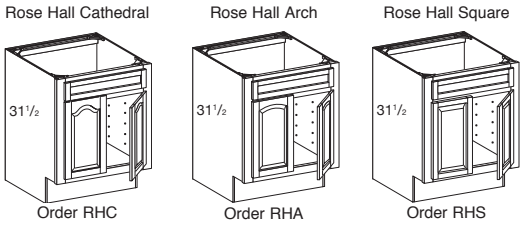
ACTIVE LIVING STANDARD VANITY CABINETS

All vanity cabinets are pre-drilled for 10⅝" deep shelves and have 4½" high toe kicks. Specify Left or Right hinge on all single door vanities. If an order is placed in arch or cathedral door styles, all 31½" high vanities will have arch or cathedral doors. To order square doors on 31½" high vanities, you MUST specify square on your order.
Some Active Living designs can be accomplished with just a lower countertop height. The vanity cabinets have an overall height of 31½" and can be used to achieve this type of design. They are also available in a shallower depth of 21" instead of 24" which may give the consumer easier access to items in the wall cabinets. The Increased Depth option is available in order to get a 24" depth cabinet. See the Semi-Custom Chart for availability. Refer to the vanity section for 18" depth cabinets and base height vanity cabinets.



ACTIVE LIVING - UNIVERSAL DESIGN PRODUCTS

Universal Design Products

GRANBERG®

Universal Design Products, Inc. is the North American distributor of accessible kitchen and bathroom lifts designed and manufactured by Granberg of Sweden.

Some of the biggest obstacles to designing an accessible kitchen are access to sinks, cabinets, countertops (worktops) and appliances which are usually not usable for people who are seated, sitting or in a wheelchair. By installing automatic accessibility lifts, the height of sinks, cabinets, worktops and appliances can be adjusted to accommodate the needs of all users. Most importantly you can design beautiful efficient kitchens and bathrooms that maximize the independence, convenience and changing abilities of all household members.

Please contact Universal Design Products, Inc. with any inquires at the number listed below or visit their web site for further information.

UTILITY CABINETS

All cabinets with single doors must be specified left or right hinge. Thermofoil and cope and tenon door styles 48 1/16" and taller will have a horizontal center rail. Toe kicks shipped attached for all 84" - 102" high cabinets. To order with toe kick shipped unattached, specify TKU with item code (For example, U249624 TKU). The minimum ceiling height for installing standard 24" deep tall cabinets is equal to the cabinet height plus 4": 84"=88", 87"=91", 90"=94", 93"=97", 96"=100" and 102"=106" . If WBR or WTR options are chosen, they add to the overall height of the cabinet and should be taken into consideration. If APC or PCE is specified, end panels will be unfinished plywood. Standard ends are natural laminate. MFE or FCE must be ordered to receive finished ends. Other options are also available. See Semi-Custom Program for additional details.

UTILITY CABINETS WITH SLIDING SHELVES INSTALLED

Sliding shelves have 5/8" hardwood sides, front and back, 3/16" plywood bottom, adjustable mounting brackets and are dovetail full extension soft close. The sliding shelves have a 75 lb. weight capacity. Toe kicks shipped attached for all 84" - 102" high cabinets. To order with toe kick shipped unattached specify TKU with item code (For example, U249624SS TKU). See Semi-Custom Program for additional details. INSET: Sliding shelves are attached to full depth shelves.

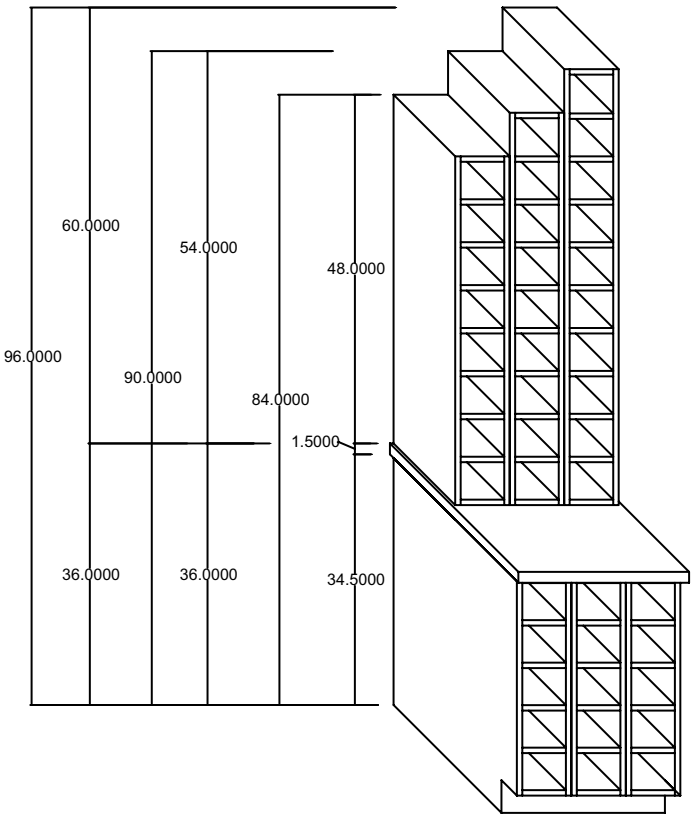
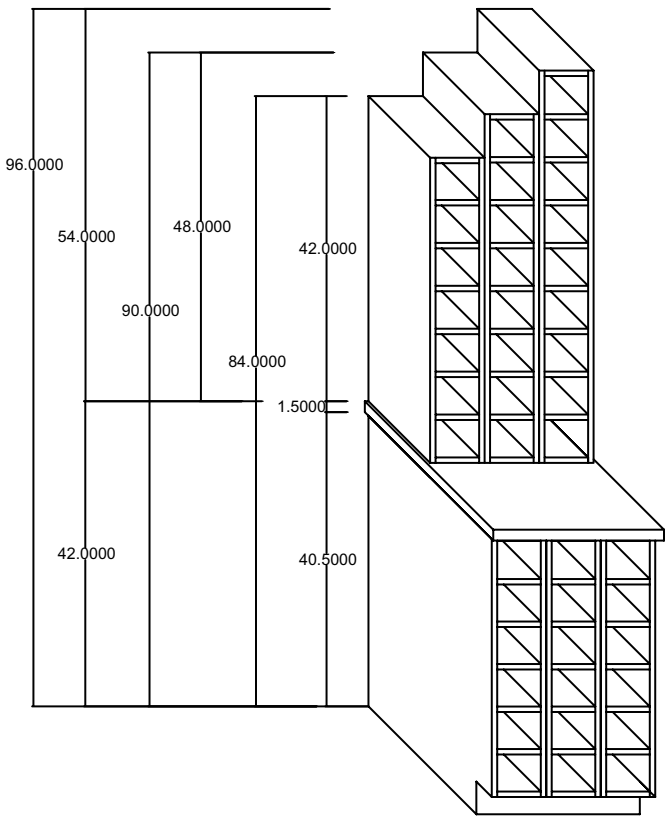
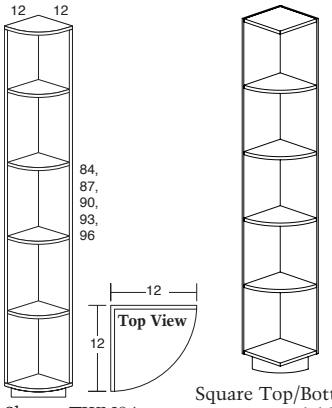
DESIGN IDEA

Tall open shelf cabinets can be created in the field by stacking a Wall Open Shelf Cabinet on top of a Base Open Shelf Cabinet. Below are some examples to show which combinations reach the common heights of 84″, 90″ and 96″. Increased Depth and Reduced Depth options are available.





TALL WHATNOT SHELVES



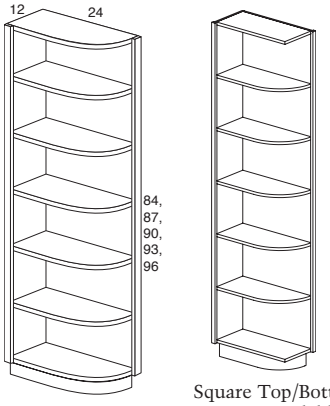
Shown TWN84

Square Top/Bottom Option Available

TWN84 (6 Shelves) including top and bottom
TWN87 (7 Shelves)
TWN90 (7 Shelves)
TWN93 (7 Shelves)
TWN96 (7 Shelves)

- Square Top and Bottom Shelf available under Semi-Custom Program
- **Matching toe kick shipped unattached**
- End panels are ½″ plywood
- 15″ space between shelves for the TWN84
- 12⅞″ space between shelves for the TWN87
- 13⅜″ space between shelves for the TWN90
- 13⅞″ space between shelves for the TWN93
- 14⅜″ space between shelves for the TWN96
- **Finish techniques are not included**
- **For Thermofoil door styles, cabinet shelves are thermofoiled fiberboard**
- **For MDF door styles, shelves are painted maple**

TALL END SHELVES



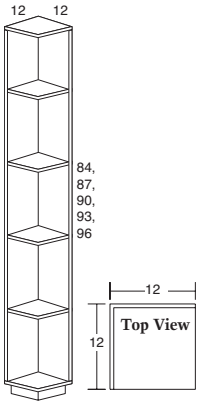
Shown TES96

Square Top/Bottom Option Available

TES84 (6 Shelves) including top and bottom
TES87 (7 Shelves)
TES90 (7 Shelves)
TES93 (7 Shelves)
TES96 (7 Shelves)

- Square Top and Bottom Shelf is available under Semi-Custom Program
- **Matching toe kick shipped unattached**
- Cabinet has a 1⅛″ stile on each side and ½″ plywood end panels
- 15″ space between shelves for the TES84
- 12⅞″ space between shelves for the TES87
- 13⅜″ space between shelves for the TES90
- 13⅞″ space between shelves for the TES93
- 14⅜″ space between shelves for the TES96
- **Finish techniques are not included**
- **For Thermofoil door styles, shelves are thermofoiled fiberboard**
- **For MDF door styles, shelves are painted maple**

SQUARE TALL WHATNOT SHELVES

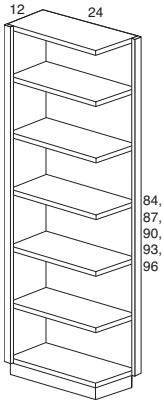


Shown STWN84

STWN84 (6 Shelves) including top and bottom
STWN87 (7 Shelves)
STWN90 (7 Shelves)
STWN93 (7 Shelves)
STWN96 (7 Shelves)

- **Matching toe kick shipped unattached**
- End panels are ½″ plywood
- 15″ space between shelves for the STWN84
- 12⅞″ space between shelves for the STWN87
- 13⅜″ space between shelves for the STWN90
- 13⅞″ space between shelves for the STWN93
- 14⅜″ space between shelves for the STWN96
- **Finish techniques are not included**
- **For Thermofoil door styles, shelves are thermofoiled fiberboard**
- **For MDF door styles, shelves are painted maple**

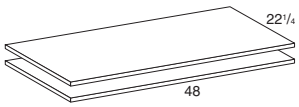
SQUARE TALL END SHELVES



Shown STES96

STES84 (6 Shelves) including top and bottom
STES87 (7 Shelves)
STES90 (7 Shelves)
STES93 (7 Shelves)
STES96 (7 Shelves)

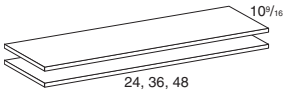
- **Matching toe kick shipped unattached**
- Cabinet has a 1⅛″ stile on each side and ½″ plywood end panels
- 15″ space between shelves for the STES84
- 12⅞″ space between shelves for the STES87
- 13⅜″ space between shelves for the STES90
- 13⅞″ space between shelves for the STES93
- 14⅜″ space between shelves for the STES96
- **Finish techniques are not included**
- **For Thermofoil door styles, shelves are thermofoiled fiberboard**
- **For MDF door styles, shelves are painted maple**



Peninsula Plywood Shelf Kit

PPS48KIT

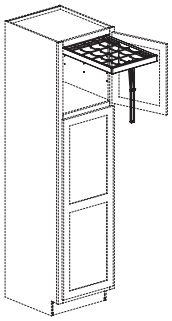
- Includes 2 shelves and shelf clips
- ¾″ Veneered plywood with a natural finish
- Edge banded on one side
- Fits standard wall and base cabinets
- **Not available in MDF and Thermofoil door styles**
- More sizes available in the Replacement Shelves section



Plywood Shelf Kit

PS24KIT
PS36KIT
PS48KIT

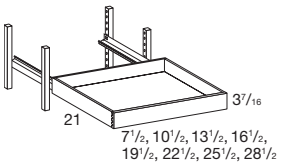
- Includes 2 shelves and shelf clips
- ¾″ Veneered plywood with a natural finish
- Edge banded on 2 sides
- Fits standard peninsula base cabinets
- **Not available in MDF and Thermofoil door styles**
- More sizes available in the Replacement Shelves section



FR **Hanging Pot and Pan Organizer**

HPPO21

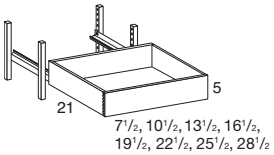
- Kit includes mounting hardware and six hooks with rubber grips
- Fits 21″ wide utilities only
- Installs into top section of 21″ wide utilities



FR **24″ Deep Dovetail Full Extension Soft Close Sliding Shelf**

SSDSC1224 (for U128424, U128724, U129024, U129324, U129624, U1210224)
SSDSC1524 (for U158424, U158724, U159024, U159324,
ISSDSC1524 U159624, U1510224)
SSDSC1824 (for U188424, U188724, U189024, U189324,
ISSDSC1824 U189624, U1810224)
SSDSC2124 (for U218424, U218724, U219024, U219324,
ISSDSC2124 U219624, U2110224)
SSDSC2424 (for U248424, U248724, U249024, U249324,
ISSDSC2424 U249624, U2410224)
SSDSC2724 (for U278424, U278724, U279024, U279324,
ISSDSC2724 U279624, U2710224)
SSDSC3024WCM (for U308424, U308724, U309024, U309324,
ISSDSC3024WCM U309624, U3010224)
SSDSC3324WCM (for U338424, U338724, U339024, U339324,
ISSDSC3324WCM U339624, U3310224)
SSDSC3624WCM (for U368424, U368724, U369024, U369324,
ISSDSC3624WCM U369624, U3610224)

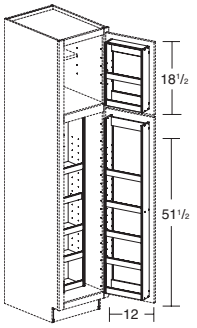
- Includes one solid wood dovetail sliding shelf with soft close undermount slides, four mounting supports and attachment hardware
- **INSET:** Use codes beginning with "I". If installing more than one ISSDSC in a cabinet, it requires a full depth shelf for attachment.

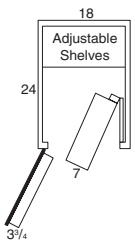


5″ High, 24″ Deep Dovetail Soft Close Sliding Shelf

SSDSC1224-5 (for U128424, U128724, U129024, U129324, U129624, U1210224)
SSDSC1524-5 (for U158424, U158724, U159024, U159324,
ISSDSC1524-5 U159624, U1510224)
SSDSC1824-5 (for U188424, U188724, U189024, U189324,
ISSDSC1824-5 U189624, U1810224)
SSDSC2124-5 (for U218424, U218724, U219024, U219324,
ISSDSC2124-5 U219624, U2110224)
SSDSC2424-5 (for U248424, U248724, U249024, U249324,
ISSDSC2424-5 U249624, U2410224)
SSDSC2724-5 (for U278424, U278724, U279024, U279324,
ISSDSC2724-5 U279624, U2710224)
SSDSC3024WCM-5 (for U308424, U308724, U309024, U309324,
ISSDSC3024WCM-5 U309624, U3010224)
SSDSC3324WCM-5 (for U338424, U338724, U339024, U339324,
ISSDSC3324WCM-5 U339624, U3310224)
SSDSC3624WCM-5 (for U368424, U368724, U369024, U369324,
ISSDSC3624WCM-5 U369624, U3610224)

- Includes one solid wood dovetail sliding shelf with soft close undermount slides, four mounting supports and attachment hardware
- **INSET:** Use codes beginning with "I". If installing more than one ISSDSC in a cabinet, it requires a full depth shelf for attachment.

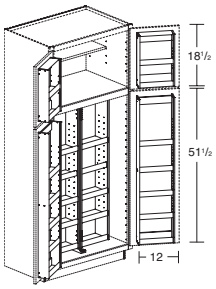


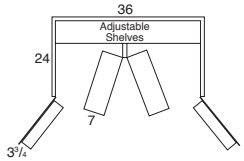


Pantry Storage Kit

PSK18 (for U188424, U188724, U189024, U189324, U189624, U1810224)

- If kit is installed in a cabinet adjacent to a wall, use a 6″ filler for door to open fully
- Plywood kit with adjustable shelves
- **When installing PSK18 in a U188424 cabinet, the top shelf must be trimmed to ¾″ depth to install top pantry**
- **When installing PSK18 in 87″, 90″, 93″, 96″ and 102″ high Utility Cabinets, top of kit will not extend to the full height of door**
- **INSET:** Not available





PSK36 (for U368424, U368724, U369024, U369324, U369624, U3610224)

- If kit is installed in cabinet adjacent to a wall, use a 6″ filler for door to open fully
- Plywood kit with adjustable shelves
- **When installing PSK36 in a U368424 cabinet, the top shelf must be trimmed to ¾″ depth to install top pantry**
- **When installing PSK36 in 87″, 90″, 93″, 96″ and 102″ high Utility Cabinets, top of kit will not extend to the full height of door**
- **INSET:** Not available

- All MTEPs are square on top and bottom edges
- Top center panels will match arch/cathedral door styles
- ¾″ Solid wood construction with spacers on back to compensate for the face frame scribe
- TOL door styles have a decorative profile on the sides
- FOL door styles have a matching door edge profile on sides and are designed to flush with the face frame of the cabinet
- Geneva/Venice/Napa/Sonoma/Savannah/Harmony/Hawthorne/Monterey/Sydney have a mitered profile
- **End panels less than 24″ wide have three vertical panels instead of six**
- **Barcelona and Milan are slabs with separate toe kick**
- **For Thermofoil door styles, Matching End Panels are thermofoiled fiberboard**
- **For MDF door styles, Matching End Panels are painted MDF**
- **INSET:** Use codes beginning with "I"

Appliance Dimension System

Standard Wellborn doors are available to mount on appliance doors. A service called "Dimension Express" provides instant trim sizes for appliance dimensions.

DIMENSION EXPRESS

The Instant Appliance Dimension System

• Easy to use • 24 hours a day • Updated daily •

A **FREE** service to obtain specification sheets instantly using any fax machine. It's EASY, just call **(925) 284-3558** from a fax machine. Enter "2" when asked for a code number and you will receive further information, instructions and a listing of all manufacturers online. Manufacturers support the system making it FREE to you.

For questions and comments call Dimension Express at
PHONE (800) 940-2059
FAX (925) 403-0707

ELEGANT BATH COLLECTION™

Individual style, everyday luxury

The Elegant Bath Collection is an extensive collection of Designer vanity suites, Basic vanities and accessories that can be found separate from this catalog. It contains Designer Suites which are pre-configured styles that cover a broad range of design aesthetics – Furniture, Modern, Transitional, Traditional, Classic, Curved, Corner and Wall Mount. Plus, it includes a selection of Basics that allow for a modular design approach. The Elegant Bath Collection is designed so that everyone can have their individual style with everyday luxury. Below is a small sample. Refer to the Elegant Bath Collection Specification and Price Catalog or the brochure for more information.

Curved Vanity Suites

STANDARD VANITY CABINETS

All vanity cabinets are pre-drilled for 10⁹⁄₁₆" deep shelves and have 4½" high toe kicks. FR See Function Ready section for sliding shelf availability.

Detailed Ordering Instructions for Vanities:

Specify left or right on all single door vanities. If order is placed in arch or cathedral door styles, all 31½" high vanities will have arch or cathedral doors. To order square doors on 31½" high vanities, you MUST specify square on your order. When ordering 34½" High Just Right Base Height vanities, all doors are square (arch and cathedral doors are not available). See examples below.

Classic Base
Moulding Shown

4½" Decorative Base Platform

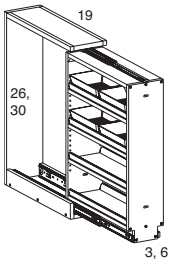
DBP4BM
DBP4CBM
DBP4FBM

- Must specify cabinet depth and cabinet width
- Moulding applied to front and two sides
- For use with Vanity Cabinets with Void Toe Kick

To calculate the price:
The Decorative Base Platform is priced by square feet. There is a minimum charge of eight (8) square feet. For measurements greater than 8 sq. ft., use the individual moulding list price times the number of square feet.

DBP4BM $35 List per sq. ft.
DBP4CBM $50 List per sq. ft.
DBP4FBM $35 List per sq. ft.

Example:
Cabinet size
60" x 21" = 1260 + 144 = 8.75 x $35 List = $306.25 List



Vanity Filler Pullout

VFP3
VFP3BH
VFP6
VFP6BH

2 Adj. shelves,
1 Fixed shelf

- Includes wood spacers
- Must be installed between two cabinets
- An overlay filler trim is recommended for FOL door styles
- Can be installed next to a cabinet with Flush Cabinet End option by omitting supplied spacers
- Natural finished wood with chrome rails
- If not installed between 2 cabinets, exposed end must be covered with an end panel
- Full extension slides
- **Finish techniques are not included**

FURNITURE BOOKCASES

Cabinet construction is ½" wood veneered plywood end panels with finished exterior and interior. Back is 3/16" plywood. Top and bottom are ½" plywood with finished interior and exterior. Cabinet includes matching ¾" shelves, is predrilled for shelves and has chrome shelf supports which mount underneath the shelf. For MDF and Thermofoil door styles, bookcases have ¾" painted plywood shelves. Bookcases come standard as shown. Please refer to Semi-Custom Program for a list of available valance options. Cabinet height in bookcases will be standard 34½" high base height. Toe kicks shipped attached for all 84" - 96" high cabinets. To order with toe kick shipped unattached specify TKU with item code (For example, FBKC1896 TKU). See Semi-Custom Program for additional details.

- ¾″ Thick solid wood
- Available in cherry, maple, oak and hickory
- Finished front only
- **Finish techniques are not included**
- **For MDF and Thermofoil door styles, fillers are painted maple**

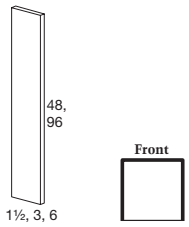
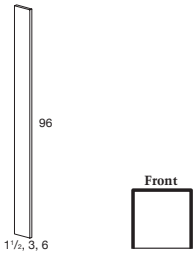
Solid Wood Universal Filler



UF1.548 **UF1.596**
UF348 **UF396**
UF648 **UF696**

- ¾″ Thick solid wood
- Finished on front and two long edges
- Trim to fit
- Available in cherry, maple, oak and hickory
- **Finish techniques are not included**
- **For MDF and Thermofoil door styles, fillers are painted maple**

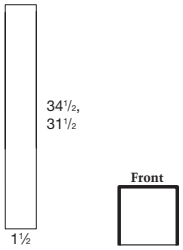
Solid Stock



SS1.596
SS396
SS696

- ¾″ Thick solid wood
- Finished all 4 sides
- Available in cherry, maple, oak and hickory
- **Finish techniques are not included**
- **For MDF and Thermofoil door styles, fillers are painted maple**

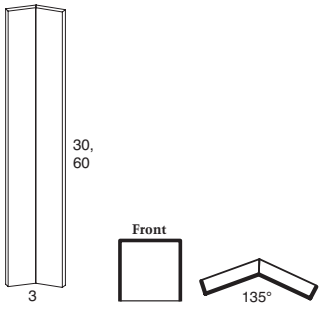
1½" Wide Filler Base/Vanity



F1.534B
F1.531V

- ¾″ Thick solid wood
- Finished on front and two long edges
- **Finish techniques are not included**
- **For MDF and Thermofoil door styles, fillers are painted maple**

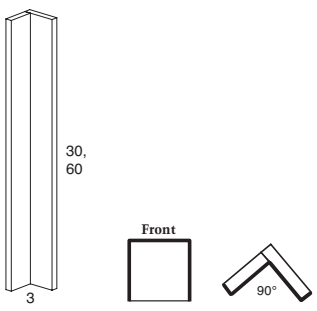
Angled Corner Solid Wood Filler



FCRA330
FCRA360

- ¾″ Thick solid wood
- Finished on front and two long edges
- Trim to fit
- Available in cherry, maple, oak and hickory
- **Finish techniques are not included**
- **For MDF and Thermofoil door styles, fillers are painted maple**

Corner Solid Wood Filler



FCR330
FCR360

- ¾″ Thick solid wood
- Finished on front and two long edges
- Trim to fit
- Available in cherry, maple, oak and hickory
- **Finish techniques are not included**
- **For MDF and Thermofoil door styles, fillers are painted maple**

Finished area is illustrated on drawings by bold line.

IWSBP
$160 List per sq. ft.

- **Must specify width to nearest 1/16" and height to nearest 1/4"**
- **Wall panels 48¼ to 60" high and tall panels can not exceed 48" wide**
- **Not available in arch, cathedral, Barcelona, Bali, Chelsea, Wellington, Milan, Essex, MDF or Thermofoil door styles**
- When joining panels together they will require trimming to maintain center stile width of 3½"
- When specifying height, note cap moulding will add ¾"
- Geneva/Venice/Napa/Savannah/Sonoma/Monterey/Sydney will have matching center panel but will not be mitered
- Bristol/Hanover/Henlow/Melrose will have reversed flat solid panel
- Hawthorne will have reversed solid panel without moulding applied (not mitered)
- Bridgeport/Melrose/Modesto will include moulding which decreases the center stile width from 3½" to 2¾"
- Charleston/Richmond will include applied moulding which reduces the flat area to ½" of the center stiles. Outside stiles will have have approximately 2" flat area after moulding is applied.
- Wall panels can be specified from 12" to 60" high
- Base panels can be specified from 16½" to 48" high
- Tall panels can be specified from 48¼" to 96" high
- **INSET:** Use codes beginning with "I"; panels are 1" thick and have a door and frame appearance containing the specified door style

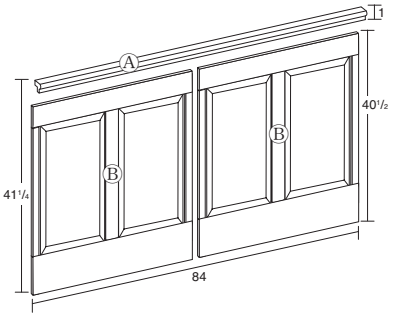
Order B3/4 to cover joints between panels.

Wainscot
Example B (island)

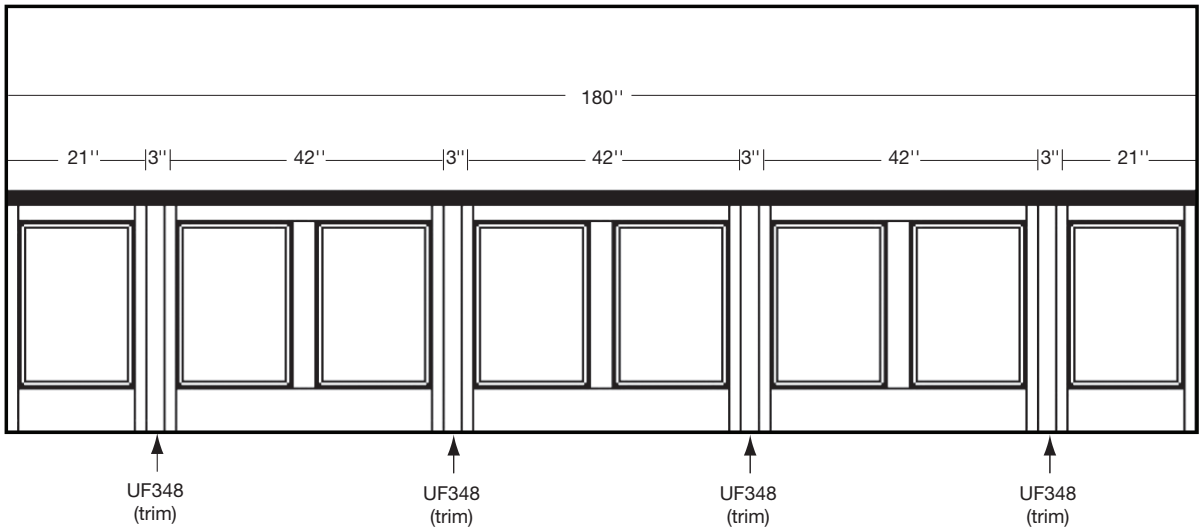


To create Example B,
order the following:
Ⓐ CAPM8 (trim)
Ⓑ WSBP4240 (trim)
Order B3/4 to cover joints between panels.

CALCULATING PANELS

Wall without Windows or Doors

1. Measure the length of the wall to be covered.
2. Determine the panels required. Wainscot Base Panels are available in widths ranging from 12″-96″. Use the example in the drawing below to help determine the best symmetrical layout. The example uses a mixture of 42″ and 21″ panels with universal fillers (fluted fillers may be substituted if desired) between panels. As a general rule, start with the largest panel in the center of the wall and figure calculations from either side to get your desired layout.
3. It may be necessary at times to mix panel sizes with 3″ and 6″ universal fillers to get the desired coverage.
4. If there is a door opening on the wall, treat each side of the door as a separate wall keeping the panel sizes as symmetrical as possible. See "Walls With Windows & Doors" on following page.



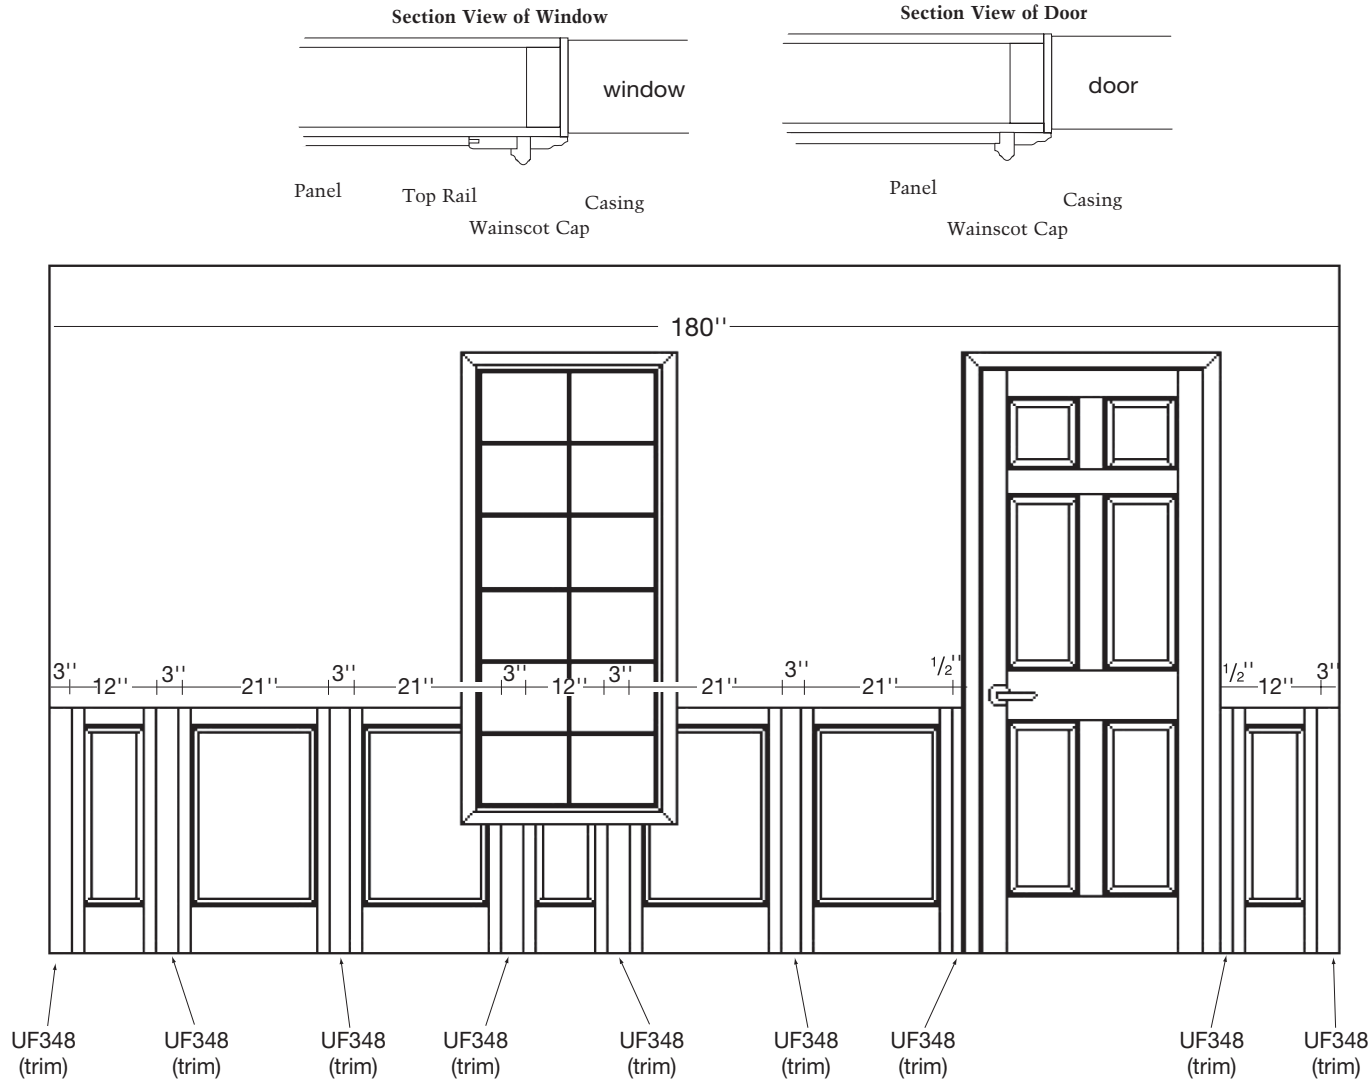
Note: When calculating panel sizes for our wainscot, please remember that the calculation tips shown in this section are examples only. Due to the various room configurations, it is the dealer's responsibility to verify that their calculations are correct. Wellborn Cabinet, Inc., assumes no responsibility for the accuracy of the dealer's calculations.

CALCULATING PANELS (continued)

Walls with Windows and Doors

Calculating the panels for the same 180″ wall with windows and doors will vary depending on the window and door sizes, treatment and location. Other design applications can be applied. The example below is just one solution. In the example below the window and door have a standard 2¼″ casing on four sides with wainscot cap moulding (CAPM8) mitered around them and between the panels and casing.

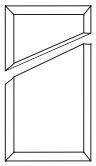
1. Start with the center of the 3″ stile of a 42″ panel, the center of a 12″ or 21″ panel, or the center of a 3″ universal filler (as in example below). Determine the best panel width to amply cover the area under the window. In the example, (1) 12″ panel, (2) 21″ panels, and 3″ universal fillers are used. These parts are cut square on the top and at 90 degrees on sides as needed to butt into the cap moulding used to separate the panels from the casing.
2. Continue down the wall to the corner. In the example, the run is finished with a 12″ and 21″ panel with 3″ and 6″ universal fillers trimmed to fit.
3. On the side next to the door, the components are butted into the cap moulding as in the window treatment. Repeat this treatment on both sides for a consistent fit.



Sample Installation for Reference Only

Note: When calculating panel sizes for our wainscot, please remember that the calculation tips shown in this section are examples only. Due to the various room configurations, it is the dealer's responsibility to verify that their calculations are correct. Wellborn Cabinet, Inc., assumes no responsibility for the accuracy of the dealer's calculations.

STAIR TREATMENT



Trim panels, stiles and rails to desired angle so they butt to stair trim.

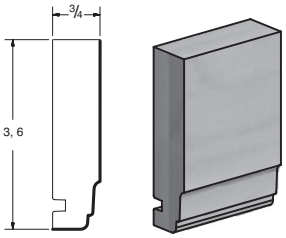
Madison Profile Fascia Moulding



FMM3
FMM6
- Solid wood
- Available in cherry, maple, oak and hickory
- **For MDF and Thermofoil door styles, moulding is painted maple**
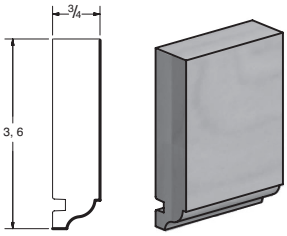
- **Mounting Strip sold separately**

Ogee Fascia Moulding



FMO3
FMO6
- Solid wood
- Available in cherry, maple, oak and hickory
- **For MDF and Thermofoil door styles, moulding is painted maple**
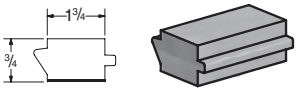
- **Mounting Strip sold separately**

Mounting Strip



MS8
- Solid wood
- 96″ lengths
- Available in cherry, maple, oak and hickory
- **Fascia and crown sold separately**
- **For MDF and Thermofoil door styles, moulding is painted maple**
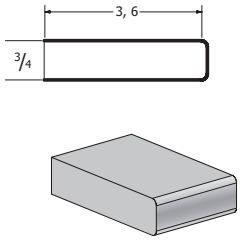
- **Finish techniques are not included**

STACK MOULDING

Contemporary Stack Moulding



CSM8
CSML8 (6″ Wide)
- Solid wood
- Available in cherry, maple, oak and hickory
- **Finish techniques are not included**
- **For MDF and Thermofoil door styles, moulding is painted maple**

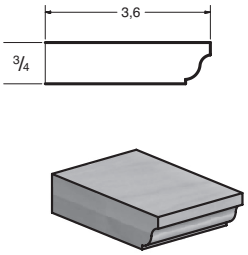
Ogee Stack Moulding



OSM8
OSML8 (6″ Wide)
- Solid wood
- Available in cherry, maple, oak and hickory
- **Finish techniques are not included**
- **For MDF and Thermofoil door styles, moulding is painted maple**

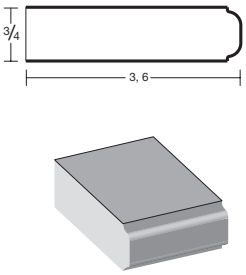
Single Bead Stack Moulding



SBSM8
SBSML8 (6″ Wide)
- Solid wood
- Available in cherry, maple, oak and hickory
- **Finish techniques are not included**
- **For MDF and Thermofoil door styles, moulding is painted maple**

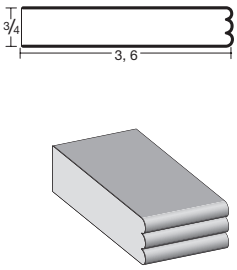
Triple Bead Stack Moulding



TBSM8
TBSML8 (6″ Wide)
- Solid wood
- Available in cherry, maple, oak and hickory
- **Finish techniques are not included**
- **For MDF and Thermofoil door styles, moulding is painted maple**

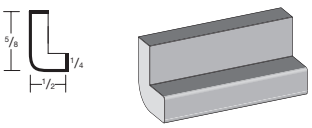
SOFFIT MOULDING

Soffit Moulding



SO3/4
- Solid wood
- Available in cherry, maple, oak and hickory
- **Finish techniques are not included**
- **For MDF and Thermofoil door styles, moulding is painted maple**

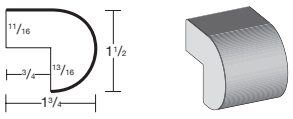
LIGHT RAIL MOULDING

Contemporary Radius Moulding

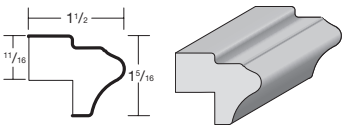


CRM
- Veneer wrapped fiberboard
- **Finish techniques are not included**
- **For White Thermofoil door styles, moulding is thermofoiled fiberboard**
- **For MDF and Linen Thermofoil door styles, moulding is painted maple**

Available in all finishes unless otherwise noted.
3″- 6″ Cumulative tolerance allowed on all mouldings.

LIGHT RAIL MOULDING (continued)

Cove Light Rail Moulding



CVLRM8
- Solid wood
- Available in cherry, maple, oak and hickory
- **For MDF and Thermofoil door styles, moulding is painted maple**

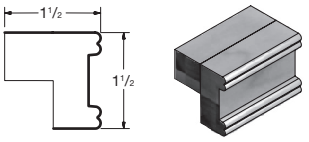
Inset Light Rail Moulding



ILRM8
- Solid wood
- Available in cherry, maple, oak and hickory
- **For MDF and Thermofoil door styles, moulding is painted maple**

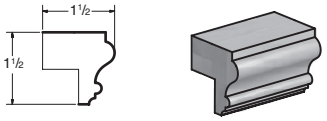
Large Cove Light Rail Moulding



LCVLRM8
- Solid wood
- Available in cherry, maple, oak and hickory
- **For MDF and Thermofoil door styles, moulding is painted maple**

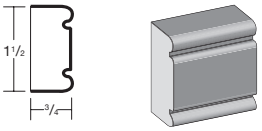
Light Rail Moulding



LRM
- Solid wood
- Available in cherry, maple, oak and hickory
- **For MDF and Thermofoil door styles, moulding is painted maple**

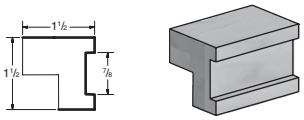
Mission Light Rail Moulding



MLRM8
- Solid wood
- Available in cherry, maple and oak
- **For MDF and Thermofoil door styles, moulding is painted maple**

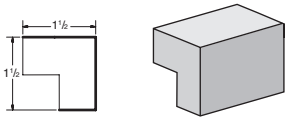
Shaker Light Rail Moulding



SKLRM
- Solid wood
- Available in cherry, maple and oak
- **For MDF and Thermofoil door styles, moulding is painted maple**

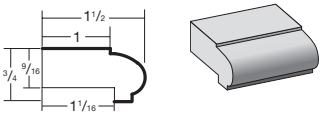
Small Light Rail Moulding



SLRM
- Solid wood
- Available in cherry, maple, oak and hickory
- **Finish techniques are not included**
- **For MDF and Thermofoil door styles, moulding is painted maple**

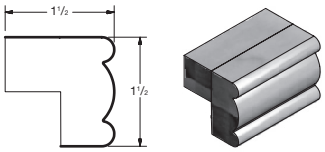
LIGHT RAIL MOULDING (continued)

Small Traditional Light Rail Moulding



STLRM
- Solid wood
- Available in cherry, maple, oak and hickory
- **For MDF and Thermofoil door styles, moulding is painted maple**

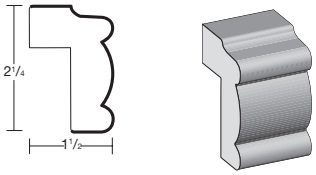
Traditional Light Rail Moulding



TLRM
- Solid wood
- Available in cherry, maple, oak and hickory
- **For MDF and Thermofoil door styles, moulding is painted maple**

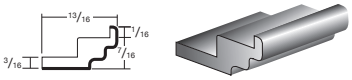
EDGE MOULDING

Bottom Edge Moulding



BEM
- Solid wood
- Available in cherry, maple, oak and hickory
- Used to add finished skin to bottom of cabinet
- **Finish techniques are not included**
- **For MDF and Thermofoil door styles, moulding is painted maple**

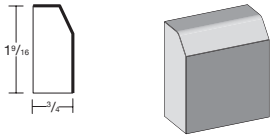
Countertop Edge Moulding Bevel



CEMB
- Solid wood
- Available in cherry, maple, oak and hickory
- **For MDF and Thermofoil door styles, moulding is painted maple**

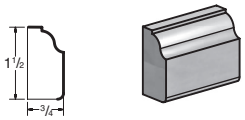
Countertop Edge Moulding Ogee



CEMO
- Solid wood
- Available in cherry, maple, oak and hickory
- **For MDF and Thermofoil door styles, moulding is painted maple**

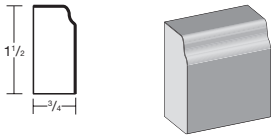
Classic Wood Edge Moulding



CWE
- Solid wood
- Available in cherry, maple, oak and hickory
- **For MDF and Thermofoil door styles, moulding is painted maple**

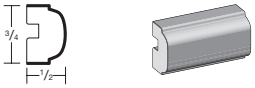
Single Bead Edge Moulding



SBEM
- Solid wood
- Available in cherry, maple, oak and hickory
- **Finish techniques are not included**
- **For MDF and Thermofoil door styles, moulding is painted maple**

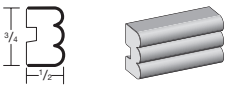
Finished area of moulding is illustrated on drawings by bold line. All moulding is 8' in length unless otherwise noted.

EDGE MOULDING (continued)

Triple Bead Edge Moulding



TBEM
- Solid wood
- Available in cherry, maple, oak and hickory
- **Finish techniques are not included**
- **For MDF and Thermofoil door styles, moulding is painted maple**

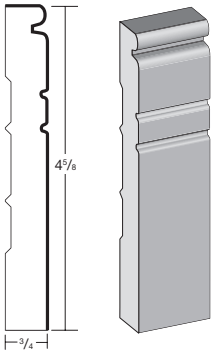
BASE MOULDING

Base Moulding



BM
- Solid wood
- Available in cherry, maple, oak and hickory
- **For MDF and Thermofoil door styles, moulding is painted maple**

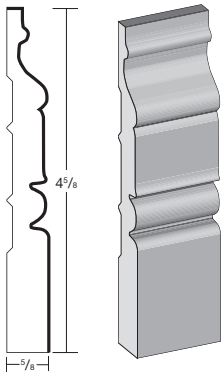
Classic Base Moulding



CBM
- Solid wood
- Available in cherry, maple, oak and hickory
- **For MDF and Thermofoil door styles, moulding is painted maple**

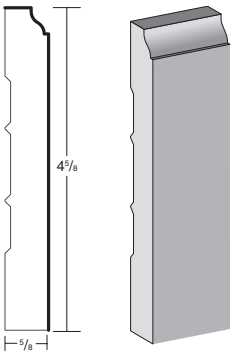
Furniture Base Moulding



FBM
- Solid wood
- Available in cherry, maple, oak and hickory
- **For MDF and Thermofoil door styles, moulding is painted maple**

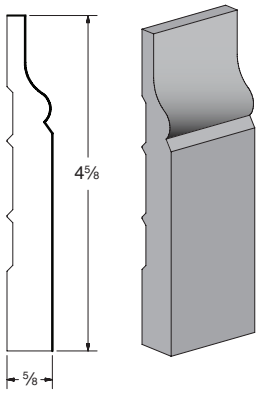
BASE MOULDING (continued)

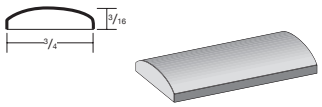
Simple Classic Base Moulding



SCBM
- Solid wood
- Available in cherry, maple, oak and hickory
- **For MDF and Thermofoil door styles, moulding is painted maple**

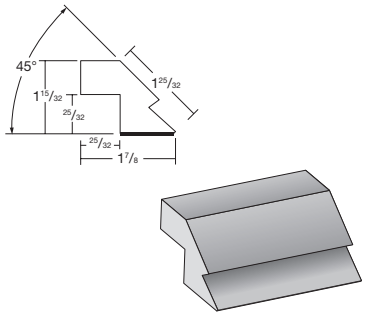
MISCELLANEOUS MOULDING

Batten Moulding



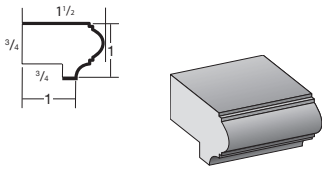
B3/4
- Solid wood
- Available in cherry, maple, oak and hickory
- **Finish techniques are not included**
- **For MDF and Thermofoil door styles, moulding is painted maple**

Diagonal Transition Moulding



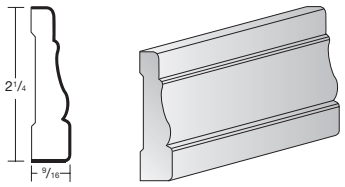
DTM
- Solid wood
- Available in cherry, maple, oak and hickory
- DTM is great for designing tall cabinets in corners
- **Finish techniques are not included**
- **For MDF and Thermofoil door styles, moulding is painted maple**

Small Wainscot Cap Moulding



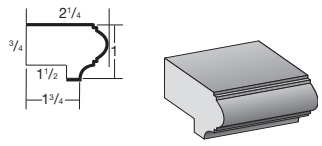
SWCM
- Solid wood
- Available in cherry, maple, oak and hickory
- **Finish techniques are not included**
- **For MDF and Thermofoil door styles, moulding is painted maple**

Universal Casing Moulding



UCM
- Solid wood
- Available in cherry, maple, oak and hickory
- **For MDF and Thermofoil door styles, moulding is painted maple**

Wainscot Cap Moulding

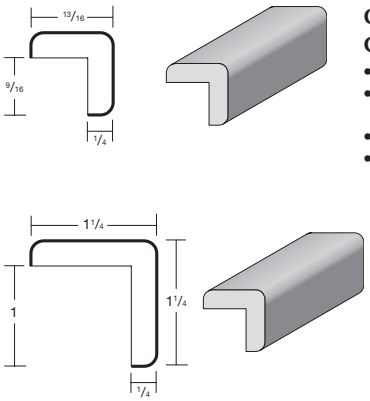


CAPM8
- Solid wood
- Available in cherry, maple, oak and hickory
- **Finish techniques are not included**
- **For MDF and Thermofoil door styles, moulding is painted maple**

Available in all finishes unless otherwise noted.
3"- 6" Cumulative tolerance allowed on all mouldings.

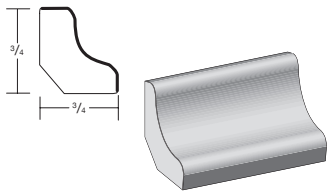
MISC (CORNER) MOULDING

Corner Moulding



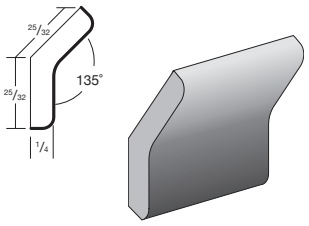
C3/4
C1 1/4
- Solid wood
- Available in cherry, maple, oak and hickory
- **Finish techniques are not included**
- **For MDF and Thermofoil door styles, moulding is painted maple**

Inside Corner Moulding



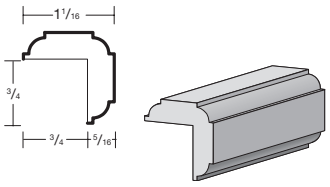
IC3/4
- Solid wood
- Available in cherry, maple, oak and hickory
- **Finish techniques are not included**
- **For MDF and Thermofoil door styles, moulding is painted maple**

Angled Inside Corner Moulding



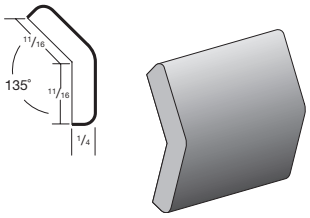
ICM8
- Solid wood
- Available in cherry, maple, oak and hickory
- **Finish techniques are not included**
- **For MDF and Thermofoil door styles, moulding is painted maple**

Large Outside Corner Moulding



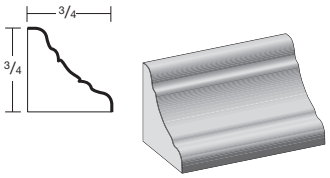
LOC
- Solid wood
- Available in cherry, maple, oak and hickory
- **Finish techniques are not included**
- **For MDF and Thermofoil door styles, moulding is painted maple**

Angled Outside Corner Moulding



OCM8
- Solid wood
- Available in cherry, maple, oak and hickory
- **Finish techniques are not included**
- **For MDF and Thermofoil door styles, moulding is painted maple**

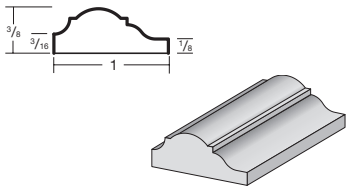
Traditional Inside Corner Moulding



TIC3/4
- Solid wood
- Available in cherry, maple, oak and hickory
- **Finish techniques are not included**
- **For MDF and Thermofoil door styles, moulding is painted maple**

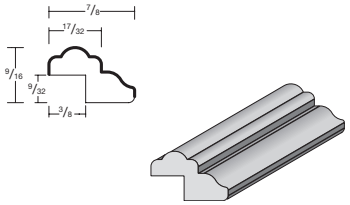
MISC (DECORATIVE) MOULDING

Decorative Panel Moulding



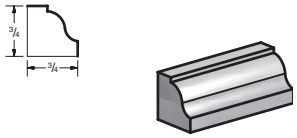
DPM
- Solid wood
- Available in cherry, maple, oak and hickory
- **Finish techniques are not included**
- **For MDF and Thermofoil door styles, moulding is painted maple**

Melrose Moulding



MEL8
- Solid wood
- Profile matches applied moulding on Melrose door style
- Available in cherry, maple, oak and hickory
- **Finish techniques are not included**
- **For MDF and Thermofoil door styles, moulding is painted maple**

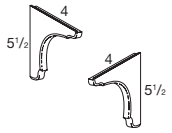
Ogee Moulding 3/4



OM3/4
- Solid wood
- Available in cherry, maple, oak and hickory
- **Finish techniques are not included**
- **For MDF and Thermofoil door styles, moulding is painted maple**

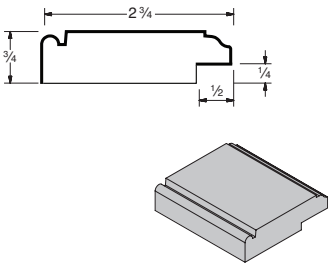
MISC (FRAME) MOULDING

Decorative Frame Inserts



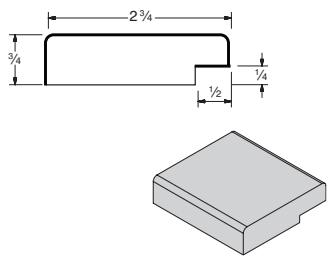
DFL
DFR
- **Must order left or right**
- **For MDF and Thermofoil door styles, insert is painted maple**

Decorative Mirror Surround Beaded



DMSB
- Solid wood
- Available in cherry, maple, oak and hickory
- **For MDF and Thermofoil door styles, moulding is painted maple**

Decorative Mirror Surround Contemporary

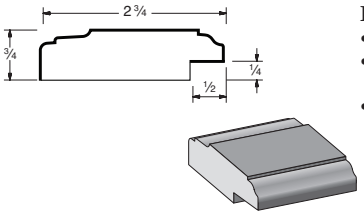


DMSC
- Solid wood
- Available in cherry, maple, oak and hickory
- **For MDF and Thermofoil door styles, moulding is painted maple**

Finished area of moulding is illustrated on drawings by bold line. All moulding is 8' in length unless otherwise noted.

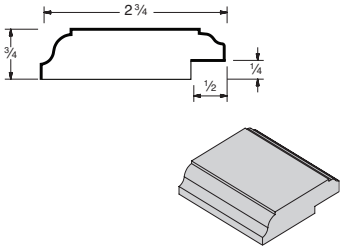
MISC (FRAME) MOULDING (continued)

Decorative Mirror Surround Madison



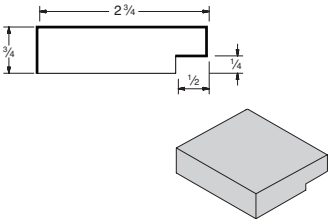
DMSM
- Solid wood
- Available in cherry, maple, oak and hickory
- **For MDF and Thermofoil door styles, moulding is painted maple**

Decorative Mirror Surround Ogee



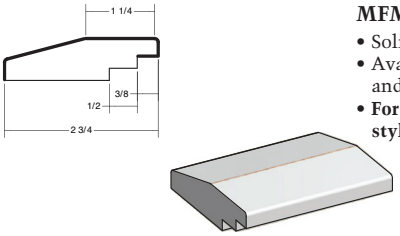
DMSO
- Solid wood
- Available in cherry, maple, oak and hickory
- **For MDF and Thermofoil door styles, moulding is painted maple**

Decorative Mirror Surround Square



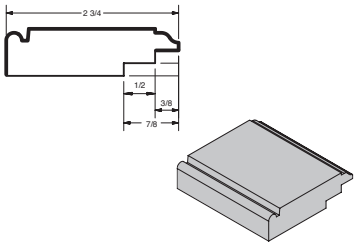
DMSS
- Solid wood
- Available in cherry, maple, oak and hickory
- **For MDF and Thermofoil door styles, moulding is painted maple**

Mirror Frame Moulding Angled



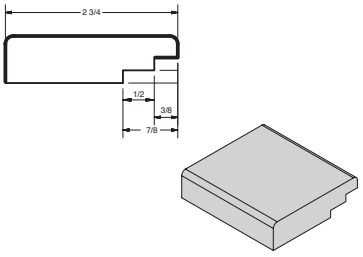
MFMA
- Solid wood
- Available in cherry, maple, oak and hickory
- **For MDF and Thermofoil door styles, moulding is painted maple**

Mirror Frame Moulding Beaded



MFMB
- Solid wood
- Available in cherry, maple, oak and hickory
- **For MDF and Thermofoil door styles, moulding is painted maple**

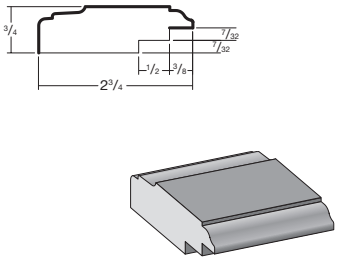
Mirror Frame Moulding Contemporary



MFMC
- Solid wood
- Available in cherry, maple, oak and hickory
- **For MDF and Thermofoil door styles, moulding is painted maple**

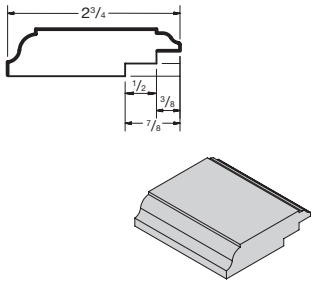
MISC (FRAME) MOULDING (continued)

Mirror Frame Moulding Madison



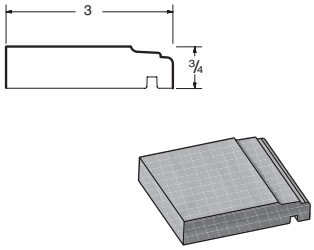
MFMM
- Solid wood
- Available in cherry, maple, oak and hickory
- **For MDF and Thermofoil door styles, moulding is painted maple**

Mirror Frame Moulding Ogee



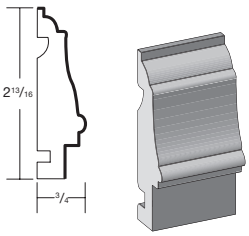
MFMO
- Solid wood
- Available in cherry, maple, oak and hickory
- **For MDF and Thermofoil door styles, moulding is painted maple**

Simple Decorative Mirror Surround Moulding



SDMSM
- Solid wood
- Available in cherry, maple, oak and hickory
- **For MDF and Thermofoil door styles, moulding is painted maple**
- **Mounting Strip sold separately**

Plate Rail

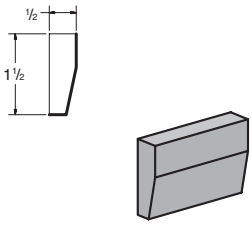


NEW CODE

PR8
- Solid wood
- Available in cherry, maple, oak and hickory
- For a more detailed décor, add a Spindle Rail to the Plate Rail
- Simply mount the Spindle Rail in the groove of the Plate Rail
- **For MDF and Thermofoil door styles, moulding is painted maple**

MISC (SCRIBE) MOULDING

Mission Scribe Moulding

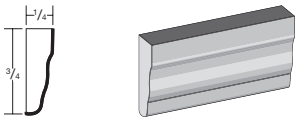


MS1 1/2
- Solid wood
- Available in cherry, maple and oak
- **For MDF and Thermofoil door styles, moulding is painted maple**

Available in all finishes unless otherwise noted.
3"- 6" Cumulative tolerance allowed on all mouldings.

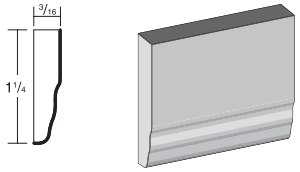
MISC (SCRIBE) MOULDING (continued)

Scribe Moulding 3/4



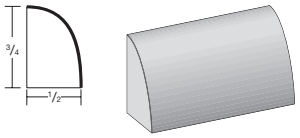
S3/4
- Solid wood
- Available in cherry, maple, oak and hickory
- **Finish techniques are not included**
- **For MDF and Thermofoil door styles, moulding is painted maple**

Scribe Moulding 1 1/4



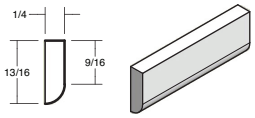
S1 1/4
- Solid wood
- Available in cherry, maple, oak and hickory
- **For MDF and Thermofoil door styles, moulding is painted maple**

Shoe Moulding



SM3/4
- Solid wood
- Available in cherry, maple, oak and hickory
- **Finish techniques are not included**
- **For MDF and Thermofoil door styles, moulding is painted maple**

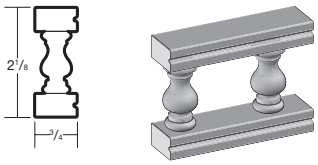
Simple Scribe Moulding



SSM3/4
- Solid wood
- Available in cherry, maple, oak and hickory
- **Finish techniques are not included**
- **For MDF and Thermofoil door styles, moulding is painted maple**

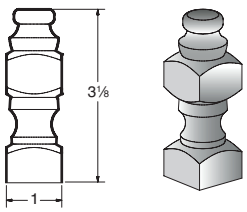
MISC SPINDLE

Spindle Rail



SR
- Solid wood
- **Finish techniques are not included**
- **For MDF and Thermofoil door styles, moulding is painted maple**

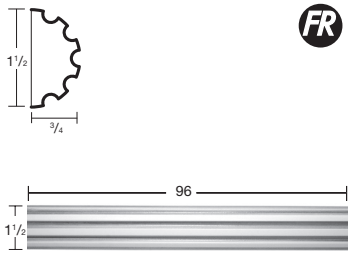
Spindle Rail Post



SRP
- Solid wood
- **Finish techniques are not included**
- **For MDF and Thermofoil door styles, moulding is painted maple**

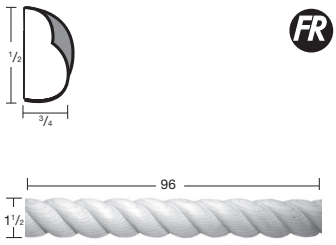
MISC (SPLIT) MOULDING

Fluted Split Spindle



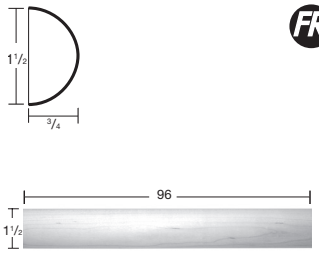
FSS
- 96″ Length
- Trimmable
- Available in solid cherry, maple, oak and hickory
- **For MDF and Thermofoil door styles, moulding is painted maple**

Rope Split Spindle



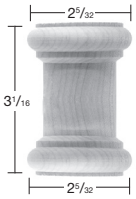
RPSS
- 96″ Length
- Trimmable
- Available in solid cherry, maple, oak and hickory
- **For MDF and Thermofoil door styles, moulding is painted maple**

Rounded Split Spindle



RSS
- 96″ Length
- Trimmable
- Available in solid cherry, maple, oak and hickory
- **For MDF and Thermofoil door styles, moulding is painted maple**

Center Split Spool

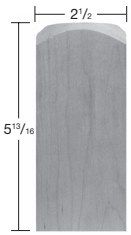


CSS
- 1″ Thick
- Available in solid cherry, maple, oak and hickory
- **For MDF and Thermofoil door styles, moulding is painted maple**

Split Spool

SS
- 1¼″ Thick
- Available in solid cherry, maple, oak and hickory
- **For MDF and Thermofoil door styles, moulding is painted maple**

Split Plinth Block



SPB
- 1″ Thick
- Available in solid cherry, maple, oak and hickory
- **For MDF and Thermofoil door styles, turning is painted maple**

Finished area of moulding is illustrated on drawings by bold line. All moulding is 8′ in length unless otherwise noted.

Designs of distinction®
by Brown Wood, Inc.
est. 1927

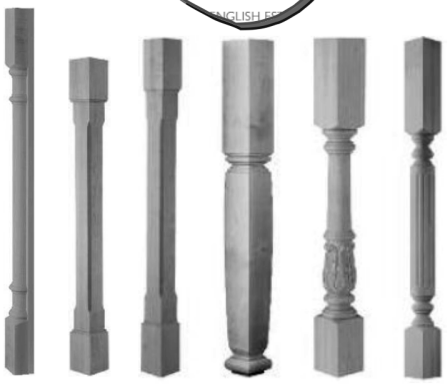
Choose from a unique selection of over 500 decorative corbels, capitals, moldings, corner posts, island posts, mantels, appliqués, rosettes, custom woodcarvings, and other decorative architectural components with Brown Wood, Inc.!

Brown Wood Inc. has been supplying fine quality, Made In America, custom components for more than 85 years. Our work with custom manufacturers in furniture, store fixture, and consumer products has allowed us to be at the forefront of the ever changing design world.

In 1998, we realized that there was a need for high quality decorative wood elements for the Kitchen and Bath markets. Design was changing. Consumers wanted layered finishes, varied heights and depths, islands the size of their old kitchen, mouldings that matched their doors and corbels for their custom hoods. Seeing the need, we created Designs of Distinction®, a premier line of decorative wood accessories.

In the last 15 years, the Designs of Distinction® line has grown from 100 decorative elements to more than 3,500 components, all available for immediate shipment. These components make up our 30 designer collections.

Each collection evokes a certain mood. Warmth and hospitality are the highlights of some of our traditional collections including our English Estate and Classic Revival collections, while simple elegance is the key to the Arts and Crafts, Simplicity, and Shaker collections. The exacting detail and refined carvings of the Infinity, Celtic and Nouveau collections define graciousness and hospitality, while the detail of the tapered cuts in the Palladian and Pinnacle collections feature classic simplicity, and restrained graciousness. Our Baroque and Empire collections meld the warmth of wood with the strength of iron and our Bungalow collection features the understated style of Art Nouveau.



Our latest achievements include the addition of our Brilliance Collection featuring our Patent Pending Light Ready Light Rail™. Designed for use with both framed and frameless cabinetry, you can choose to light a kitchen with task or ambient lighting by applying the LED to either the 45 or 90 degree precut angle. The Brilliance Collection includes carved inserts for our Light Ready Light Rail™ and crown moulding that match 21 of our designer collections. Each designer collection includes table, island and bar height columns with corbels, onlays, bun feet, mouldings and various trim rounding out the collections.

You will now have the ability to choose from their extensive Designs of Distinction catalog and add items to your order for finishing here at Wellborn. Items will be available to order in Cherry, Maple, Oak and Hickory depending on item selection. All applicable colors and finish techniques available for each species in your chosen Wellborn brand will be available.

Ordering Guidelines:

Click on the WAY site and place your orders today in Direct Connect...just one kitchen at a time!

To order, go to WAY and access Direct Connect. Follow the instructions listed below:

1. Create an Order in Direct Connect by clicking on Standard, following on normal Admin and Header procedures and then click on the green plus sign at the bottom left of the Line Item screen.
2. Browse the Brown Wood product offering from their Designs of Distinction catalog and enter the item of your choice (Please note Wellborn will only finish items in the following wood species: Cherry, Maple, Hickory and Oak).
3. Preview item and pricing, make your selection, and then add to order.
4. Submit your order following the usual procedures.
5. Lead times will be adjusted in real time to reflect product availability from Brown Wood when necessary.

Finished Brown Wood components will ship on your Wellborn truck or UPS.

Note: Brown Wood items are not available on Rush.

ART FOR EVERYDAY™.

Architectural Woodcarvings

Choose from a unique selection of over 750 decorative corbels, capitals, moldings, corner posts, island posts, mantels, appliqués, rosettes, custom woodcarvings, and other decorative architectural components with ART FOR EVERYDAY!

Art for Everyday is an architectural wood carving company that create high quality, timeless woodcarvings, providing innovative design details to designers, architects and cabinetry companies. Driven by a commitment to originality, they offer their clients a selection of 750 ready-to-ship products as well as their unique ability to bring design visions to life with custom craving and applications. For AFE, your input is key many of their creations. AFE's products encourage creative freedom by allowing their clients to compose their own custom combination's using the finest materials and uppermost standards of craftsmanship. AFE's staff is passionate about the blend of art and architecture that encompasses all their products.

A Quality Story

Carvings are made from solid wood blocks giving every final piece not only an aesthetic advantage for color matching, but a structural advantage as well. AFE's color matching process is very precise and efficient as they only cut from small amounts of blocks at a time. Woods include species such as Maple, Cherry, Oak and Hickory. They use the best hard maple in the world sourced from environmentally managed forests in North America.

Master Carvers

At AFE their experienced, international wood carvers respond to the designer's vision with traditional or contemporary architectural carvings that are elegant, functional and lasting. Decades worth of knowledge are ingrained on each piece, their attention to detail and expertise facilitate in making Art For Everyday's collections synonymous with world class quality. A dedicated team will make your projects come to life.

So what does your next project involve? Think of it as a beautiful challenge and visit Art For Everyday on Wellborn And You by looking under Services.

How to build your L&S lighting system

1 Choose your LED Power Driver

Are you using 12V Products?
Yes!

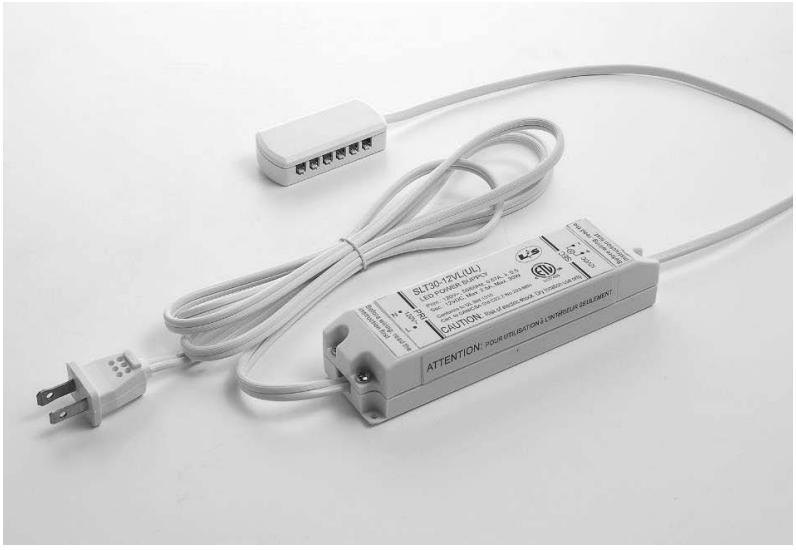
What is the total wattage of your Lights?

0-6W	6W LED Driver
0-30W	30W LED Driver
30-60W	60W LED Driver

Do you want to Dim on the Primary Voltage?
Yes!

Please use one of these drivers

10-20W	20W Dimming Driver
20-40W	40W Dimming Driver
30-60W	60W Dimming Driver



2 Choose your Switch (optional)

Are you using 12V or 24V Products?
Yes!

Do you want a Surface or Recessed Mounted Switch?

Surface	Bali Switch
Recessed	Malindi Switch

Would you rather have a sensor?
Yes!

Please use one of these Switches…

Behind a door or Cabinet	IR DC/DC Switch
On/Off by waving your hand	IR On/Off Switch
Occupancy Sensor	Motion Sensor

3 Choose your light fixtures

Our system is entirely Plug and Play, so mixing and matching Lights and switches is easy as 1, 2, 3.

Do you prefer Pucks, Linear fixtures, or both?
Puck Lights work great to create an aesthetically pleasing lighting design that showcases the fixtures “cone of light” to create mood. We like Puck Lights to be spaced 12-16” apart for even illumination and further apart to create a dramatic lighting space.

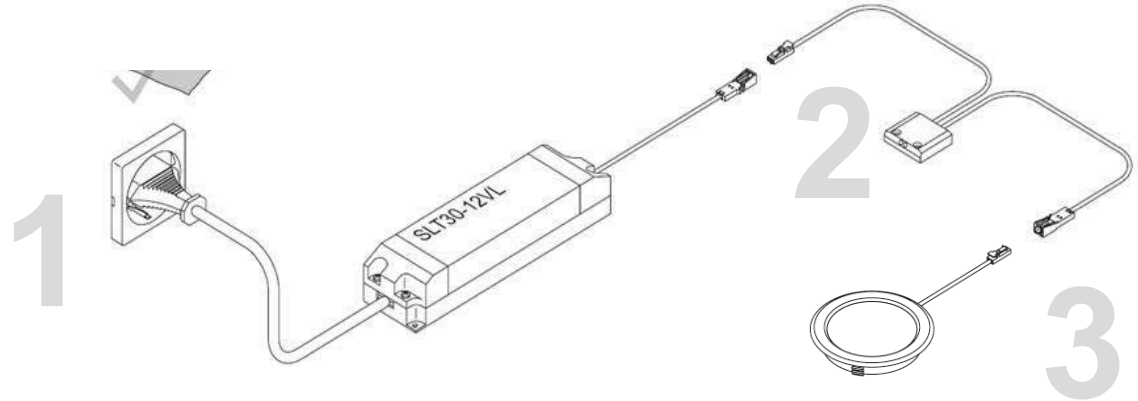
Linear profiles are the easiest way to maintain smooth, even light over surfaces and displays. By offering many different profiles we can recess fixtures to minimize glare (Malindi) and use Round fixtures like Ledo to aim the light where we please.

The nicest lighting layouts include layering of both Puck and Linear Fixtures to create a vibrant and engaging lighting design.

4 How does it all work together?

Our system works seamlessly in a linear fashion. A standard layout would look like this:

LED Driver ---> Switching ---> Lights



K1

Kitchen Lighting Scenario No. 1

Using Pucks

This Kitchen is entirely illuminated by Puck Lights. While the Pucks are placed close enough together (10-16") to create even illumination across the work surface their individual "cone of light" can be used to highlight the backsplash. This also creates a blend of light and shadows which build ambience and mood.

What products do I need to build this Lighting Plan?

8x	Sunny IN.TT
2x	6W Drivers
2x	Bali Switch

K2

Kitchen Lighting Scenario No. 2

Using Pucks and Linear Products

This Kitchen features a beautiful layered look. Puck Lighting in the upper glass cabinets creates accent lighting which draws your eye inside while the Linear Under-Cabinet lights builds proper task lighting. Further, recessed downlights and pendants round out a complete lighting package.

What products do I need to build this Lighting Plan?

13x	Sunny IN.TT
6x	Lugano
1x	60W Dimming Driver
6x	Extension Cables
	Cable Channel (white)

K3

Kitchen Lighting Scenario No. 3

Using LED Reel

LED Reel allows the most cost-effective solution for illumination while also being the easiest to install, simply clean the surface, Peel and Stick the LEDs the where they are needed.

Here, our LED Reel was used as up-lighting above the cabinets, as under-shelf lighting and toe kick lighting.

What products do I need to build this Lighting Plan?

2x	72LED Reel
1x	60W LED Driver
4x	Reel Starter Cords

MISCELLANEOUS ITEMS

Wood Veneer Edge Banding
EB3/4W

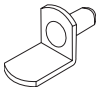
- ¾″ Width finished
- Pressure sensitive adhesive backing
- Oak is substituted for Hickory
- Thermofoil and MDF will be painted maple
- Sold in 8′ length. Must be ordered as 1 each

PVC Edge Banding
EB3/4PVC

- ¾″ Width finished
- Pressure sensitive adhesive backing
- Sold in 25′ length. Must be ordered as 1 each
- **Available in White, Linen, Sienna and Autumn Spice only**

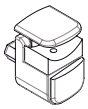
Delamination Shield
DSW (White)
DSA (Almond)

- For use with a free standing range to prevent delamination of thermofoil doors caused by heat from ovens
- A 1/32″ thick enamel coated metal shield
- Pre-drilled for screw placement
- Use on face frame sides of adjacent cabinets
- **For Linen Thermofoil, use Almond**



Chrome Shelf Supports
C2333PK50

- Decorative chrome shelf supports to accent cabinetry
- Available in packs of 50 only
- 5mm Diameter



Glass Shelf Clip
GSC

- 5mm Diameter padded glass shelf supports

Glass Clips for Mullion Doors

C2315PK25

- For use on mullion doors except shaker and Thermofoil door styles

- Eligible for 100% Co-op reimbursement

- Installation, Care & Warranty Guide and Putty Sticks are included with all sink and vanity sink base cabinets and sink fronts

ACCENT COLOR PROGRAM

Wellborn Cabinet, Inc., in collaboration with Sherwin-Williams, have established a program providing easy access to stains, stains with glazes, paints and paints with glazes that coordinate with our full palette of finishes. With over 3,300 locations across North America, you can easily find a Sherwin-Williams location near you. Visit their site at www.sherwin-williams.com.

Things to remember:

1) Take your Wellborn finished door with you.
2) Know the Wellborn finish/color name.
3) Bring a sample of the wood or material that you plan to finish for in-store color check.
   • For the best results, Wellborn recommends using the same wood species or material as the door you bring with you.
4) Be sure it meets your color, sheen and appearance expectations before you leave the store.

MIDDLEFIELD GLASS

Middlefield Glass can do special sizes, different designs and colors for your project. Visit their site at middlefieldglass.com, call them at 1-800-772-1477 or email them at info@middlefieldglass.com. You can easily get the measurements you need by measuring the interior of the decorative door frame.

BELWITH KEELER HARDWARE PROGRAM

Over 1,200 decorative hardware selections to choose from with Belwith Keeler! Just click on the WAY site and place your orders today in Direct Connect…just one kitchen at a time. The selections meet design styles in an array of finishes.

To order, go to WAY, and access Direct Connect. Follow the instructions listed below.

1) Create an order in Direct Connect by clicking on the Belwith Keeler box and follow all normal procedures on the Admin tab.
2) Browse the Belwith Keeler catalog and enter the item of your choice.
3) Preview item and pricing and click on Next Step for UPS Shipping.
4) Submit your order following the usual procedures.

Hardware will ship direct from Belwith Keeler.

Hardware Boards available! Customize your boards to fit your market. See details later in section.

Note: *Belwith Keeler* Hardware not available on Rush Program.

Belwith Keeler®

The roots of *Belwith Products, LLC* run deep, beginning with the birth of a small foundry in Michigan in 1893. From the humble beginnings of the *Keeler Brass Company*, international corporate ownership and multiple mergers, we now emerge as *Belwith Products*, a privately owned and operated firm.

Hundreds of years of staff experience, a living library of designs (dating back to 1900), and a passion to develop unique, creative hardware solutions, positions *Belwith Products* as the industry leader in kitchen cabinet, architectural, and furniture hardware.

Despite being a "new" company, *Belwith Products* is comprised of unparalleled experience and talent. Our vision is to offer the very best in products and service to customers today, while striving for continuous improvement in our product offerings and service for tomorrow.

Below is a small sampling of the products you will find in the Belwith Keeler Hardware Program.

ROTATING FLOOR TOWER

Item No. DRFT2575BK

Belwith Keeler®

Merchandising Solution for the Showroom

The Rotating Floor Tower, developed for showrooms, presents an attractive sales tool for your inside sales team or your walk-in traffic. Your four sided rotating floor tower display is a distinctive, appealing and user friendly showcase for your customers to compare a variety of styles, finishes and textures.

The display tower accommodates a custom arrangement of decorative hardware mounted to Pearwood finished display boards, which are easily set into the wood display tower, and removed as needed.

Decorative branded nameplates for Belwith-Keeler® are included.

FEATURES AND BENEFITS

- Removable display boards can be organized by any finish or style. (A)
- Branded nameplate is applied at installation into pre-drilled holes. (B)
- Standard and custom display board layouts available with easy installation
- Displays an average of 200 to 240 products on an average of 40 display boards.

APPLICATIONS

The Rotating Floor Tower Display is a free-standing display that sits on any level surface.

WALL DISPLAY

Item No. DWD1873BK

Belwith Keeler®

Merchandising Solution for the Showroom

The Wall Display, developed for showrooms, presents an attractive sales tool for your inside sales team or your walk-in traffic. Your Wall Display is a distinctive, appealing and user friendly showcase for your customers to compare a variety of styles, finishes and textures.

A custom arrangement of decorative hardware is mounted to Pearwood finished display boards, which are set into the wood framed Wall Display, and can be easily removed for updating.

A decorative branded metal nameplate for Belwith-Keeler® is included.

FEATURES AND BENEFITS

- Mounts directly to the wall with easy-to-install mounting bracket. (A)
- Belwith-Keeler® branding for each display. (B)
- Standard and custom display board layouts available. (C)
- Exclusive bracket can be positioned for use in slatwall applications.
- Hundreds of interchangeable display boards that can be organized by any finish or style.
- Flush side cornice molding allows for side-by-side mounting and more hardware per foot.
- Nameplate is applied into pre-drilled holes during installation.
- A single Wall Display will show up to 60 items depending on boards selected.
- Wall Display is a one piece construction that holds all display boards.

APPLICATIONS

A higher-end display that is attractive and extremely versatile, multiples of this display can be grouped together due to flush sides of the top molding, maximizing wall space and creating a gallery atmosphere.

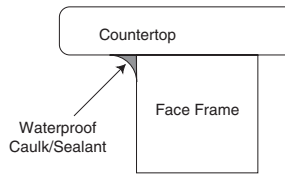
HELPFUL HINT



Caulk Countertop

Wellborn recommends that all countertops be caulked underneath the sink. This is to help prevent water seepage into the endgrain of the cabinet frame members and door members. Bullnose countertops, no matter the composition of the top, must be caulked at the time of installation.

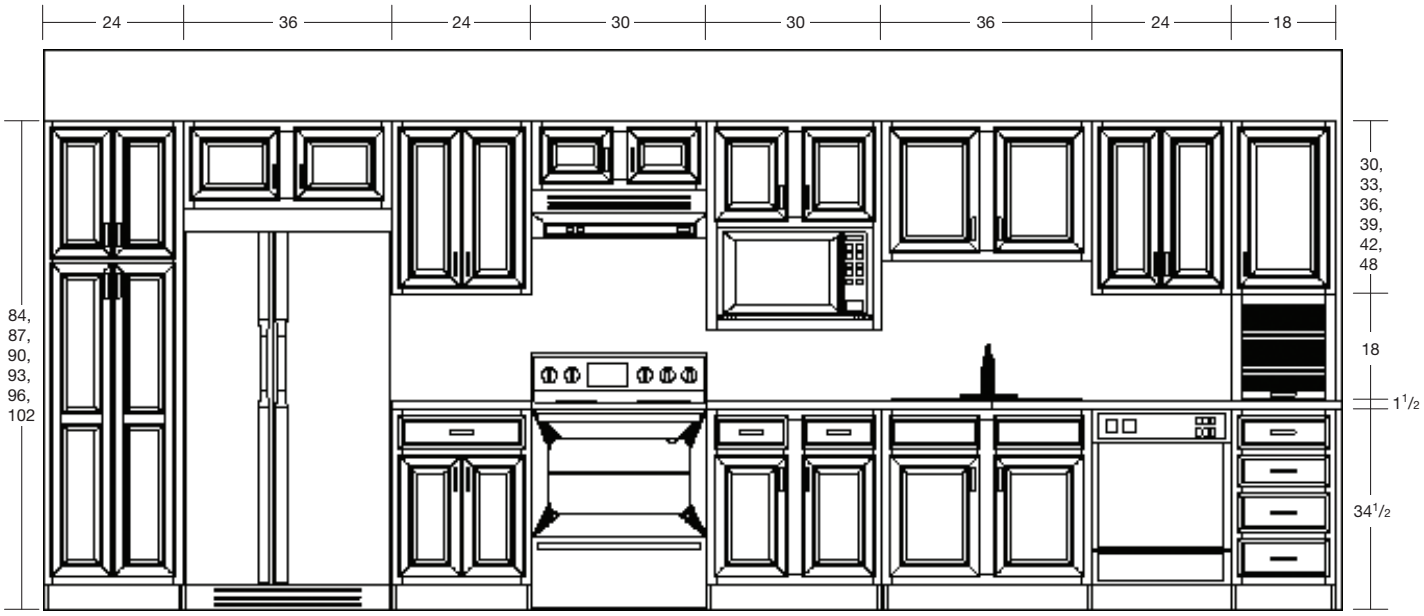
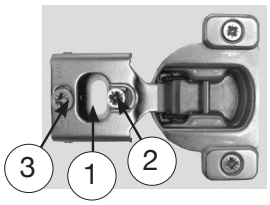
CABINETS – FRONT ELEVATION



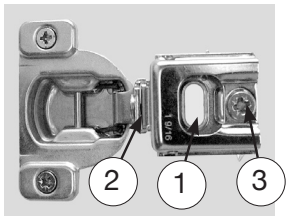
HINGE SPECIFICATIONS



*TOL

Hinge adjustment for all traditional overlay door styles used on all (2) door cabinets without center mullion:

1. **Height Adjustment:** Loosen fixing screw (screw #1) on all hinges of one door. Move door to desired position. Retighten fixing screws on all hinges.
2. **Side Adjustment:** Loosen side adjustment screw (screw #2) on all hinges of one door. Move door to desired position. Retighten fixing screws on all hinges. You have up to 1.5mm (1/16") in each direction.
3. **Depth Adjustment:** The cam (screw #3) moves the door in and out for depth of each hinge, just turn to adjust.



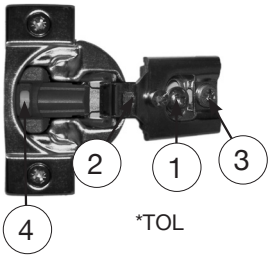
*FOL

Hinge adjustment for all full overlay door styles:

1. **Height Adjustment:** Loosen fixing screw (screw #1) on all hinges of one door. Move door to desired position. Retighten fixing screws on all hinges.
2. **Side Adjustment:** Loosen fixing screws (screw #1). Turn side adjustment screw (screw #2) until door is in proper position. You have up to 1.5mm (1/16") in each direction. Retighten fixing screw.
3. **Depth Adjustment:** The cam (screw #3) moves the door in and out for depth of each hinge, just turn to adjust.

Caution: Doors should not bind on adjacent doors or front of cabinet.

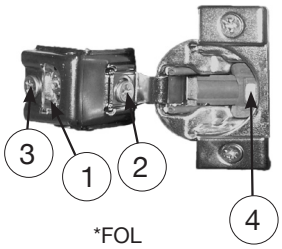
*** Use #2 Phillips head screwdriver for all adjustments**



*TOL

Smooth Close Hinge adjustment for all traditional overlay door styles used on all (2) door cabinets without center mullion:

1. **Height Adjustment:** Loosen fixing screw (screw #1) on all hinges of one door. Move door to desired position. Retighten fixing screws on all hinges.
2. **Side Adjustment:** Loosen side adjustment screw (screw #2) on all hinges of one door. Move door to desired position. Retighten fixing screws on all hinges. You have up to 1.5mm (1/16") in each direction.
3. **Depth Adjustment:** The cam (screw #3) moves the door in and out for depth of each hinge, just turn to adjust.
4. **Smooth Close Adjustment:** On/Off switch on each hinge allows adjustment of door closure speed.



*FOL

Smooth Close Hinge adjustment for all full overlay door styles:

1. **Height Adjustment:** Loosen fixing screw (screw #1) on all hinges of one door. Move door to desired position. Retighten fixing screws on all hinges.
2. **Side Adjustment:** Loosen fixing screws (screw #1). Turn side adjustment screw (screw #2) until door is in proper position. You have up to 1.5mm (1/16") in each direction. Retighten fixing screw.
3. **Depth Adjustment:** The cam (screw #3) moves the door in and out for depth of each hinge, just turn to adjust.
4. **Smooth Close Adjustment:** On/Off switch on each hinge allows adjustment of door closure speed.

Caution: Doors should not bind on adjacent doors or front of cabinet.

*** Use #2 Phillips head screwdriver for all adjustments**

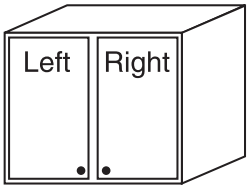
ORDERING REPLACEMENT DOORS AND DRAWERS

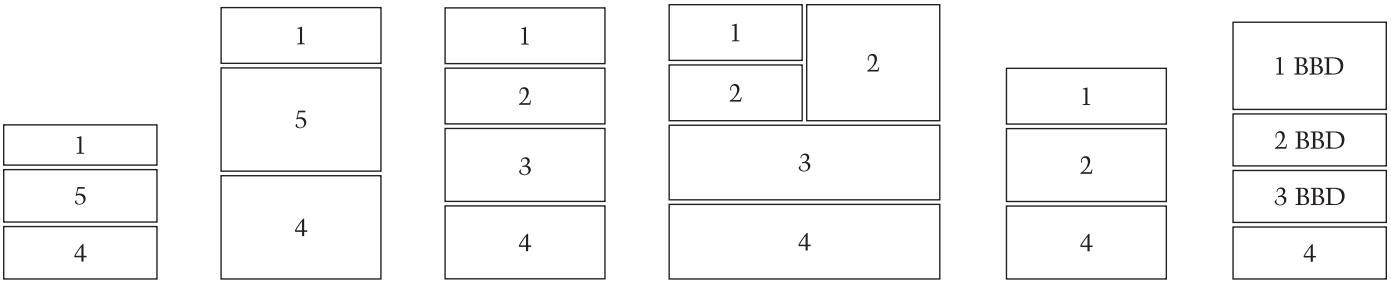
To eliminate errors occurring when ordering replacements, please use the following guidelines. Note that some item codes are very similar and must have the description code to determine the correct item.



1. Always order using the item codes found in the Easy Parts Search Program found on the Wellborn and You (WAY) site under Order Management.
2. Search for your code in the Easy Parts Search Program using the following criteria:
   a. Cabinet
   b. Door Styles
   c. Classic Drawer Front Option (if applicable)
   d. Slab Drawer Front Option (if applicable)

3. In the Easy Parts Search Program, highlight the finished door or decorative door frame, copy the entire row and paste it into the material blank of your Direct Connect order. Remember to select any additional options. Always specify what hinge or hand type (right or left) you need. To determine which hand you need, always picture the cabinet as it would be installed and then specify which side of the door is hinged as you face the front of the cabinet.

4. In the Easy Parts Search Program, highlight the drawer front or complete drawer, copy the entire row and paste it into the material blank of your Direct Connect order. Remember to select any additional options. For drawers, you must specify the cabinet depth. When ordering replacements for Full Overlay door styles, you will need to specify the drawer position for drawer stacks. See the diagrams.



Wall & DC Cabinets with Drawers

3DB, VDB, VSDB, VLC and Ovens

4DB, VDBBH and VSDBBH

5DB

DDB (Desk Height)

BBD18 requires special fronting on top (3) drawers. Note "BBD" when ordering.

Pricing

For finished doors, take the actual square footage of the door and multiply by the price for the increment under the door style you are ordering. For decorative door frames, pricing is $80 per SF based on a minimum/SF charge. For Mullion Doors, pricing is $160 per SF based on a mininum/SF charge.

Premier Doors $/SF	Brighton	Trestle	Essex	Bishop Harmony Prairie	Belmont Hartford	Rose Hall	Barcelona Davenport Henlow Milan Seville	Hanover Harbour New Haven Sandia	Bristol Cortland Madison Winslow	Geneva Messina Monterey Napa Savannah Sonoma Sydney Venice Vienna Wellington	Antigua Bali Bridgeport Charleston Chelsea Hawthorne Melrose Modesto Richmond	All Inset Door Styles
0 - 2.0	$49	$53	$60	$80	$84	$88	$95	$100	$112	$114	$128	$148
2.1 - 4.0	$39	$42	$49	$67	$72	$76	$80	$83	$94	$97	$108	$129
4.1 - 6.0	$35	$37	$45	$62	$68	$72	$76	$79	$89	$91	$102	$123
> 6.1	$31	$33	$39	$56	$62	$67	$70	$72	$80	$82	$93	$113

For Example:
W2130 replacement door in Essex
27.5 x. 18.5 = 508.75 / 144 = 3.533 sq. ft.
3.533 x $49 = $173.12 which rounds to $173 List

ORDERING REPLACEMENT DOORS AND DRAWERS (continued)

Pricing

For drawer fronts, take the actual square footage of the drawer front and multiply by the price for the increment under the door style you are ordering. For complete drawers, all overlay door styles are $325 per sq. ft.

- Blank fronts are a minimum of .5 SF charge based on door styles and tiered pricing.
- Complete Drawers are a minimum of 1 SF charge based.

Premier Blank Fronts $/SF	Brighton	Trestle	Essex	Bishop Harmony Prairie	Belmont Hartford	Rose Hall	Barcelona Davenport Henlow Milan Seville	Hanover Harbour New Haven Sandia	Bristol Cortland Madison Winslow	Geneva Messina Monterey Napa Savannah Sonoma Sydney Venice Vienna Wellington	Antigua Bali Bridgeport Charleston Chelsea Hawthorne Melrose Modesto Richmond	All Inset Door Styles
0 - 2.0	$62	$66	$67	$91	$95	$108	$115	$121	$133	$135	$148	$169
> 6.1	$52	$56	$57	$77	$82	$97	$101	$104	$114	$117	$129	$149

For Example:

B21 replacement drawer front in Essex
5 x 18.5 = 92.5 / 144 = 0.6424 sq. ft.
0.6424 x $67 = $43.04 which rounds to $43 List

Co-op at Order Entry

All orders placed as Quick Ship Co-op Eligible or Sales and Marketing Co-op Eligible will be automatically deducted from Co-op, provided funds if available. If you DO NOT wish to receive Co-op at order entry, simply place your sales and marketing support materials order as a Standard Order.

Quick Ship Program QS™

Many of our marketing materials are available to ship five (5) business days from your Wellborn rush order cut off date or nine (9) business days from your Estate rush order cut off date. Look for the Quick Ship Program emblem in this section denoting all items included in this program.

Sample Front Kits

Eligible for 100% Co-op Reimbursement

Our Sample Front Kit includes the drawer and door front finished in the color of your choice and packaged in an easy-to-carry box. A decal is included with the door indicating the door style, material and finish of the sample. The CDF option is available and option pricing will be applied when ordered.

INSET: Sample Front Kits are not available with hinges. Door will not open.

To order, use the door style code.

Moulding Sample Display Tray QS

Eligible for 100% Co-op Reimbursement

The Moulding Sample Display Tray includes a 5½″ natural finished sample of most of the available mouldings. These mouldings are in two natural finished wooden display trays that measure 7¼″ w x 18″d and have dividers to display the moulding. The display trays are an excellent design tool to help your customers visualize the potential use of mouldings and to piece together their own unique style. The trays can be easily removed from a display area and carried to your design area. Some mouldings include magnets to display stacking design.

6–Sample Chips Display Trays
SCDT

2–Moulding Samples Display Trays
MSDT

Installation Instructions

1. Remove wood strips from crate.
2. Remove front panel.
3. Carefully remove base moulding. Base moulding is fully assembled to fit base.
4. Lay crate on back and remove 6- 2″ screws from bottom (3 each end).
5. Lay crate back down and remove 8- 2″ screws from back.
6. Remove Design Center top from crate.
7. Lay top on the back side and remove shipping bars.
8. Set top onto top of base cabinet, making sure all perimeter moulding is overlapping base cabinet.
9. When top is aligned, set 8- 2″ screws (already started 4 each side) into base.

The Design Center is already built with a slight back tilt to assure doors stay in the closed position. If doors do not stay in the closed position, slightly tilt back until all doors stay in the closed position.

Base moulding is designed to fit when installed on hard floor surface (wood, tile, etc.). When installed on carpet, Design Center may need raising approximately ½″, depending on nap of carpet.

To install doors, slide top of hinge into top hole until bottom of hinge goes over moulding. Hold door in upright position and slide bottom of hinge into bottom hole.
Door will stop at preset height.

Display Door Hinge

Order B9393 for Wall Mount Displays ordered January 18, 2010 until October 5, 2014. Order B8291 (left hinge) or B8295 (right hinge) for Wall Mount Displays ordered October 6, 2014 or after.

***Overall width can be up to 48" when 19 doors are fully extended.**

Design Center and Wall Mount Display Door Replacements

Eligible for 100% Co-op Reimbursement

Display Doors are available to order 6 weeks prior to the door style/finish availability date for any new door style/finish combinations, unless otherwise announced.

Display Doors
Display Doors include the door style decal on back.
These doors can be ordered for the Wall Mount Display. The size is 14⅝" x 14⅛". Finish and finish technique charges will apply. Use the following codes to order replacement display doors for overlay and inset door styles:

- Overlay ordering code: **FD1414DD** **$150 List**
- Inset ordering code: **IFD1414DD** **$173 List**

Ordering Example:
FD1414DD PRE MRY MPL LGT

FD1414DDs and IFD1414DDs Available in the Quick Ship Program QS™
FD1414DDs in any combination are available to ship five (5) business days from Wellborn rush order cut off date and IFD1414DDs in any combination are available to ship nine (9) business days from Estate rush order cut off date. Ten (10) Quick Ship Display Doors are available across all the Wellborn Cabinet, Inc. brands. All other FD1414DDs will be shipped in 13-18 business days.

Installation Instructions:

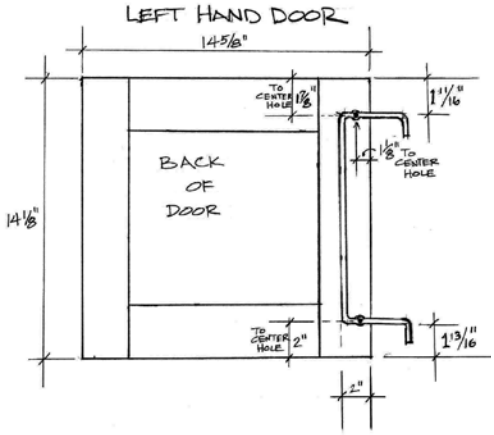
Mounting the Top Wall Mount Display (B9210 and B9220)
Locate the wall studs in the area you have chosen for your Display. The unit should be centered over two studs.

Mark the stud locations on the Display Unit and pre-drill four holes in the flat center area behind the doors display area (see drawing). Attach the unit to the wall with four (min. 2½") drywall screws at the pre-drilled locations. Be sure the screws penetrate the wall studs and the unit pulls tight to the wall. Cover the screw heads with caps if desired.

Mounting the Lower Wall Mount Display (B9215 and B9225)
Repeat the procedures above for locating and pre-drilling for installation screws. Slide the lower unit into the bottom of the upper unit and attach the unit to the wall with four (min. 2½") drywall screws at the pre-drilled locations. Be sure the screws penetrate the wall studs and the unit pulls tight to the wall. Cover the screw heads with caps if desired.

Doors (FD1414DD & IFD1414DD)

1. Place the door face down on a flat, non-marring surface.
2. Position the Door Pivot Hinge on the right side of the door centered top to bottom. See drawing for dimensions. Mark the hole locations on the back of the door.
3. Secure Door Pivot Hinge to the door with two #8 x ⅝" Pan Head screws.
4. The hinged door can now be installed in the Wall Mount Display Unit by inserting the top of the rod into the desired hole location, push the rod to the top of the hole and let the bottom of the rod slide into the corresponding hole at the bottom.



Decals for Door Samples
A marketing decal may be ordered for all sample front kits, design center doors and display doors. To order specify door profile, material, finish and any finishing techniques. Decals come standard on Display Doors and Sample Front Kits.

Wellborn Academy also offers an On Demand Webinar on this topic on WAY. Go to: Services/Wellborn Academy/On Demand Webinars

No Charge

Wellborn Mobile

Downloadable Wellborn literature and reference material at your fingertips with Wellborn Mobile, iBooks and your iPad.

- Downloading Wellborn Mobile documents to iBooks is simple and straightforward
- Makes Wellborn literature easy to find and access
- Can be utilized in an office or in-home sales meeting without internet access
- Explore The Recommended Apps for Pros section of this webpage which contains three Apps that we highly recommend to you.
    - MarginCalc – is a simple iPhone application that takes the hassle out of doing profit margin calculations. It is useful in a variety of sales situations and it is quick enough to use in a retail environment with impatient customers.
    - Remodeling Magazine – Cost vs Value contains data for 2010-11 from Remodeling Magazine. Remodeling professionals and consumers can compare the average cost for 35 popular remodeling projects with the value those projects retain at resale.
    - Houzz Interior Design Ideas – has the largest database of home design ideas on the net, with over 150,000 high resolution photos. Browse photos by style, room and location and save them to your virtual idea book – it's the equivalent of clipping design magazines to a scrapbook – making ideas easier to search, save and share.

Inspire – Internet Version (Consumer must be signed on the internet to access this application)

This easy to use, fun iPad app allows consumers to explore and save life elements provided in Inspires Galleries that identify their design style and taste. It also provides a place where they can mix and match these elements into a picture of how they want their home to look and feel.

When their inspirations boards are ready, they can be used to share their visions with you. This app makes it easier for you to meet their needs while bringing to light areas where you can make add-on sales. Visit Wellborn Mobile and add Inspire to your iPad today!

No Charge

Inspire – App Store Version (Internet Connection not required once the program is downloaded and installed)

This app is geared towards consumers. Unlike Wellborn's Web based version of Inspire, this version allows consumers to create a style board using photos from within Inspire and **their own photos.**

Consumers can mix and match photos until they find the correct combination. None of their Style Boards are written in stone. Now is the time to brainstorm ways to make their kitchen or home fit their needs and incorporate areas or "stations" that will help organize their belongings. When they have created the room or home with the atmosphere that identifies the essence of their life, Inspire's Dealer Locator can provide them with contact information for local Wellborn Cabinet Dealers, who can assist them in turning their inspiration into reality utilizing Wellborn Cabinets, Inc. cabinetry.

Wellborn Mobile Apps

Today's consumers are really into technical devices. Wellborn wants to accommodate them, so Wellborn Mobile was born. The Wellborn Mobile page provides links to all of Wellborn's apps.

Wellborn's KBIS 2016 App Available in the App Store, Google Play Store and Windows Phone Store

The Wellborn KBIS 2016 App was created to allow you to explore Wellborn's 2016 KBIS Exhibit via photographs. These photographs have been broken down into the Vignettes displayed this year. They include some of the new Door Styles, Finishes and Products that Wellborn is launching during 2016.

However, we did not stop there. This app encompasses not only Wellborn's products but also all of the Partner Companies that are featured throughout this year's booth. Renowned companies such as Belwith Products, Craft Art, GE, Hafele, Kichler Lighting, Kohler, L&S and Sherwin Williams all have beautiful and functional products spread throughout our 21 Vignettes.

Attending KBIS 2016? We have added a KBIS 2016 Events listing to this year's app. Access it to explore the conference options Wellborn has scheduled throughout the 3 days of this year's show. Need CEU credits? Wellborn is offering 2 free CEU credit sessions, Menagerie of Metals and Light Right with LED.
Pictures are worth a thousand words! We invite you to download this app and start exploring all the new options available to you in 2016. Happy Exploring!

Wellborn Brochures

Downloadable Wellborn literature and reference material are at your fingertips with Wellborn Mobile Apps. We now offer them to you in iTunes and Google Play. Using Flipping Book Publisher, we have created a library of brochures that can be viewed with our Wellborn Cabinet, Inc. Brochures App.

Downloading Wellborn Cabinets, Inc. brochures is simple and straightforward. Download our Spec and Price books directly from the WAY site, under Main Menu/Sales & Marketing/Catalogues. This app can be utilized in an office or in-home sales meeting without internet access.

Finding a specific item in the brochures isn't a problem with the search capabilities of this app. Type any word with at least three letters to find a specific item you're looking for. Bookmark any page of the brochure for future reference. Share the brochures with anyone through social media or through email.

WAY Sites Archives

Wednesdays with Wellborn is our weekly newsletters to our Dealers. This houses very important information regarding new products, program updates, holiday closing schedule, etc. Each issue is archived on the WAY site under Main Menu/Sales & Marketing/E-Newsletters.

Reach Campaigns are attached in our Wednesdays with Wellborn newsletter and contains important details on product launches, price changes, new programs or contests etc. Each campaign is archived on the WAY site under Main Menu/Sales & Marketing/Reach Campaign.

Wellborn Trade Sites

Wellborn maintains 5 websites geared to trade professionals:

Trade Sites	Web Addresses
Contractors WAY	http://www.contractors-way.com
Builders WAY	http://www.builders-way.com
Associates WAY	http://www.associatesway.com
Designers WAY	http://www.designers-way.com
Architects WAY	http://www.architectsway.com

These trade sites offer tools to assist your Associate Dealers, Architects, Builders, Contractors and Designers with securing Wellborn product information.

Link to Wellborn's Web Site

www.wellborn.com

Eligible for 50% Co-op Reimbursement

You can place a link to the Wellborn website giving your customers access to the full Wellborn product line. It only takes three easy steps. These steps deactivate the Dealer Locator, keeping your leads secure.

Follow these 3 steps:

1. **Contact your local Web Master**
2. **Create a Wellborn logo link artwork on your site.**
3. **Link the Wellborn logo to our web address:**
   www.wellborn.com/index.php?who=dealer&dkmref=DealerName (replace "DealerName" with your dealer name)
   Please Note: The link above is case sensitive.

The Inspiration Center

Eligible for 100% Co-op Reimbursement

Let Wellborn help guide you through the selling process and give you a dynamic lead-in to your customers with The Inspiration Center. This amazing new program will let your designers lead clients step-by-step through the entire selling process with a state of the art program. We have created a tool that sells the value that your dealership and Wellborn bring to the table. This tool will help you express the quality and experience that a Wellborn dealer possesses over other dealers in your market.

The Inspiration Center is designed for both the Showroom and the road. No internet connection is required to support in-home and laptop selling.

This new program is designed to fit your needs.

1. **Standard Edition** – Install the software and you are ready to sell. No setup or configuration required. This edition will allow you to add your company name in a pre-selected font style.
2. **Custom Edition** – State-of-the-art customizable version that allows you to create salesperson biographies, company history, dealership photography and share your mission and vision with your prospects.

The Inspiration Center is designed to follow the proven consultative selling methodology of "Sell yourself, Sell your Company and then sell the product" and is represented in 5 easy to understand steps: Your Professional Team, Your Company, Your Solution, Your Experience and Your Inspiration.

Online Requirements:

• You must be online and logged into the WAY site for download.
• A one-time electronic acceptance of licensing and legal agreements will be required.
• Each instance of The Inspiration Center will require online activation once installed.

Call your Customer Service Representative for more information and to place your order.

Costs:

- **$250 per license – up to three**
- **$1,000 for 4 or more licenses. This will be the way to go for use in multiple locations with several designers.**
- **$100 yearly maintenance fee will be required. This fee includes upgrades to The Inspiration Center.**

Photo Library

Access many of Wellborn Cabinet, Inc.'s images via Photo Library. This program allows you to copy, download, or print images such as door style sample fronts and room galleries in low or high resolutions. To access Photo Library, log on to the WAY site and go to Services/Photo Library

Flipping Book Technology Added to Online Brochures

Wellborn's brochures on wellborn.com are created with a program called Flipping Book Publications. Go to our website at www.wellborn.com and scroll to the bottom of the page where you can select the Brochures tab. You will also find them under the WAY site.

Log into WAY/Main Menu/Sales and Marketing/Catalogs. With our new Flipping Books brochures you get high quality flip animation with the bookmark and search applications added in. Share your favorite brochure with anyone on social media or through email. Place different brochures on your web page with the share option by copying the embedded link provided.

See our Wellborn Mobile Apps for information on the Mobile App version.

Scrapbook

Take advantage of all that Wellborn has to offer on www.wellborn.com and explore/promote Scrapbook! You can invite your customers to use our website as a tool to save their favorite styles as they look through all of our product lines, door styles, finishes, lighting and more!

All they have to do is simply hover over a picture and click on the black heart with the white background. They will then be prompted to create a Scrapbook account where their favorite images will be stored. Each customer will have one board that contains all the images they have favored. When finished, they will have the option of sending their scrapbook to a Wellborn dealer and/or friends.

Chief Architect®

AutoCAD* Library on CD

We offer the convenience of AutoCAD to our dealers, designers and architects. Starting with the basics of our Specification Catalog, we have created a library of convenient and easy to use "blocks" that can be imported into most AutoCAD drawings, making it faster to create accurate and beautiful designs using Wellborn cabinetry. Each item is its own block, allowing the user to import only those cabinets needed. With all of the door styles put on individual layers, the user can quickly change the appearance of their design by simply turning on and off the door style using the layers tool. Door styles that have the option for CDF or SDF can be selected using the layers tool also. Our AutoCAD library is compatible with AutoCAD 2007 release and later versions. To download these files, go to: www.wellbornandyou.com, click on the CAD button in the Main Menu, select *Download Latest AutoCAD Library*. For a CD, contact the Marketing Department at extension 2216, to request a complimentary copy today.

*This catalog is independent of Autodesk, Inc., and is not authorized by, endorsed by, sponsored by, affiliated with, or otherwise approved by Autodesk, Inc. Autodesk, the Autodesk logo, AutoCAD are registered trademarks or trademarks of Autodesk, Inc., and/or its subsidiaries and/or affiliates in the USA and/or other countries.

Chief Architect Software

Wellborn brand catalogs are available for use with Chief Architect software. The catalogs include the cabinet boxes, door styles, finishes, wood species and accessories (mouldings, legs, corbels and onlays). Design in 2D or 3D — place cabinets, resize and add cabinet options. Easily show the client how the new project will look with numerous presentation views including watercolor. Print a cabinet schedule of materials to create your bids and pricing information. You can also use Chief Architect for your elevation and installation drawings as it complies with the NKBA standards. Download the Wellborn Collection catalog or a Free Trial Version of Chief Architect at www.chiefarchitect.com.

Retractable Banners

Eligible for 100% Co-op Reimbursement

These new tools will be great additions to the resources you are currently using in promoting Wellborn Cabinetry and our Authorized Contractor Program.

Great for tradeshows, exhibits and showroom floors, these banners are quality constructed and beautifully designed. They each come with an easy to carry case and are designed for ease of setup.

Wellborn Brands Retractable Banner
Measures 36″ x 80″
B8541 **$1,250 List**

Authorized Contractor Retractable Banner
Measures 33″ x 80″
B8542 **$525 List**

Photographic Services

Wellborn Cabinet, Inc., offers a variety of Photographic Services to enhance your marketing program. Virtually every picture shown in a Wellborn brochure is available to you for your use in advertising. The Wellborn logo must be used. Unless otherwise specified, all Photographic Services will include a Wellborn logo which will be ⅓ width of the ordered picture. The following describes the most popular items to choose from including available sizes.

Some items are available for overnight delivery; however, a $15 freight charge will be added to the cost of those Photographic Services. This cost is due to the fragile nature of the products and to secure tracking in case of loss.

Please call the Wellborn Art Department at (800) 762-4475, ext. 2386, to place an order or use the form located in this section. The steps in the ordering process are:

- **Your customer information will be recorded on a Photographic Services Order Form (located in this section).**
- **The Credit Department is asked for approval.**
- **After credit is approved, the form is faxed to you for your signature.**
- **After obtaining your signature, the order is placed with the printing company.**
- **Decals, prints, duratrans and Pop-Up Displays are sent to the Wellborn Art Department for approval and then sent to you.**

Prints and Duratrans

Eligible for 100% Co-op Reimbursement

Color Prints are available for **MOST PHOTOS** illustrated in Wellborn brochures and require at least a two week lead-time. In order to preserve and protect your prints, all prints come standard with luster UV laminate and can be mounted on 3/16" Gatorboard. Our studio also offers ready-to-hang Edge Framing in silver or black finish. Duratrans, or transparent positives, are used in conjunction with a light box to create a dramatic backlit display. The light box is professionally built to include color correct bulbs and even light distribution. The light box may be flush or recess mounted.

Contact the Wellborn Art Department at extension 2386 or use the form located in this section to place an order and request pricing.

Billboards

Eligible for 50% Co-op Reimbursement

Full color Wellborn Billboard Posters, as shown here, can be designed to display your favorite Wellborn kitchen with your dealer information in the lower right corner. Use them in your market to advertise your showroom location. Wellborn Art Department can assist in design services.

Please allow a 2-3 week lead time.

TV Commercials on Beta SP

Eligible for 100% Co-op Reimbursement

Wellborn television commercials (with and without voice over) in broadcast quality on Beta SP and ready for your dealer tag. The Beta SP contains 30 second commercials and 15 second commercials. Contact the Wellborn Art Department at (800) 762-4475, ext. 2386, to place your order.

Pop-Up Displays

Eligible for 100% Co-op Reimbursement

Let Wellborn help you set the stage with our new Modular Pop-Up Displays. These elegant displays come in two convenient sizes for all manner of uses. Lightweight enough to be handled by one person, their sturdy design make them easy to use in your showroom or at a convention hall or show.

Displays come packaged in sturdy polyvinyl rolling cases with two or four twist-lock hinges that can be secured with your own padlocks for added security.

Set-up is both quick and easy as both displays assemble with magnetic ease to the scissor framework that can then easily be lifted into place.

Both displays come with their own adjustable, high-intensity lighting that moves in several directions to obtain that special look just right for your event.

Please allow 4 week lead time.

Sizes Available:

Large: 10′ W x 8′ H

Wellborn Table Cover

Eligible for 100% Co-op Reimbursement

This 8' oversized table cover is perfect for use at tradeshows, conventions or any event that requires a display table. These are available by request through the Wellborn Art Department. Call extension 2386 to order yours today.

Table Cover Included With Tabletop Display.

Truck Decals

Eligible for 50% Co-op Reimbursement

Wellborn's fleet of company trucks have become a nationally recognized symbol of our personalized service and delivery program.

Wellborn trucks have beautiful decals showing many of the Wellborn door styles. These decals are available in many different sizes for your use on delivery trucks. These decals have also been used on the sides of buildings and on the interior walls of stores.

Truck Decals are scotch prints with a peel off adhesive backing which should be professionally installed.

Each decal will have the Wellborn logo on the bottom right corner. This logo does not take up more than 30% of the width of the decal. Allow a 3 week lead-time on regular orders, 4-6 weeks on special requests. Contact the Wellborn Art Department at extension 2386 or use the form located in this section to place an order and request pricing.

Size*	**Size***
140″w x 96″h	60″w x 47″h
94″w x 67″h	54″w x 36″h
84″w x 60″h	45″w x 30″h

***Other sizes are available and will be quoted on a per order basis.

Virtually all photography is offered. Here are a few examples.

***Wellborn logo shown in white due to B/W catalog. Standard guidelines prohibit displaying a reversed out Wellborn logo.

Showroom Wall Graphics

We have now made the following wall graphics available for order through photographic services. These wall graphics have been custom created by our Marketing department for use as tools to help support understanding of our Finish Techniques and ColorInspire program. They are comprised of ¼″ white Sentra board with applied doors/drawer fronts and will be shipped to you for onsite assembly. All wall graphics are CO-OP eligible and lead times will vary up to eight weeks. Pricing will be quoted upon request. Requests should be made using the Photographic Services form found on WAY. For additional details or questions, please contact the Art Department at 1-800-762-4475

Discover Your Color Inspiration

This wall graphic features four 17⅛″ x 11⅝″ Maple doors in varying colors that have been finished using our ColorInspire program. It also features a 17⅛″ x 14⅝″ Oak Drift door. It is a beautiful visual that will allow your customers to see, touch and feel a custom finished sample. This visual will excite the senses of color lovers and inspire them to be creative with their choices. The possibilities are endless with ColorInspire. Overall graphic size 72″ x 54″

Your Life… in Color

This wall graphic features five 12″ x 15″ doors in varying styles, species and finishes. This visual showcases some of our beautiful earth toned colors and is a great addition to any showroom. It allows your customers to see just how detailed and beautiful our Wellborn finishes are on actual doors. With this graphic colors come to life and delight the senses of consumers. It allows finishes to become relatable and helps your customer to better understand how a feeling can influence their color choices. Overall graphic size 56″ x 60″

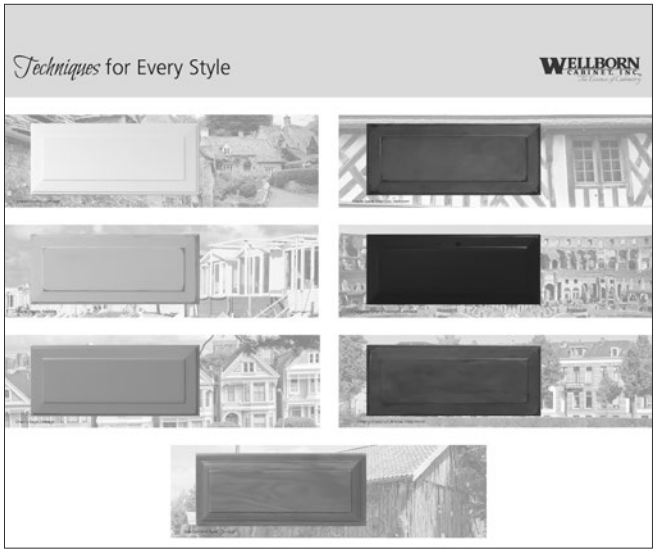
Showroom Wall Graphics (continued)

Brush Finish

This wall graphic features six 14⅝″ x 14⅝″ Maple doors in varying colors that have Brush Finish applied to each. This graphic serves as an elegant visual that allows your customers to see the subtle brush stroke that overlays the paint. This is a finish not seen with standard glazing and will truly be appreciated by being able to see, touch and feel it on an actual door sample. Overall graphic size 56″ x 47″

Techniques for Every Style

This wall graphic features seven 14″ x 6″ drawer fronts in varying species and finishes that showcase our individual finish techniques. This visual allows your customers to see, touch and feel the distinct markings and characteristics found within the application of each technique. Whether it's a vintage look or a light and breezy feel, your customer will have a better understanding of the beauty each technique offers. Overall graphic size 56″ x 47″



ColorInspire

This wall graphic features three 14⅝″ x 14⅝″ Maple doors in varying colors that have been finished using our ColorInspire program and the actual paper sample from Benjamin Moore that matches the finish displayed. This visual allows your customers to see the color difference from paper sample to finished wood door. It is a great tool for explaining color variance as well as the extended lead times required with this program. Overall graphic size 56″ x 47″

Co-operative Program - General Rules

Accrual

Co-op accrual is earned based on a percentage of your net sales for all qualified cabinet purchases, excluding taxes and credit charges, in the following brands: Estate Collection, Wellborn Closets, Elegant Bath Collection, and Wellborn's Select and Premier Series. See purchase agreement for Co-op advertising and merchandising percentage. Co-op accrues daily based on daily account activity.

Home Concepts orders do not accrue Co-op funds and are not eligible for reimbursement.

Reimbursement

1. The Co-op program reimburses at either 50% or 100% depending on the Co-op item. These items are detailed further within this section.
2. Credits will be issued for Advertising and Merchandising methods submitted January through the following March based on January through December net sales. A three-month grace period is available to submit claims for calendar year purchases.

Annual Cabinet (Purchase) Period Calendar Year

January	February	March	April	May	June	July	August	September	October	November	December

Co-op Claim (Submission) Period Calendar Year

January	February	March	April	May	June	July	August	September	October	November	December	January	February	March

3. Co-op claim forms must be submitted by **March 31st** after the close of the calendar year.
4. ADVERTISING CLAIM DEDUCTIONS CANNOT BE TAKEN FROM INVOICE REMITTANCE PRIOR TO RECEIPT OF CREDIT MEMO. All Wellborn invoices must be paid in full for Co-op credit, unless Co-op is issued at order entry. Please see below for Co-op at order entry guidelines.
5. All approved claims not submitted at order entry will be paid by credit memo to your account.
6. Co-op credits will not be issued on accounts with payments 15 days from net terms.
7. All claims must be submitted within 45 days of invoice date for prompt credit to be issued.
8. Claims are processed as soon as all required documentation is received.
9. Co-op claims cannot be carried over to the next program year.
10. Claims will not be approved in excess of the individual dealer's available Co-op credit balance.

Account Balance

1. Funds not claimed by March 31st will be forfeited.
2. Co-op balances can be found on the Wellborn&You CONNECTED site, on your account snapshot.

Co-operative Program - 2 Ways To File A Claim

Automatic at Order Entry

All orders placed as Quick Ship Co-op Eligible or Sales and Marketing Co-op Eligible will be automatically deducted from Co-op, provided funds are available. If you DO NOT wish to receive Co-op at order entry, simply place your sales and marketing support materials order as a Standard Order.

Placing a Direct Connect Co-op Order

1. Create Wellborn Order
2. Create New Quote
3. Choose one of the following:
   a. Quick Ship (Co-op)—This order will be available to ship in 5 business days.
   b. Sales and Marketing (Co-op)—This order will be available to ship at standard lead time.
4. Choose from the following items:
   a. Samples
   b. Sales Aids
   c. Other (Design Center Replacement Items, etc.)
   d. Sample Chips (SC) / Touch Up

How Your Claim is Processed

1. If 100% of the funds are available, your invoice will show a $0 balance.
2. If your Co-op balance is less than the amount of the invoice, you will be invoiced for the portion not covered by your Co-op.
   For example, if an order for $200 worth of literature is placed and the balance in Co-op is $150, the $150 will be deducted from Co-op and you will only be invoiced for $50.

Co-operative Program - 2 Ways To File A Claim (continued)

3. Please pay close attention to your invoice to make sure the invoice is totally covered by Co-op. Co-op will not show up on your Order Confirmation, but the Order Reason (found in the "Information" section at the top) will read COOP-Quick Ship, COOP-Samples, etc. The actual Co-op credit will show once the order is invoiced.

4. If your Co-op balance doesn't fully cover the invoice, you must submit your claim to the Marketing Department via fax, regular mail or e-mail to receive credit. (See the procedures for Manually Processed Claims below.)

Items Eligible for Co-op at Order Entry

Only items included on the Direct Connect Quick Ship (Co-op) and Sales and Marketing (Co-op) order screens:

- Literature
- SFKs
- And much more!

Items NOT Eligible for Co-op at Order Entry

- Model Homes
- New Leaf Promotional Products
- Wellborn Promotions
- All advertisements and marketing materials not included on the Direct Connect Quick Ship (Co-op) and Sales and Marketing (Co-op) order screens

Manually Processed Claims

1. Complete the Co-op Claim Form for each invoice.
2. Include needed documentation, such as copies of paid invoices, newspaper or magazine tear sheets, radio or television script affidavits with program log verification, photographs of trade show events, etc.
3. Mail to: Wellborn Cabinet, Inc.
   Attention: Co-op
   P.O. Box 1210
   Ashland, AL 36251
   Or Fax: 256-354-1874
   Or scan and e-mail forms and all supporting documentation to: coop@wellborn.com.

The Following Expenditures Cannot be Claimed on the Co-op Program:

1. 8′ Design centers—See your Wellborn Territory Manager about the 50% Display Program
2. Wall Mount Door Display
3. Showroom displays
4. Production or preparation costs of locally produced consumer or trade advertisements or advertising materials
5. Business forms, letterhead and business cards for the dealer/distributor
6. Advertisements in any fraternal or political activity or program
7. Postage, freight, handling, taxes or service charges related to purchase of any advertising
8. Travel costs related to attendance at local or national sales meetings or conventions
9. Advertising agency commissions
10. CAD programs and annual support fees

Co-operative Program - Merchandising

3 Ways to Order Merchandising Items

1. Direct Connect Quick Ship (Co-op) Order: Look for the QS™ symbol denoting items available in the Quick Ship program.
2. Direct Connect Sales and Marketing (Co-op) Order for all merchandising items.
3. Direct Connect Standard Order can be placed, but Co-op will not be applied when invoiced.

Merchandising

A. Literature & Marketing Support Materials

- Literature: Wellborn literature and marketing support materials qualify for 100% Co-op reimbursement.
- Photographic Services: The following Photographic Services are available for Co-op reimbursement:
  - Prints & Duratrans reimbursed: 100%
  - Billboards reimbursed: 50%
  - Pop-Up Displays reimbursed: 100%
  - Truck Decals reimbursed: 50%

B. Design Center and Samples

- Design Centers and Wall Mount Displays are not eligible for Co-op reimbursement. This is due to the standard 50% display discount received on these marketing items. However, if a dealer is ordering these marketing items to be placed in builder and remodeler locations and does not receive a 50% display discount for them, **upon special approval**, these will be allowed in the 100% Co-op Program. Special approval includes the Regional Manager and Marketing Director. Replacement items and updating your Design Center or Wall Mount with new doors and chips are eligible for 100% Co-op reimbursement.
- Samples ordered from Wellborn are also eligible for 100% Co-op reimbursement. For a list of all eligible samples, please see the Marketing Materials Section.
- Touch Up Kits, Putty Sticks and Cabinet Care Items are also eligible for 100% Co-op reimbursement.

Advertising

The following guidelines will help you make decisions when placing advertisements in your local newspapers, television stations and other media.

1. Any failure to follow the guidelines detailed in this publication will result in a denial of claims.
2. Co-op credits will be adjusted proportionally when other vendors are included. (For example: windows, countertops and other cabinet lines.)
3. Failure to use the Wellborn logo according to guidelines located in this section or failure to use the Wellborn logo at all will result in a denial of your Co-op claim.

A. Television and Radio Advertising

Eligible for 50% Co-op Reimbursement

- Includes time cost for television and radio advertisements.
- The Wellborn Cabinet, Inc. name is to be stated in the voiceover and logo must appear in the television commercial.
- Television and Radio Commercials for 30 second and 60 second spots ready for dealer tag are available from Wellborn.
- Production costs for broadcast media do not qualify for Co-op.
- When other brands or products are included, reimbursement will be calculated and prorated based on the percentage of the ad that features Wellborn brands or products.

B. Company Website

Eligible for 50% Co-op Reimbursement

Each website submitted is subject for review. The true Co-op percentage eligible is based on the number of pages featuring the Wellborn Cabinet Inc. logo and product. The cost of the website will be prorated for other vendors present on the website. The vendors present on the website include all brands of products in addition to faucets, countertops, windows, etc. See examples provided on the WAY Site.The amount of funds eligible will be determined based on these factors.

- Website requirements:
  - Must use the approved Wellborn Cabinet, Inc. logo
  - All photography must provide an indication to be Wellborn Cabinet, Inc. product
- Claim Submittal Requirements
  - Must provide the name of the website so we can visit the website to verify logos and content
  - An invoice from the webmaster or the website creator

C. Internet Advertising

Eligible for 50% Co-op Reimbursement

Internet advertising on websites by authorized dealers to drive traffic and Wellborn Cabinet sales will be considered for reimbursement by Wellborn on their merit including:

- Internet Banner Ads—Stationary digital image ads posted on an Internet site with a link to the advertiser's website. Internet Banner charges eligible for reimbursement include media cost and Internet management fees.
  - Ad requirements: The ad must include a Wellborn Cabinet Logo that meets the Logo Requirements. Wellborn Cabinet must be mentioned at least as many times as the advertiser's name.
  - Claim Submittal Requirements:
    - Printout of the ad within the web page
    - Vendor invoice detailing impressions, clicks and costs related to the banner ad, reference to the site the banner is posted on, the site the banner ad will direct the user to and the campaign activity dates
- Interactive Multimedia Ads—Internet ads that utilize an attracting agent, rich multimedia, video or audio device and operate within available bandwidth to direct users to a designated website. Interactive Media charges eligible for reimbursement include media cost and Internet management fees.
  - Ad Requirements: The ad must include a Wellborn Cabinet Logo that meets the Logo Requirements. Wellborn Cabinet must be mentioned at least as many times as the advertiser's name.

- Claim Submittal Requirements:
    - Print out of the ad within the web page
    - Vendor invoice detailing impressions, clicks and costs related to the multimedia ad, reference to the site the ad is posted on, the site the multimedia ad will direct the user to and the campaign activity dates
- Search Engine Marketing/Pay-per-Click Advertising—Internet ads (i.e. sponsored links, sponsored ads) placed by a dealer where the advertiser pays a host only when their ad or keyword relevant to their target market is clicked with a search engine, such as Google AdWords, Yahoo Search Marketing or Microsoft adCenter, and the dealer pays a specific amount for "Pay per click" (PPC). Charges eligible for reimbursement include only PPC providers that employ click fraud prevention and automated systems to guard against abusive clicks by competitors or corrupt web developers.
    - Campaign must include the Wellborn Cabinet name. Ads must include a Wellborn Cabinet logo that meets the Logo Requirements
    - Printout of the search engine/PPC ad dated during the time of the purchased campaign period
    - Media provider list of top 100 keywords used in the search
    - Media provider invoice detailing media cost, campaign activity, statistics on click-thru's and sites the media was placed

Approved Internet ads must:

- Include the Wellborn Cabinet logo that meets the Logo Requirements
- Be geographically targeted to drive traffic only in the dealer's assigned sales territory

Expenses for Internet advertising on appropriate websites will be reimbursed as follows:

- Internet Ads as described above qualify for 50% reimbursement.
- In the case where multiple products share the ad, Wellborn will determine in its sole discretion the appropriate percentage for reimbursement.
- Production costs associated with Internet advertising are not eligible for reimbursement.

D. Houzz Professional Listings/Wellborn Cabinet Projects

- Ad requirements:
    - You must create a project labeled Wellborn Cabinet or Wellborn Cabinet, Inc. and use this to keep your Wellborn Cabinet products located. (Please note, we can be found by searching Wellborn Cabinetry)
    - Provide a link to your Houzz Pro Site
    - Provide a screenshot or link to your professional listing
    - When using Wellborn Cabinet in your projects, make sure you add our name in your keywords or description of the project photos when the Wellborn Cabinet product is shown.

E. Newspapers, Magazines, Catalogs, Shopper Circulars, Flyers and Inserts

Eligible for 50% Co-op Reimbursement

- Space cost for print advertisements and space cost for inserts.
- Digital images are available from Wellborn for ad creativity. See page MM-19 for more information.
- The Wellborn logo must appear on ad equivalent to size of dealer logo.
- Tear sheets must accompany invoices and Co-op claim form.
- When other brands or products are included, reimbursement will be calculated and prorated based on the percentage of the ad that features Wellborn brands or products.

F. Direct Mail, Email and Lead Response

Eligible for 50% Co-op Reimbursement

- Direct mail, email, lead management response and similar direct response communications on Wellborn's behalf which are distributed in the dealer's local trading area qualify for 50% reimbursement of Wellborn's portion of the printing, postage/distribution cost or campaign cost.
- The direct response piece must prominently feature the Wellborn name and Wellborn logo that meets the Logo Requirements. The Wellborn brand name must be mentioned at least as many times as the advertiser's name.
- For printed material, claims must include:
    - Copy of printed piece
    - Media provider's invoice substantiating preparation, printing, distribution/mail receipts stating number of pieces mailed/distributed, rate and total postage cost, or supplier's invoice showing certification of distribution.
    - For Email Marketing, claims must include:
        - Printout of the sent email campaign showing campaign email title and date message was sent
        - Media provider's invoice indicating email marketing charges and campaign dates
        - Tracking report detailing the email subject line, number of emails sent and date emails sent
- When other brands or products are included, reimbursement will be calculated and prorated based on the percentage of the ad that features Wellborn brands or products.

G. Trade and Consumer Shows

Eligible for 50% Co-op Reimbursement

Home shows will be considered for reimbursement by Wellborn on their merit and **must be pre-approved by the dealer's Territory Manager.** Contact Wellborn for details on the rules and approval before making a show commitment. Wellborn product and logo must be used and Logo Requirements must be followed.

Expenses for Home Shows will be reimbursed as follows:

- Booth space at home show reimbursed: 50%
- Cabinetry used in the booth reimbursed: 50%
  - Must include the Wellborn invoice, layout and pictures of cabinetry placed in booth to qualify
- Freight costs and Drayage: Not eligible for reimbursement
- Show services: Not eligible for reimbursement

When submitting claims for reimbursement, the dealer claim must include:

- Copy of the show contract/invoice for booth space
- Photograph of the home show booth
- Photograph of the Wellborn portion of the booth

When other brands or products are included, reimbursement will be calculated and prorated based on the percentage of the booth that features Wellborn brands or products.

H. Joint Advertising with Your Customers

Eligible for 50% Co-op Reimbursement

- Your customers (remodelers, builders and sub-dealers) may use the Wellborn logo in their advertising.
- You can also allow them to use your Co-op dollars in this effort.
- The dealer must submit all claims, and all Co-op advertising guidelines must be followed for credit to be issued.
- When other brands or products are included, reimbursement will be calculated and prorated based on the percentage of the ad that features Wellborn brands or products.
- *Remember to include needed documentation such as copies of paid invoices, newspaper or magazine tear sheets, radio or television script affidavits with program log verification, photographs of trade show events, etc.*

I. Yellow Page Advertising

Eligible for 50% Co-op Reimbursement

- Yellow Page ads listed under the category "Kitchen Cabinets and Equipment-Household" that include the Wellborn logo.
- Invoice and copy of ad must be submitted for reimbursement.
- When other brands or products are included, reimbursement will be calculated and prorated based on the percentage of the ad that features Wellborn brands or products.

J. Wellborn's National Yellow Page Trademark Program

Co-op Reimbursement Based on Sales Volume

- Our National Yellow Page Trademark Program is an excellent way to get your dealership's name into your local Yellow Page directory under the Wellborn logo for a minimal cost to you.
- Participation is based on net paid invoices from September of the previous year to August of the current year.
- Participants are notified of their eligibility each October.
- Below is the category breakout for the percentage Co-op will cover for participation in the program:

  100% – Sales of $1M plus
  88% – Sales of $100,000 - $999,999
  75% – Sales of $50,000 - $99,999

- National Direct Media Service is our agent for this program. Their expertise in yellow page administration will ensure convenient and accurate listings.
- National Direct Media Service will also handle all mailings and will contact you directly about your listings.
- National Direct Media Service will also collect all payments.
- Submit your invoice from National Direct Media Service to the marketing department to receive Co-op reimbursement.

K. NARI, NAHB Remodeler Council & NKBA Local Dues

Eligible for 50% Co-op Reimbursement

Dues paid to join your local NARI Chapter, NAHB Remodeler Council and NKBA Chapter are eligible for Co-op reimbursement. Submit copies of paid invoices.

L. Dealer Open House and Business Meetings

Eligible for 50% Co-op Reimbursement

- Wellborn will reimburse a portion for the Open House directly related to Wellborn.
- Business meetings must include a presentation of Wellborn products, programs and promotions given by a Wellborn Representative.
- A Wellborn Representative must be present at either event.
- Costs such as meeting space, refreshments (excluding alcoholic beverages), invitations and advertisements to the event are eligible for up to 50% reimbursement.
- Photography from the events showing Wellborn participation at the event.
- Name of event and how Wellborn will be promoted at either event.
- If other vendors are represented, reimbursement will be calculated and prorated based on the number of vendor representation.
- **Prior approval is required.**

M. Merchandising Sales and Promotional Programs

Eligible for 50% Co-op Reimbursement

- Specified programs sponsoring Wellborn product may be eligible.
- Individual programs will detail the extent of Co-op.
- If other vendors are represented, reimbursement will be calculated and prorated based on the number of vendor representation.
- Name of event or promotion and how Wellborn will be represented.
- **Prior approval is required.**

N. Model Home/Parade of Homes Program

Eligible for 50% Co-op Reimbursement

- Wellborn will extend a discount of up to 50% off net factored pricing for cabinetry used for Parade of Homes and/or Model Homes.
- Model home kitchen layouts, photos of installed cabinets and invoices are needed with claim form.
- Name of subdivision.
- Number of homes in subdivision.
- **Wellborn Territory Manager approval required.**

O. Outdoor and Indoor Advertising

Eligible for 50% Co-op Reimbursement

- The cost of billboards, fleet images, decals and store signs.
- This includes Wellborn's photographic services and fleet images.
- The Wellborn logo and photography must be used.
- Installation costs do not qualify for Co-op.
- Billboard space rental is also eligible for Co-op reimbursement.
- The approved Wellborn logo must appear on ad equivalent to size of dealer logo.
- If other vendors are represented, reimbursement will be calculated and prorated based on the number of vendors represented.

Other

Any non-standard advertising method requires **written pre-approval by Regional Sales Manager and Wellborn Management.**

2020 Application Integration Module (AIM) Fee

Eligible for 100% Co-op Reimbursement

- 2020's AIM allows the 2020 quote report to be converted into an XML file which can then be uploaded to Direct Connect on WellbornAndYou.com
- Yearly Renewal Invoice from 2020 for AIM fee must be submitted by Dealer to Wellborn. See page 12-44 to learn how to submit a manually processed claim.

Co-operative Program - Other Eligible Items (continued)

Wellborn Academy Training Seminars

Eligible for 100% Co-op Reimbursement

Most Wellborn Academy registration fees may be deducted from Co-op at the time of registration, provided funds are available. Otherwise, a copy of the check and registration form are needed with the Co-op claim. Wellborn Academy classes eligible for Co-op reimbursement: Wellborn Closet Training, Associate Dealer Training, Wellborn Selling Solutions, Installation and Finishing Touch, Finishing Touch (1 Day), 2020 and ProKitchen. **Authorized Contractor Training is not eligible for coop reimbursement.**

Wellborn Academy expenses eligible for 100% Co-op reimbursement include:

- Registration Fees
- Hotel cost
- Airfare
- Mileage at $0.39 per mile

Designated Wellborn Promotions

Eligible for 100% Co-op Reimbursement

Special pre-approved promotions qualify for reimbursement. Wellborn will provide all information on these programs as they become available. **Requires prior approval from Regional Sales Manager and Wellborn Management.**

Other

Any non-standard Merchandising methods requires **written pre-approval by Regional Sales Manager and Wellborn Management.**

Wellborn Logo

The Wellborn Cabinet, Inc. trademark must be used in all print advertisements and promotional materials in a size equivalent to the dealer's or distributor's logo in the ad. No Co-op will be issued for missing or improper logo. The logo must be the proper logo style shown above.

Logo must print black in:
- Black and white ad
- Two color ad when the colors are black plus another color other than PMS 2955 Blue

Logo must print PMS 2955 blue in:
- Two color ad when the colors are black and PMS 2955 blue
- Five color ad (Four color process plus one PMS color)

Four color process ad logo must print:
- 100% cyan, 45% magenta, 0% yellow and 37% black

When using "The Essence of Cabinetry", tagline must print:
- PMS 871 Metallic Gold when running five color
- 15% cyan, 30% magenta, 65% yellow and 25% black or 50% PMS 2955 when four color process is used

Wellborn Closets Logo

The Wellborn Cabinet, Inc. logo must be used whenever the Wellborn Closets trademark is used in all print advertisements and promotional materials. See above for Wellborn Cabinet, Inc. logo usage instructions. The Wellborn Closets logo should be proportionally smaller. No Co-op will be issued for missing or improper logo. The logo must be the proper logo style shown above.

Logo must print black in:
- Black and white ad
- Two color ad when the colors are black plus another color other than PMS 2955 Blue

Logo must print PMS 2955 blue and PMS 188C in:
- Two color ad when the colors are black and PMS 2955 blue
- Five color ad (Four color process plus one PMS color)

Four color process ad logo must print:
- Wellborn blue: 100% cyan, 45% magenta, 0% yellow and 37% black
- Pantone 188C: 0% cyan, 97% magenta, 100% yellow and 50% black

Active Living Logo

The Wellborn Cabinet, Inc. logo must be used whenever the Active Living trademark is used in all print advertisements and promotional materials. See above for Wellborn Cabinet, Inc. logo usage instructions. The Active Living logo should be proportionally smaller. No Co-op will be issued for missing or improper logo. The logo must be the proper logo style shown above.

Logo must print black in:
- Black and white ad
- Two color ad when the colors are black plus another color other than PMS 2955 Blue

Logo must print PMS 2955 blue and PMS 871 gold in:
- Two color ad when the colors are black and PMS 2955 blue
- Five color ad (Four color process plus one PMS color)

Four color process ad logo must print:
- Wellborn blue: 100% cyan, 45% magenta, 0% yellow and 37% black
- Wellborn gold: 15% cyan, 30% magenta, 65% yellow and 25% black

ELEGANT BATH
COLLECTION™

Elegant Bath Collection Logo

The Elegant Bath Collection trademark must be used in all print advertisements and promotional materials in a size equivalent to the dealer's or distributor's logo in the ad. No Co-op will be issued for missing or improper logo. The logo must be the proper logo style shown above.

Logo must print black in:
- Black and white ad
- One color ad when the colors are black plus another color other than PMS 477 Brown

Logo must print PMS 477 brown in:
- One color ad when the colors are black and PMS 477 brown
- Four color process ad

Four color process ad logo must print:
- 50% cyan, 85% magenta, 100% yellow and 35% black

ESTATE
COLLECTION™

Estate Collection Logo

The Estate Collection logo must be used in all print advertisements and promotional materials in a size equivalent to the dealer's or distributor's logo in the ad. No Co-op will be issued for missing or improper logo. The logo must be the proper logo style shown.

Logo must print black in:
- Black and white ad
- Two color ad when the colors are black plus another color other than PMS 202C Red

Logo must print PMS 202C red and PMS 465C gold in:
- Two color ad when the colors are black and PMS 202C red
- Five color ad (Four color process plus one PMS color)

Four color process ad logo must print:
Estate red: 0% cyan, 100% magenta, 61% yellow and 43% black
Estate gold: 20% cyan, 32% magenta, 58% yellow and 0% black

TERMS AND CONDITIONS

All prices herein supersede all prior price lists and are subject to change without notice. Wellborn may also discontinue, without notice, the sale of any of the products listed herein. Wellborn also may make changes in specifications of any of its products without notice.

The sale of Wellborn products are made subject to the terms and conditions listed below, and to any change in these terms and conditions as published by Wellborn.

ORDERS will be accepted only through Direct Connect at www.wellbornandyou.com. Such orders shall be accepted and processed per the buyer's request. Confirmations are located on Direct Connect for review. If changes are not made during the change period that signifies the acceptance of the order. All trailerload orders should be a minimum of 2500 cubes. Maximum cubage for a 48 foot trailer is 2700 cubes. Maximum cubage for 53 foot trailer is 3300 cubes.

RUSH – All rush orders must be approved by Wellborn Customer Serivce. Rush orders must be specified prior to order entry. All rush orders are final – no changes are allowed. Curved door cabinetry, island hoods, wood hoods, islands, wainscot, custom appliance panels, stains and other items listed in the Rush Program Guidelines are excluded from the Rush Program. These items will receive standard lead time for shipment.

Order modification and cancellation must be done within the 24 hour change time from order cut off. (Not order confirmation)

QUOTES on KITCHENS–Wellborn Cabinet does not provide quotations to orders. Please note that ALL orders sent to Wellborn will be processed as an "order". The "Order Confirmation" received after submitting an order is to be used for verification of order accuracy and to cancel an order within 24 hour change period. For order quotations, see your local Wellborn Sales Representative or local Wellborn Dealer.

SHORTAGES or VARIANCES – A signed delivery receipt will indicate a complete shipment with no shortages.

CREDIT APPROVAL – Dealer orders are accepted subject to credit investigation and approval and delivery may be withheld or shipments stopped in transit on accepted orders without any liability on Wellborn's part if, in its opinion, the dealer's ability to pay for the merchandise on these terms and conditions is in doubt.

DELIVERY – (common carrier) Delivery to the initial carrier shall constitute delivery to the dealer. Wellborn's responsibility ceases upon delivery in good order to such carrier, and all merchandise is shipped at the customer's risk. The dealer is urged to inspect all deliveries very carefully before signing transportation receipts. If goods are visibly damaged, the dealers should insist that written confirmation of the damage be noted on the freight bill of the carrier. If damage is discovered after unpacking, the carrier should be notified at once so that inspection can be made and the claimed damages be verified by the carrier.

Wellborn will not be liable for any delay or failure in the delivery of goods against an accepted order or for any damage suffered by reason thereof when such delays or failure are directly or indirectly due to accident (in manufacturing or otherwise), fire, flood, riot, war, embargo, labor stoppages, inadequate transportation facilities, shortages of material or supplies, delay or default on the part of its vendors, regulations by Government Authority, or any like or dissimilar cause or causes beyond its control.

PRICE – Merchandise sold by Wellborn will be billed to the dealer according to the price and terms contained in its publications. In the case of orders for goods for which there is no price currently in effect, the price will be determined by Wellborn and advised to the buyer on a case by case basis.

"SPECIALS" – Any cabinet requested that does not appear on our price list is subject to prior approval and at a special price. Any special cabinet cannot be returned or cancelled after the order is placed.

TAXES – Any tax or other Government charge now or hereafter levied upon the production, sale, use or shipment of merchandise ordered or sold will be charged to and paid for by the buyer.

WARRANTY – Except where a different express written warranty has been issued with respect to particular products, no warranty, expressed or implied, is extended by Wellborn to any person or persons other than its distributors and other direct buyers. To direct buyers Wellborn warrants only that it will furnish the product or, at its option, repair any product of its manufacture or part or portion thereof, proved to its satisfaction to be defective in material or workmanship under normal use and service within ten (10) years of Wellborn Dealer's original date of purchase on the Premier Series and the Select Series. Wellborn will not be responsible for any damages whatsoever or for labor expense in connection with the replacement of defective products or parts or portions thereof.

The Select Series has a machine sanded finishing process and does not include the detailed hand sanding technique featured in the Wellborn Collection. Therefore, Wellborn Cabinet, Inc., does not recommend designs combining these series. Wellborn Cabinet, Inc., does not warrant finish matching between the Home Concepts or Select Series and the Premier Series due to differences in wood characteristics and finishing processes. Any claim arising from or related to cabinet finish matching in such blended or mixed designs is specifically and expressly not covered under any warranty provision.

This warranty is in lieu of all other warranties, expressed or implied, and of all other obligations or liabilities on the part of Wellborn. Wellborn neither assumes nor authorizes any other person to assume for it any other liabilities in connection with the sale of its products except in the case of express warranties, which may be issued by it in writing from time to time with respect to particular products. Please see dealer for complete warranty details.

NOTE: All cabinets should be verified by customer upon delivery. Once installed at jobsite, Wellborn Cabinet, Inc., will not allow cabinets to be returned for credit. (R1 Wrong Label on carton)

KCMA means "Minimum HUD Approved"--The kitchen and bath cabinets of the manufacturers listed in the KCMA Directory comply with ANSI/KCMA A 161.1-2000, "Recommended Performance and Construction Standards for Kitchen and Vanity Cabinets." The cabinets also comply with the provision of paragraph 611-1.1, "HUD Minimum Property Standards–Housing 4910.1", 9/8/86.
